THE TRADE BULLETINS
London cable announces an advance of one to two shillings on bacon. Canadian bacon 7 1/2 to 8 1/2.

MONTREAL HOG MARKET
Montreal, Saturday, Sept. 14.—There was no change in the condition of the market here for live hogs this week. Supplies were ample to meet the demand, which was from the packers, and all of selected lots were made at prices ranging from \$2.25 to \$2.75 per 100 lbs. weighed off cars.

There was a steady demand for dressed hogs, fresh killed, and the market being quoted at \$12 to \$12.50 per 100 lbs.

EXPORT BUTTER AND CHEESE

Montreal, Saturday, Sept. 14.—The long expected break in the price current for cheese came at last, and this week saw a drop of over \$2 cents a lb. in the price paid at the country boards. The market had been forced too high, and the big orders were having a decided softening effect upon the consumptive demand, causing an accumulation of stocks at the sides of the Atlantic, with the inevitable result that dealers refused to go on taking the goods at the current prices, and a reaction immediately set in, and as a consequence prices in the country ranged from 13 cents a lb. with here and there a fraction more or less being paid. There is no rush for the goods, even if the decline, and if the demand next week is not equal to the supply we may see a still further break in price, the dealers being doubtful about Great Britain, as the dealers here will not speculate in cheese at present prices, especially in view of the large quantities which are expected in New Zealand this winter.

The market for butter is still further advanced owing to the good demand from all parts of the country for September made butter for storage purposes. The current quotation for finest fresh made creamery is \$7.25 to \$7.50 a lb. The price is rapidly declining, and soon there will be no more than sufficient arriving to supply the weekly requirements of the trade here.

OUR FARMERS' CLUB

Correspondence Invited.

PRINCE EDWARD ISLAND.

PRINCE EDWARD ISLAND.
KENNINGTON, Sept. 14.—It has been good harvest weather for the last few days, and the grain has ripened wonderfully well. In fact, there is still grain as green as grass. Considerable crop of wheat, but a good crop of straw. Corn about half a crop. Turnips are fair to good. Some good ones are selling at 15c; lambs, live 51.50 per lb.; beef, per quarter, 75c to \$1.00; butter, 22c to 25c; pork, \$2 to \$2.50. Horses are not much in demand.—T. G.

ONTARIO

GRENVILLE CO., ONT.
DOMVILLE, Sept. 11.—The post office department at Ottawa has established a rural mail route, one Prescott to Prescott and the other Domville to Domville. The farmers appreciate it very much. Owing to rain almost every other day, the grain is damaged considerably by growing and heating in the stock. Late reports state that the farmers are now getting better than the early. The farmers hope that the grubs are destroying late potatoes. Almost all the farmers around

OXFORD TOWN SHEEP

For Sale: 1 Two Shear Ram, Imported, Shropshire Rams. Also Rams, Lambs and Wethers of all ages. The Champion Book at Ottawa, Sherbrooke, 125 St. Lawrence St. **W. H. MALVERN, Ont.**

STOCK MARKS. Metal ear tags for cattle, sheep and hogs. A substantial card attached to each tag, simple and circular in design, and made of brass. **F. G. James, Rowmanville, Ont.**

are saving a piece of second growth clover for seed. It is filled very well and there should be a good yield.—G. N. C.

HASTINGS CO., ONT.

CHAPMAN, Sept. 11.—Harvesting has been made good owing to the continued wet weather. Canners seem somewhat more settled now. Very little threshing has been done as yet. Corn is making a good thing, and will be good crop. Pastures continue good as a result of the frequent showers, and new seeding is making a good thing. Quite a large acreage of red clover has been laid out this year.—H. S. T.

PRINCE EDWARD CO., ONT.

PICOTON, Sept. 11.—The wet weather has caused a good deal of damage to grain. The straw in some cases is nearly spoiled and getting so rotten that the heads break off and are lost. My neighbor has turned about 25 acres of oats several times, and been ready to thresh, and on comes the rain again. Some barley out yet and straw very black. Have heard of some sprouting and extra cost to turn the grain, as a big majority of the grain has had more or less rain.—M. B. G.

YORK COUNTY

NEWMARKET, Sept. 11.—Wet weather conditions prevailed generally throughout York County, damaging the crops to quite a large extent. The wheat, oats and barley will be damaged by sprouting. Corn is doing well now, as are all other crops. Crop yield is very good.—W. K.

ELGIN CO., ONT.

PAYNE'S MILLS, Sept. 14.—The harvest is all gathered in, after a tedious spell of very wet weather. In the oats started out to sprout in the shocks, and the samples will be somewhat discolored. The new seeded fields just O. K. Best of flowers and vegetables are growing in the school-ground. The best kept garden that the writer has yet seen in any school-house is found here, and the work is all done by the scholars. It is a splendid education for the young minds.—J. E. O.

SHIMCO CO., ONT.

BRADFORD, Sept. 14.—The weather has retarded the harvesting of oats and there is a small percentage of wheat grown and barley very much ahead. On the whole the damage has not so great an account of the weather being cool during the wet season. I don't think the loss will be so great as the wet weather, as the damaged grain will be used for feed.—R. F. G.

HOLSTEIN-FRIESIAN NEWS

Farm and Dairy is the official organ of The Canadian Friesian Breeding Association, all of whose members are requested to send their names to the Association are invited to send items of interest to Holstein breeders for publication in this column.

