DEAFNESS CANNOT BE CURED.

By local applications, as they cannot reach the diseased portion of the car. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous listing of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed for ever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

### THAT PALE, TIRED GIRL.

She is in society, in business, at home, everywhere you see her, but always worn and fatigued. She has not heard of Ferrozone or she would be perfectly well. How quickly sit strengthens — what an appetite it gives—what a glow it brings to pallid cheeks! The nutriment contained in Ferrozone pats strength into anye body. Laughing eyes, rosy lips, and bright; quick movements all tell of the vitality Ferrozone produces. Thousands of attractive, happy women use Ferrozone—why not you f A box of fifty chocolate coated tablets costs fifty cents at any drug store.

Five Years for Manalaughter, Five Years for Manulaughter.

Gore Hay, June 26.—For the last three days of last week the Court House has been crowded to the doors to hear the evidence of the Galbraith wife murder trial. About 40 witnesses were examined during the trial, and the case was given to the jury at 630 Saturday evening. After being out for one and a haif hours they returned a verdict of guilty of manulaughter from neglect. Sir John Boyd presided. The prisoner was sentenced to five years imprisonment.

THIS MEDICINE IS BREATHED THIS MEDICINE IS BREATHED.

That's why it is sure to cure Catarrh. You see it goes direct to the source of the disease, its healing vapor repairs the damage caused by catarrhal inflammation. 'Ontarrhoozone' always cures because it goes into those tiny cells and passages that ordinary remedies can't reach, goes where the disease actually issimpossible for 'Cutarrhozone' tof il as any doctor will tell you. Don't be misled into thinking there is anything as good as Catarrhozone, use it and you'll soon say good-bye to catarrh.

it and you'll soon say good-bye to eatarrh.

Unless a man believes in himself he may as well be ruied immediately for all the work he is going to do in the world.

Nature has just one pigment on her pallette with which she produces all the marvellous tints of beauty, and that one pigment is the blood. The shell-like pink beneath the finger nails, the delicate nose of the check, the cherry ripeness of the lips, the irridescent brilliance of the cybs are all produced by the blood. Just as the permanence of a beautiful painting will depend upon the purity of the colors with which it is painted, so the permanence of beauty depends on the parity of the blood. Paint, powder and cosmeties won't avail to preserve beauty. Beauty begins in the blood. Dr. Pietce's Golden Medical Discovery is a true beautifier, because it provides for nature that pure blood with which alone she can paint. The use of this medicine will clamse the skin, heighten the complexion, brighten the eyes, and give to face and form that radiance of health which is the greatest charm of beauty. Dr. Pierce's Pleasant Pellets are very effective in ridding the system of clegging residuam, which accumulates with constipated habit.

The man who hopes for nothing will generally attempt nothing; "To-morrow" should always fling its light of promise upon "to-day."

Without an ash-pan the ashes must be shovelled into a pail or some other receptacle for removal-means dust in the eyes, ruined clothes, extra work; a dirty disagreeable job-the meanest part of furnace 'tending.

The Sunshine Furnace has an ash-pan which catches all the ashes, and slides in and out easily. Has two handles for carrying. No shovelling, sweeping or dirt.

This is only one of a dozen good features possessed by the Sunshine Furnace, none of which are found on any other furnace.
