

principles!

To forego all desire to accumulate money or chattels for personal advantage. To live decently, to have sufficient food, clothes, and shelter, but to ask no reward in this life. To dedicate their lives solely to the work of helping others, and bringing them to Christ. To spend their lives in consecrated ministry to the physical and spiritual needs of the poor, hopeless, needy, fallen, or stricken. THESE are the principles that govern the lives of the Salvation Army.

GERMANY HAS NO INTENTION OF FULFILLING

Terms of Versailles Treaty Says Von Hindenburg Only as Forced to by Allies.

COUNTS ON AMERICA TO HELP HER OUT

Conditions in Hungary and Germany as Viewed by Standard Correspondent.

(Cross-Atlantic News Service Copy.)

By Viggo Tøpfer. Berlin, May 6.—There is the greatest disappointment here that the occupation of Frankfurt and other German cities by French troops failed to bring about the hoped for rupture among the Allies.

Leading German politicians make no attempt to conceal their hope that constant pickpicks to France may shortly once more provoke action on the part of that country that will lead to a serious break in the alliance.

While politicians are careful not to say in so many words that it will be the aim of the German government to endeavor to wear out the patience of France, officers of the old imperial army are less cautious.

Von Hindenburg, who has become quite accessible to the correspondents he used to despise, is quoted as follows in an interview with a Scandinavian correspondent a few days ago.

"What is the use of pretending? Germany could not possibly fulfill the conditions of the Peace Treaty even if she had every intention of doing so, and you may take my word that the German people have no such intention.

We were forced to sign under pressure a most atrocious document, and a signature obtained under such circumstances does not carry with it the slightest moral obligation. It can be enforced by further pressure only.

"Unless the government desires to arouse the indignation of every patriotic German citizen, and we are all patriotic today as we were a little more than a century ago when Napoleon had us under his iron heel, it will yield to pressure only on the part of the Allies or rather France in carrying out such parts of the treaty as were merely designed to humiliate a proud and brave people.

When the correspondent asked him if Bismarck in 1871 had not treated conquered France in exactly the same manner as Germany now protests against, he replied with a laugh in his bluntest manner.

"Of course he did and he was right in doing so for he ran no risk. France stood alone friendless and deserted though she had the sympathy of the world and Bismarck had no predecessors or hypocritical humanitarians to consult. He had the power and the used it.

"The present circumstances are entirely different. There is no love lost among the Allies for their various selfish aims and ambitions which clash on many points and Germany is not without friends among them. Do you imagine we did not know we should have America with us when we protested against the occupation of Frankfurt? Nothing was more certain than that America would respond. She is drunk with the idea that she won the war and German Americans have votes which would go heavily against the party who did not protect us against French violence.

Sydney Man On Maritime Union

James Wray Says the Idea That Maritime Union Would be a Panacea for All Troubles Does Not Arouse Much Interest.

"Hence Logan is doing some good work about advocating closer cooperation between the Maritime Provinces, but his idea that Maritime Union would be a panacea for all our troubles does not arouse much interest," said James Wray of Sydney to a reporter last evening.

"If our public men have not learned now to cooperate, how are you going to expect the people to do better by simply jumbling the provinces together like a scrambled egg. All things on which there ought to be cooperation could be better attended to by the governments putting their heads together.

"Just what Mr. Logan is driving at I don't know. His scheme is rather vague. Apparently he would wipe out our county councils and to some extent our city councils. His idea strikes me as rather reactionary, and would strike at local government, which is the basis of the British system of democracy.

"Nationalists of devising a plan which will remove government from politics, we need more devotion in politics. Our legislatures now deny our cities that measure of home rule they ought to have. Interests of private promoters take precedence of the interests of the people of our cities in too much of the legislation affecting our cities and incorporated towns.

"So far from being overgoverned, we have not enough local government. How can we have any self-government unless we have full opportunity to practice it? The nearer we are to the government the better."

