told me about a picture. I made
another picture by my friends
and asked it might be possible
to get a photo of it for the Women's
section. I asked her if she would
write to you in regard to it, and
also asked I would like to have
one photo for a little while.
to accompany the re-production.
She told me you have her your
length to say you will do.
no have that as can as you
have time to get some pictures
together. I know that it will

Electron by acceleration in the
Pence Science Convention? It
has been interesting to hear to-day
how you have plunged into
the study of the E. I. R.
Radio-activity right in the
house.
Some weeks ago, when
the new illustration weekly, the
"Week-end Review" which I
am assisting Editor, was just
getting ready to make its
first issue, you gave me a small
