Frightful
Dreams.

Dull Headaches.

**TRAVELER PAINS AND A FANTASY
DREAM TO URINATE.** Such were the
troubles of Mr. Joseph Leland, Alma
N.W.T. He happily found relief in
DOAN'S KIDNEY PILLS.

Here is what he says:—"I was troubled
with dull headaches, had frightful dreams,
terrible pains in my legs, and a frequent
desire to urinate. Noticing Doan's
Kidney Pills recommended for kidney
trouble, I decided to give them a trial.
I procured a box, and was very much
surprised at the effectual cure they made.
I take a great deal of pleasure in recom-
mending them to all kidney trouble
sufferers."

Doan's Kidney Pills help the kidneys
to drain off the poisonous impurities
which have collected, thus cleansing out
the kidneys, bladder, and all the urinary
passages. They correct inability to hold
the urine, and thus obviate the necessity
of getting up many times at night to
urinate. Their good results will be im-
mediately felt in all cases of kidney
trouble.

Price 50 cents per box, or \$1 for \$1.50.

on receipt of price, by **THE DOAN

A Habit Stanley Had.

It was remarked of the late Sir H.
M. Stanley, during his last visit to
New York, that he stood all the time
with his back to the wall during re-
ceptions, instead of standing out
where people would pass behind him.
Lady Stanley laughingly explained
that this was an old habit contracted
in Africa; that Stanley always stood
with his back against a tree or a bar-
ricade when brought in contact with
the savages, and it had become such
a habit with him that he took that po-
sition no matter where he was.

A NOTED HORSEMAN'S EXPERI-
ENCE.

Mr. Antoine Wendling, owner of
Deveras, 2111-4, and proprietor of
the Clifton House, Brockville, says he
has had much experience with horses
for general use around the stable. For
strains, sprains, swellings, internal
pains and especially for affections of
the whorl bone, Wendling is unequalled.
He is indispensable as a horse-fitter;
it has strength, penetrating power
and works thoroughly. Every horse
and stock owner should use Wendling.
Sold in large 25c. bottles.

It Wasn't Plated.
She was admiring the silver service.
"Family plate, I suppose?" she sug-
gested.

Mrs. De Swell drew herself up
laughingly.
"Plated?" she exclaimed. "Plated
There isn't a bit of that plate. It's
solid, every piece of it."

CONSUMPTION BEGINS WITH A
COUGH.

The cough racks and tears the ten-
der tissues of the throat. Inflamma-
tion supervenes and then serious
bronchial or lung trouble is estab-
lished. The important time is at the
beginning. Stay the progress of the
cough by using fragrant, healing Cat-
arrhoeone, which reaches every part
of the bronchial tubes, throat and
lungs. Catarrhoeone destroys dis-
eased germs, stops the cough, heals
sore spots, clears the nose and throat
of discharge. Catarrhoeone soothes,
nurses, irritates. Guaranteed for ev-
ery form of catarrh. For lasting
cure Catarrhoeone. Two months
treatment \$1.00; trial size 25c.

Stranger Than Fiction
A Remedy Which Has Revolutionized
the Treatment of Stomach
Troubles.

The remedy is not heralded as a
wonderful discovery nor yet a patent
medicine, neither is it claimed to
cure anything except dyspepsia, indi-
gestion and stomach troubles with
which nine out of ten suffer.

The remedy is in the form of pleas-
ant and tasteful tablets or lozenges,
containing vegetable and fruit essences,
pure, acidic, pepsin (government
test), golden seal and dandelion. The
tablets are sold by druggists under
the name of "Stuart's Dyspepsia Ta-
blets." Many interesting experiments
to test the digestive power of Stuart's
tablets show that one grain of the
active principle contained in them is
sufficient to thoroughly digest 3-
000 grains of raw meat, eggs and
other wholesome food.

Stuart's tablets do not act upon
the bowels like cathartics, which simply
cheapen the system, but simply irri-
tate and inflame the intestines with-
out having any effect whatever in di-
gesting food or curing indigestion.

This is the secret, if there is any
secret, of the remarkable success of
Stuart's Dyspepsia Tablets, a reme-
dy practically unknown a few years
ago and now the most widely known
of any treatment for stomach treat-
ment.

This success has been secured en-
tirely upon its merits as a digestive
pure and simple, because there can
be no stomach trouble if the food is
promptly digested.