The growth of a strong anti-semitic feeling in all parts of Germany and particularly among the Reichswehr (National Guard) is causing the government considerable uneasiness.

Last week, a well-to-do Jewish merchant from Berlin, who was returning by eight train from Cologne, was assaulted by five soldiers of the Reichswehr on the command of a lieutenant, thrown out of the train at a small station in Westphalia, and arrested.

"Other occupants of the same compartment reported the outrage to the Ministry of Reichswehr, who immediately started an investigation, and eventually discovered that the merchant had been taken to the jail in Münster Westphalia, whereupon he was set free immediately. The soldiers are to be court-martialed.

Not is this incident isolated for in parts of Berlin you may every night see street orators haranguing excitable crowds with inflammatory speeches against the Jews whom they accuse of having caused all the miseries of the war and the lower classes in Germany are suffering. Last night I heard one of them stating that it was the rich Jews of Frankfurt who had brought in the French troops because they knew that the day of reckoning was near. Many of these orators are women who exhort their audiences to drive all the Jews out of Germany because Jewish officers in the German armies betrayed all plans to the enemy.

Reports from Hungary state that in that country anti-semitic feeling is growing every day and that the Jews there are living in constant fear of pogroms. Behind the movement are the so-called Christian Virtues Parties under the leadership of the fanatic Bishop of Szabolcs. It is not safe for anyone of Jewish appearance to show himself in the streets of Budapest and the doors of their homes are guarded by young members of the "Awakening Hungary" who prevent all Jewish students from entering the building. Thousands of Jews have fled from Vienna, Prague and Graz. The Hungarian government secretly supports the movement although it condemns it publicly.

General conditions in Hungary are daily growing worse and it is with the deepest despair that the nation seems to look forward to the future which appears to hold out only national bankruptcy and individual misfortune. Under the treaty conditions imposed on Hungary at Neuilly, the country will lose practically all its sources of wealth. One-third of its agricultural area is gone with twelve million acres of the best sugar factories. The country will still be in a position to export some agricultural produce, but its export of wood and timber is destroyed for only one-seventh of the forests remain. The country also loses all iron ore and natural gas districts, and also two of its largest coal mines. Its industries will be paralyzed for years because of depredations by Romanian gangs.

Plans For Police Chiefs' Convention

Chief of Police Rideout Met Committee in Mayor's Office in Moncton—Visiting Chief Constables Are to be Well Entertained.

The committee selected to assist Chief Rideout in the planning of arrangements for the forthcoming Police Chiefs' convention, which is to be held in Moncton, June 29th, 30th and July 1st, held a meeting Wednesday night in the Mayor's office. Mayor Chapman presided, and there were also present Chief Rideout, Ald. Hendry, P. R. Sumner, H. C. Charters, Clement Corriar, George A. Robertson, A. R. Leger, Clement Corriar was chosen secretary.

After some discussion relative to the drawing up of a programme for the three days' convention, the meeting decided to purchase at once 200 buttons, suitably inscribed, to be distributed to the visiting Chiefs. A representative of the Nicholls Company of Toronto, was present and look charge of the order.

The tentative programme as submitted by Chief Rideout, included a luncheon to be given at the Hotel Brunswick by the Provincial Government, at noon on the opening day. In the afternoon it is proposed to visit Shediac and Point du Chene, the citizens of both places having come forward with offers of all the necessary assistance. In the evening the visitors will attend a theatrical performance in the Grand Theatre. A proposition was also submitted to the meeting regarding the staging of a boxing bout after the theatre, either on the first or second night.

The theatrical performance, and boxing bout, if it can be arranged, are likely to be given on the evening of the second day (Wednesday). The evening of the opening day will in all probability be given over to a convention session.