HOLSTEINS AT OTTAWA

The Holstein classes at the Dominion Exhibition at Ottawa last week were well filled, and competition was keen, all though only six Holstein exhibitors of whom had only one or two entries. The main exhibitors were the Colony Farm of Mt. Coquitlam, B. C., and the Avondale herd of West Vancouver, British Columbia, both of which had shown the week before in Toronto. The other exhibitors were Bell's, Britannia, Robt. Webb, of Seelye's Bay, and A. L. Stackhouse, of Kinburn. The main conflict for the first awards was between the two herds of Bell's and Mr. Brethens did good work on the whole, and gave satisfaction, although his long title of the championship bull and one or two other decisions caused some surprise.

AGED BULLS

In aged bulls of Ontario decision was reversed when Hardy's bull, Prince Henegrold Pieterie was placed over the Colony Farm Bull, Mercusa Vale, which was not in quite as good condition when shown in Toronto. Both are grand bulls, but it is a question if this decision should have been reversed. The bull was described with Pleasant Hill Pontiac, the champion at Ottawa and reserve at Toronto

in 1911. This bull has plenty of dairy type and vigor.

Two-Year-Old Bulls

In this class the winner was picked out in Anglie Cornoussie Newman, shown by the Colony Farm. Hardy's bull, King Pontiac Artis Canada, was second, and a bull shown by Robt. Webb third.

This class provided the ultimate champion of the show in Homestead Abbecker Prince, owned and shown by A. L. Stackhouse. This is a fairly well proportioned bull, quite worthy for his age, but hardly all we would expect of a champion. It is a question if he deserved the placing he later got as he seemed lacking some, what in vigor and masculinity, and has not got the bone, nor the substance, nor the style of the other bulls, age considered, that were shown. A nicely proportioned, vigorous white bull shown by the Colony Farm, which won fourth at Toronto, was placed second in this class, and Hardy's two bulls, Sir Johanna Korn-dyke and Paul Wayne De Kol, third and fourth. Fifth went to a bull shown by W. F. Bell.

Female Classes

Twelve grand cows in the judge in the aged cow class. A few that were dry showed to disadvantage, although among them were some which otherwise might have been top winners. The best cow had five entries and repeated their success at Toronto by taking the first award in this class. The winner, the best cow has most pleasing lines, with grand depth and a good udder, carried well to the back. She seemed lacking, however, in spring of ribs, and the condition, which it denotes, which led some to think that the judge would not have made a mistake had he placed Hardy's second prize cow, Pride of Orchard Hill, first. This cow lacks the graceful lines of the winner, but showed greater constitution and an equally capacious udder. She had been in milk longer, however, which told against her. The third award went to the Colony Farm on Lady Aggie De Kol 2nd. Sangster took fourth with Rhodys Queen, a nine-year-old cow that is beginning to show her age, but a grand type of cow, low down and well proportioned with milk veins running right to the shoulder on both sides. Colony Farm was fifth.

The Awards

The awards of the remaining classes were as follows:
Three-year-olds: 1st and 2nd, Hardy; 3rd and 4th, Colony Farm; 5th, Bell.
Two-year-olds: 1st and 2nd, Colony Farm; 2nd, Hardy; 4th, Bell; 5th, Sangster.
Senior yearling heifers: 1st, Bell; 2nd, Hardy; 3rd, Colony Farm; 4th, Sangster.
Heifer calved after January 1st, 1911: 1st and 4th, Colony Farm; 2nd, Sangster; 3rd, Hardy.
Heifer over six months and under one year: 1st and 2nd, Hardy; 3rd and 4th, Colony Farm; 5th, Bell.
Aged herd: 1st, Hardy; 2nd and 3rd, Colony Farm; 5th, Sangster.

By a majority of the show was won by Colantha Payne, which was shown by the Colony Farm, a junior yearling that was brought out in grand form. This helped her to win over her stable mate.

Senior herd: 1st, Hardy, who showed the first prize aged bull; second prize aged Farm; first and second prize three-year-olds and the second prize two-year-olds; 2nd and 3rd, Colony Farm.

Junior herd: 1st, Hardy; reserve, Colony Farm; 2nd, Sangster; 3rd, Hardy.
Senior bull calf: 1st and 3rd, Colony Farm; 2nd, A. Moore, Hawthorne; 4th and 5th, Hardy.
Junior bull calf: 1st, Bell; 2nd and 5th, Hardy; 3rd and 4th, Sangster.
Best bull; any age: 1st, Stackhouse; reserve, Hardy.

HOLSTEINS TO GO AT AUCTION

Thirty-five Holsteins of excellent breeding are to be sold by J. R. Newell, of Crampton, Ont., and will afford good buying to those who attend the sale. Mr. Newell has not been in good health for a considerable time, and has not been able to give his stock the official records his cattle are capable of making.

Our readers will have noticed from Mr. Newell's advertising in Farm and Dairy that his stock is of very popular breeding, and contains rich blood of the leading strains of high producers. His cows are of the appearance, and are in good condition. Get structure, descriptions and terms and other information you will want about Mr. Newell's cattle may be had by addressing J. R. Newell, Crampton, Ont.

Jerseys Have Been Proved Best

Buy a good Jersey and you don't have to experiment. There is no speculating as to her performances. There is no doubt but that she eats less and gives better milk, richer in butter fat, than the milk of any other breed. All of the experimenting has been done already. Jersey history is made up of facts—not theories. Whether you sell milk or butter, or both, you'll get a higher percentage of profit out of Jerseys than you can get of any other breed for the same feeding cost.

Look into the matter. The more you investigate, the more Jerseys you'll buy. Booklet of facts on request. **CANADIAN JERSEY CATTLE CLUB**
R. REID, Secy., Berlin, Ont.

You can Sell

Your pure bred cattle, any surplus stock you have, by advertising in these columns of FARM AND DAIRY.

We take you next upwards of 17,000 possible buyers, and at a cost very small to you for this great service—only \$1.40 per inch.

Send your advertisement to-day for next issue.