Stuart's Dyspepsia Tablets act en-
tirely on the food, digesting it com-
pletely, so that it can be assimila-
ted into blood, nerve and tissue. They
cure dyspepsia, water brash,
stomach gas, and bloating after
meals, because they furnish the di-
gestive power which weak digestion
lacks and unless that lack is supplied
it is useless to attempt to cure by the
use of "tonics," "pills" and cathar-
tics which have absolutely no diges-
tive power.

Stuart's Dyspepsia Tablets can be
found at all drug stores and the regu-
lar use of one or two of them after
meals, will demonstrate their merit
better than any other argument.

Trial by Jury.
Trial by twelve jurymen, which
was of canonical origin, existed in
Anglo-Saxon times and only resembled
what is known as a trial by jury in the
number of persons sworn. Under the
name of "wager of law" it continued to
be the law of England until abolished
Aug. 14, 1833. Traces of trial by jury
are found in the reigns of William I.
and II, Henry I. and Stephen, but it
was not fully established until the
reign of Henry II. Trial by jury was
first adopted in criminal cases in the
reign of John, 1189-98, and was the
established mode of dealing with them
at the end of the thirteenth century.
Witnesses were examined and evidence
first laid before juries in the reign of
Henry VI, 1422-61, but this change
was not fully carried out till the time
of Edward VI, 1547-53. The laws re-
specting juries in England were re-
modeled June 22, 1825.—London Globe.

TOW BOAT BLOWS UP.

Huntington, W. Va., Jan. 5.—Eight
men are known to be dead and three
seriously injured, the result of a
boiler explosion and fire, which de-
stroyed the tugboat Defender near
here yesterday. She was racing
with the Victor at the time.

Storm Causes Seven Deaths.
New York, Jan. 5.—Not for several
years has New York been visited by
a storm of such proportions as that
which commenced Tuesday and con-
tinued until early yesterday. Inches
of snow fell, traffic was paral-
yzed and the intense cold brought
untold suffering to the city's poor.

The blizzard caused seven deaths in
New York and vicinity, while many
persons, overcome by the cold, fell
on icy walks and sustained broken
bones. Scores of horses fell, many
of them later being shot. The drifts
caused a milk famine, only 5 per
cent. of the usual supply being de-
livered in the city in the morning.
Five of the seven men who met death
in the storm died from exposure.
Another slipped on the icy platform
of an elevated station, fell in front
of an approaching train and was
ground to pieces. The seventh, L.
Weller, a conductor on the Pennsylv-
ania Railroad, blinded by the driv-
ing snow, stepped in front of a Con-
gressional Limited train at South
Amboy, N. J., and was killed.

Crushed to Death.
New York, Jan. 5.—A Long Island
express train from Patchogue, N. Y.,
to Long Island City, crashed into
a train stalled in a snow-drift at the
West Floral Station yesterday, creat-
ing terror among the passengers.
One passenger was probably fatally
injured.

Too Throat Out of Business.
H. H. H. N. S., Jan. 5.—Yesterday
night saw the greatest sleep storm of
years in this city. An immense
amount of damage has been done to
trees and wires. Six hundred tele-
phones at least have been thrown out
of business. Shade and ornamental
trees are in many cases ruined. The
street railway and electric lighting
systems are tied up.

May Not Recover.
Peterboro, Jan. 5.—Sylvester Fife,
an Ontonabee farmer, fell from a load
of hay on the hard road and broke
several ribs. It is thought he is in-
jured internally. He may not recov-
er.

Killed Near Quebec.
Quebec, Jan. 5.—While at work
near Garneau bridge, on the other
side of the river, opposite Sillery, a
young man named John Smith, 33
years of age, and living at Sillery,
was killed yesterday morning.

Adolf Beck Offered \$25,000.
London, Jan. 5.—The Government
has offered Adolf Beck \$25,000 in
compensation for wrongful imprison-
ment. His case was notable. He
was arrested in 1896 for obtaining
money and jewelry from women under
false pretence, and he was convicted
on the evidence of women who identi-
fied him as John Smith. After he
had served five years, John Smith
confessed that he was the man com-
mitted in 1897 and for whom Beck
had been mistaken. A committee of
inquiry concluded that Beck had been
the victim of a miscarriage of justice
and that the blame rested with the
judge, Sir Forrest Fulton.

Radium Cures Ophthalmia.

has been caused in German medical
circles by the announcement of the
Ophthalmic Wochenschrift that Dr. Cohn,
a celebrated oculist, has succeeded in
curing ophthalmia by means of
radium.

**INTERESTING PEN SKETCH OF MR.
ARTHUR HAMILTON LEE, M.P.**

Known to Many Canadians, As He Was
Lecturer on History and Tactics at the
Royal Military College, Kingston, From
1893 to 1898—Military Attaché at Wash-
ington For a Year and Served in the
Cuban War.

