~~12~~ mother. dear mother came again when lady tauris left. I told her I was glad she came again. I was so sorry for the interruption, yes she said but they wanted you at the telephone. I said I know but the telephone message was not important and they had been told not to interrupt us but they thought it was important, mother said. - She then took up the conversation where we left off, she said you know we all love Joan, love her for herself, and for what she has done for you, tell her not to worry, she has been worrying a little too much, more about her problem is, but tell her not to worry that everything will be all right in the end, all always come to them that wait. sometimes it is better not to be married - whatever you do ^{is} ~~is~~ right; we will be pleased with whatever you do - we ^{know} ~~trust~~ your principles and good judgment.

I asked mother if she came to us in visions, in dreams. had she been guiding us. She said always more better guides than she ever that the wife did distract and help us. but I said I mean in the spiritual growth. I said dear mother all I want is to do what's best for my soul, she said she was always with me ^{and was} helping and I was partly "discipline", she was referring to things she brought to them we know in dreams and in reading
~~etc etc~~

Want you here as much - she said - I said how grateful we all were to her

as mother went away she come in more visions.

I found it hard to part with her. yet the feeling that she was better than she had ever been.