The boxing bout and visit to Dorchester, with luncheon at the prison, are matters which as yet are still in doubt. The boxing bout would not doubt prove a big attraction and if arranged can be made it is believed this part of the programme will be carried out. Final arrangements in connection with the programme will be perfected shortly and the secretary of the executive, Chief Slemm, of Brantford, notified accordingly. Interest, and nothing is to be left un-Monctonians in general are looking forward to the convention, the most important gathering the city has ever seen.

INDEPENDENT LIBERALS WIN FIRST TRIUMPH

Their Nominees on General Com. of Nat. Liberal Club Beat Out Lloyd George Supporters.

LONDON, May 6.—(Canadian Associated Press)—An interesting reflex on political party tendencies of the moment is presented in the result of the election of the general committee of the National Liberal Club, where a vigorous effort was made to secure the election of Lloyd George supporters.

The ballot, however, has been a triumph for the Independent Liberal nominees, beating largely due to the solid voting of the country members. Meanwhile the Constitutional Club proposes to delete the words "conservative and moderate" from its official descriptions; presumably so that the National Liberal Club members, who disapprove of that building's dominant Anglican atmosphere, may seek the shelter of the Constitutional Club.

Lord Northcliffe Receives Assurances That Americans Are Not in Sympathy With Impertinent Message.

LONDON, May 7.—The London Times publishes a cablegram received by Lord Northcliffe from "The Loyal Coalition" of Boston, quoting a cablegram sent by that organization to Premier Lloyd George in which the message of the American Congressmen on the Irish question sent to the Premier is termed "impertinent" and declared: "These Congressmen will pay at the polls for this meddlesome interference."

It is further asserted in the cablegram that the procedure of these Congressmen, "does not represent in the slightest degree the attitude and sentiment of the overwhelming majority of American people."

From A Child Was Constipated

According to the best medical authorities, fully three-fourths of the people of the civilized world suffer in some form from constiveness or irregular action of the bowels. There is no doubt that many distressing disorders are caused by constipation. It gives rise to sick and bilious headaches, jaundice, heartburn, floating specks before the eyes, catarrh of the stomach, biliousness and the painful, troublesome piles. Therefore, it is of supreme importance to health that the bowels be kept regular. Simple food, fruit, etc., should be used, and rich food and stimulants of all kinds avoided.

This, with the use of Milburn's Laxa-Liver Pills to regulate and establish healthy action of the bowels can not fail to give permanent relief in the most obstinate cases.

Mrs. Letitia Walman, Orillia, Ont., writes:—"From a child I was always very badly constipated, and I can well remember when quite young, my mother or giving me senna tea nearly every morning, and I got to dread it. After taking Milburn's Laxa-Liver Pills for a while I am not troubled with constipation any more."

Milburn's Laxa-Liver Pills are 25c. vital at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

PROTEST AGAINST WHARFAGE RATES

Business Interests at Montreal Affected by the Increased Rates Ordered.

Montreal, May 6.—The new wharfage rates, authorized recently by order-in-council, have been in effect in this port since the beginning of April and the full tolls being collected amount in some cases to an increase of from 200 to 300 per cent over previous charges.

Strenuous opposition has been put up against these new rates by shipping interests and by the transportation bureau of the Board of Trade and the matter has been taken up with the Minister of Marine without result so far. A special meeting of the Board of Trade and other interests will be called if nothing is heard from the Minister of Marine within the next few days.

One million children in Hungary are starving but Italy has promised hospitality to 10,000 Italian ones this summer. Adventurers of all nationalities are crowding into the country attracted by its topography. A Swiss waiter, or a few days ago bought one of the most aristocratic palaces in the country for 50,000 Kronen—the price of half a dozen suits of shoddy clothes.

General conditions in Hungary are daily growing worse and it is with the deepest despair that the nation seems to look forward to the future which appears to hold out only national bankruptcy and individual misfortune. Under the treaty conditions imposed on Hungary at Neuilly, the country will lose practically all its sources of wealth. One-third of its agricultural area is gone with twelve million acres of the best sugar factories.