Mr. Arthur Hamilton Lee, Conserva-
tive member for the Fareham
division of Hampshire, and Civil
Lord of the Admiralty, must be
known to many Canadians as the
Capt. Lee who from 1898 to 1899
was lecturer on history and tactics
at the Royal Military College at
Kingston, Ontario, writes Lady
Bernard in The Toronto Globe. Mr.
Lee, after leaving the Royal Military
College at Kingston, joined the
Academy at Woolwich in 1899,
and after his career at Kingston he
spent a year at Washington as mil-
itary attaché, during which time he
served in the Cuban war. Being
appointed as brevet-major in 1900, he

retired from the service and came to
England in response to a summons
that he should enter political life,
for which they one and all thought
him eminently qualified.

I was told that it is quite an in-
teresting incident in connection with
Mr. Lee's election for Fareham in
1900. It appears that he knew nothing
of the locality in which his con-
stituency lay, but upon going to
Fareham he, being interested in
everything that had to do with his
constituents, strolled through the
graveyard to find that both his
father and grandfather were buried
there, and the electors on hearing
this remarkable fact either looked
upon it as a good omen, or were con-
vinced that in this way they had
found a local candidate, and Mr.
Lee's victory at the polls was as-
sured. It so happened that Mr.
Lee's father, who was a clergyman,
had died when his youngest son was
an infant in arms, and sent to
school at an early age, to Chelton-
ham later on, and then to the R.M.
A., at Woolwich. Mr. Lee had known
but little of the family history, or
the whereabouts of his father's
grave.

Mr. Lee is still a young man, being
born in 1868, and is an avid sports-
man, whose information can be re-
lied upon that during the time spent
between Canada and the United States
he gathered most important and
valued information concerning British
interests on the North American
Continent. An ardent Imperialist,
Mr. Lee keeps himself well posted
both in European and colonial poli-
tics, and I am told that his general
information concerning affairs abroad
may some day lead to his becoming
an important official in the Foreign
Office. It is rather interesting to
note that the Lee has nearly all
been in the navy, and that, while
the present Civil Lord of the Admi-
rality began life as an army officer,
he has to-day found a position
which is in accord with the tradi-
tions of his family.

In 1899 Mr. Lee married Miss Ruth
Moore of Portland, Maine, a very
charming and exceedingly pretty Am-
erican, who is deeply interested in
her husband's political career and
who is his companion in his many
motor expeditions, when they ex-
plore out-of-the-way districts of rural
England and delight in picking up
quaint old bits of china, prints and
autographs of celebrities. The Lee's
London house is in Chesterfield
street, and while the exterior is
quite unpretentious, the interior is
undoubtedly beautiful. The dining and
drawing rooms are both small, in

shape, and the dining-room was un-
doubtedly one of the famous
"Adams" rooms, which are preserved
with so much care in this age.
Drawing Mr. Lee, merged with a soft
effect of tender greens and russet, char-
acterize the general scheme of color
throughout the living rooms. The
dining-room is really very charming
and lends itself excellently to en-
tertaining on a large scale. The
white walls have here and there small
low recesses, within which Chippen-
dale buffets show to perfection. The
ante-room which leads to the draw-
ing-room has a remarkable ceiling, a
painting of a flight of birds chasing
an Imperial eagle. The drawing-room
is of irregular shape, and over the
fireplace hangs a remarkable picture
by an unknown artist. It is called
"The Seats of the Mighty" and is
a marvellous bit of coloring.

The last day on which I saw the
room enormous green glass vases
held great masses of pale lilac bloss-
oms, which harmonized admirably
with the room and tender greens of
the draperies. An old harpsichord
stood on one side of the doorway,
and furniture modelled after that of
the First Empire was scattered about
the room. Off the drawing-room was
yet another room with the same
scheme of coloring, and here were
the treasures which Mr. Lee regards
with such pride and delight, a pair
of pistols which once belonged to the
"First Consul" of France and a bust
of Napoleon by Canova, and many
autographs and engravings of cele-
brated men. Behind the door lead-
ing among the number. The walls
are lined with books, many of which
came from the homestead of the
Moore family, as Mr. Lee's mother
was an enthusiastic collector of
"first editions." Everything in this
room evidences the hobbies of the
master and mistress of the house,
and Mr. Lee's workshop, which opened
off the dining-room by double
doors, was a veritable snuggery and
workroom combined.
