

Memorandum:

Deputy Supt. General.

From the petition here-under addressed by the Micmacs of Burnt Church Reserve to the Hon. H.R. Emmerson it would appear that they are unanimous in desiring that the building lately erected on the reserve for a combined council house and school house be now utilized as a dwelling house for their Missionary. These Indians are all of one denomination. It would perhaps be well to accede to their request. The only objection would be that they would have to continue to use the old school building for school purposes, and from correspondence on File 118389 herewith it would appear that if this is done the ~~an~~ old building will have to be removed (at a cost of \$50.00) from its present site. If the Department agrees to the arrangement ^{Band funds} the ~~Indians~~ I think should be charged with the removal of the said building.
