

DETECTIVE IS CONVICTED OF WIFE MURDER

Maurice Lustwig Found Guilty Of Poisoning His Wife—Police Charge Double Motive—Insurance And Infidelity.

ONCE SERVED TERM FOR LARCENY

New York, May 15.—Maurice Lustwig a former private detective was found guilty of murder today in the first degree by a jury in the court of general sessions. The state contended that he poisoned his wife Rhoda with strychnine last October. She carried \$3,000 life insurance and Lustwig was in love with another woman. Mrs. Lustwig was in convulsions and it was thought she had spinal meningitis. An anonymous postal card first called the coroner's attention to the case. Life insurance companies pushed it and Mrs. Lustwig's body was finally disinterred at Milroy, Pa. where she was buried. The jury was out all night and reached a verdict at 10 o'clock this morning. When the foreman announced the verdict, Lustwig turned ashy pale, but quickly recovered his courage. In giving his history he said he served a year in the Western penitentiary of Pennsylvania for larceny. Judge Foster set next Friday for pronouncing sentence.

PERLEY IS WHIP.

Special to The Standard. Ottawa, May 15.—Geo. H. Perley, M. P. for Argenteuil, has been formally appointed chief outside whip of the Conservative party. This means that following the British plan there will be two chief whips, one for outside and one for inside work. Mr. Perley's duties will be mainly connected with organization and general party management. He will have permanent offices in the city and through his hands will pass all correspondence and business associated with the Federal Conservative party generally. Who the chief inside whip will be has not yet transpired. The names of several of the best men in the House have been mentioned, but it is probable that an eastern member will get the appointment. The removal of Mr. Geo. Taylor from the position of chief whip after the long service of 26 years, is much regretted. He has been a faithful servant of the interests of the Conservative party since the days of Sir John Macdonald, by whom he was appointed chief whip.

KING'S BODY TO BE MOVED TOMORROW

Georgous Procession Will Follow Casket From Buckingham Palace To Westminster Hall.

CAREFUL PRECAUTIONS AGAINST ANARCHISTS

London, May 15.—The official programme for the removal of the body of the late King Edward from Buckingham Palace to Westminster Hall next Tuesday, was issued tonight. It shows that the removal will be attended by a military spectacle only less impressive and imposing than the funeral itself. Following the casket, drawn on a gun carriage, will walk King George, the Royal princes and all the Kings and princely guests, together with the members of the late King's household, the Lords and grooms in waiting, court dignitaries, naval officers and the Queen mother's household. Then will come a procession of nine carriages, with the Queen mother and all the Imperial and Royal ladies. Upon arrival at Westminster Hall the late King's company of the Grenadier Guards who will have charge of the casket throughout the ceremony, will place the body upon the catafalque for lying in state. All the regalia having been placed upon the casket, the Archbishop of Canterbury will conduct a solemn service for the royal mourners, after which the public lying-in state will begin. Marines Draw Carriage. The details of Friday's ceremony are still incomplete, but it has been decided that bluejackets will draw the gun carriage with the casket to Windsor, where the last solemn service will be held. King George, Queen Mary, the King Mother and the royal family were present tonight at a solemn service over the body in the throne room at Buckingham Palace. The scene in the throne room was deeply moving, one of the most impressive displays being the hourly change of guards, who in full uniform with hands groined on reversed rifles, and with heads bowed, stand like statues, at each corner of the catafalque facing the bier. Not a murmur was heard. Continued on page 2.

WRIT FORBIDS PICKETING

Justice Drysdale Grants Injunction Restraining The U. M. W. From Stationing Pickets At Springhill.

Special to The Standard. Halifax, May 15.—Picketing will cease by the U. M. W. of A. at Springhill, for at least 10 days, and it may be that the practice will have to be abandoned altogether. Mr. Justice Drysdale on Saturday at chambers granted an order for an interim injunction against 19 miners enjoining them from this practice. The writ will be served today and is returnable on May 25 when will come up for argument whether the injunction shall be made permanent. Three of the men live in Glace Bay and 16 are residents of Springhill. The writ and injunction were obtained on the request of the Cumberland Coal and Railway Co., who are plaintiffs and the men mentioned are the defendants. The writ is in the name of George V. and his endorsement reads: "The defendants have conspired together to force the company to recognize the U. M. W. of A. and have been enforcing the company and its business. What the court demands in short is that the picketing must cease at the mines. The enforcement of this order will make matters a little more interesting at Springhill, where the strike has continued now for more than ten months. The miners are in operation with a limited number of hands, and both company and men express their determination to fight it out to a finish. Nearly a year has passed of idleness for the men, and a greatly lessened output for the mine. The finish does not appear to be in sight.
