

25040-4.

October 25, 1929.

Dear Sir,-

In the report on Earl Sands, a soldier settler of Walpole Island, it is stated that the crops are very poor and that the farm is in every way deteriorating. The reason for the failure of this settler is attributed to the fact that he is dealing in old motor cars. From this report it would seem advisable to cancel this loan and realize what the Department can. I shall be pleased to receive your report and recommendation.

Yours truly,

Duncan Scott

sel
Deputy Superintendent General
of Indian Affairs.
