NEW & IMPROVED MAP OF OUR COUNTRY.

THE Undersigned, Projector and Publisher of Descriptive Maps of the Populous and Wealthy Counties of Norfolk, Oxford, Essex, Hants, York, and Queens, all of which have been favorably noticed by the City and County Press, proposes to publish, drawn on a large Scale as 6 miles to 1 inch, TOPOGRAPHICAL, STATISTICAL, AND ILLUSTRATED Map of Upper Canada,

ILLUSTRATED. By well executed Views of the Cities of Ottawa, Kingston, Toronto, Hamilton, and London; a view of the Falls of Niagara; a view of the Niagara Suspension Bridge, accompanied by a description of it, with a view of the Queenston Bridge and Brock's Monument. Also views of Provincial Buildings - the new Houses of Parliament, the Normal School, and the Lunatic Asylum, Osgoode Hall, Trinity College, and the Toronto University, the last said by competent Judges to be the finest building of its class in America.

IF ENCOURAGED. To accomplish this important work, the map (size, including a border formed by a tasteful arrangement of the emblems of Canada, at least 6 feet from East to West, by 4 to 4 1/2 feet from North to South), will be completed here, in from one and a half to three years.

IN ANTICIPATION. Of a general patronage, the price has been permanently fixed at \$5.50, payable (only) on delivery of the map in good order, and condition, handsomely colored, varnished, and mounted. Put up for the pocket at \$5.50 to \$6.00.

GEO. C. TREMAINE, Publisher. Toronto, January, 1861.

THE BEST MAP WILL WIN!

The Undersigned proposes also to publish an Edition of the above map without the engravings or tables, with that part of the Province east of Frontenac and Renfrew, placed in the south-east portion of the sheet. It will be engraved (not lithographed) on Stone, well printed, colored, put on canvass, varnished and mounted, and will be furnished to subscribers, for \$5.00, payable on delivery of the map in good order and condition. Put up for the pocket at \$4.50.

ORDERS SOLICITED. With the distinct understanding that if this does not turn out to be a more Valuable Map - it, in all things considered, it does not give better and more general satisfaction than any Six Dollar "Copper Plated Map" (See Globe of the 5th of February,) advertised or offered by those parties from the United States, Thackabay, Brother & Co., - then the Subscribers shall not be bound or expected to take the map ordered.

GEO. C. TREMAINE, Publisher. Toronto, April 12th, 1861.

"THE LEADER," The "Patriot" and "News of the Week."

The favor with which the "Leader" has been received by the public may be judged by the fact that since its commencement, in July 1852, it has steadily increased in circulation until, in its various editions, it has several thousand more subscribers than any other paper in Canada. Every exertion is being used to make it more and more indispensable for every family in the Province.

THE DAILY LEADER. Is published every morning, in time for the early train, at 6 p.m. in advance. It is a large sheet, and contains the earliest and most reliable intelligence that can be obtained from every part of the world.

THE SEMI-WEEKLY LEADER. Is published on Tuesdays and Fridays, at 3 p.m. in advance. It contains all the reading matter of the "Daily Leader"; and for parties who do not reside near enough to a Post-office to call every day, this paper will supply them with all the intelligence they could receive from a Daily.

THE WEEKLY LEADER. Is published every Friday, and "The Patriot" and the "News of the Week" are published every Wednesday, at the rate of \$1 in advance. These papers are printed on a large sheet, and contain the most important part of the reading matter of the "Daily Leader." Market reports are particularly attended to in them. These are the cheapest papers in the Province.

One dollar a year is added to each edition when not paid in advance.

TO ADVERTISERS. The large circulation of "The Leader" makes it the very best medium of publishing notices of any kind.

Rates - For Daily - 4 pence a line, for first insertion, and 1 penny each subsequent insertion - For Weeklies - 6 pence a line for each insertion.

Toronto, Jan. 23rd, 1861.

NOTICE. IMPORTANT TO BUILDERS.

JAMES GOURLEY, Plain and Ornamental Plasterer, will execute any orders in the above line on short notice and at the most reasonable terms. Orders received at the Arthur P. O. Arthur, 20th January, 1862. 50-ly.

EXCELSIOR!! Special Notice to our Readers.

WHEN, just twelve months since, Mr. Strathmore succeeded Mr. Lane in the proprietorship of the Fergus Dispensary, he announced his intention of opening in Fergus a Drug Store which should rival the Greatest Drug Establishments of Western Canada - which the first-class Drug houses of Toronto and Hamilton might equal, but could not surpass - there were not wanting those who received the statement with some amount of incredulity, while others, again, doubted how far the experiment, if carried out, would be successful. In these promises have been redeemed. Fergus now possesses a Drug Store on which no comment is unnecessary, since a single inspection must convince the most sceptical of its absolute perfection in every detail. As to the success of the undertaking, that must be sufficiently obvious to all who are acquainted with the establishment, while those who are not may easily convince themselves of the fact by a single visit, when from early morning until late in the evening, they may observe such evidence of business as will leave little doubt on their mind upon this point, and this not through advertising, to which little attention has been paid, but through the undisputed superiority of the goods sold, and the unexampled reduction in price recently effected in every department. It will afford the Proprietor great pleasure to show any visitors over the whole Dispensary, which is undoubtedly one of the most extensive and complete in the Province. From the most important article down to the most minute item, nothing is absent, nothing is wanting. Every Drug, Medicine, or Chemical which Science has made known as a remedy for man or beast may there be found. All the other departments of the business are proportionally complete, while in the General Department it is admitted by all that H. Strathmore has done more to break up the monopoly in Store Goods, and to reduce the price of Groceries, Stationery, Oils, Colours, and the like, than any other individual in the Town. In announcing the removal of the Fergus Dispensary to more extensive and commodious premises in the Prince of Wales Block, (nearly opposite the Post Office) it is the grateful duty of the Proprietor to tender his sincere and heartfelt thanks for the encouragement he has met with, and the very liberal and extensive patronage he has received, during the past year. He offers his most earnest and sincere assurances that his whole time, his most unremitting efforts, shall be still as heretofore devoted to the service of his patrons; his sole aim and object shall be their advantage and the approval. Now that he has removed to his present extensive premises, all that can be said is that they will simply waste their time, trouble, and money. H. Strathmore does not solicit patronage in any branch in which he is unable to offer advantages equal to any of the Guelph merchants.

FEATURES PECULIAR TO THIS ESTABLISHMENT.

1. FREE MEDICAL ADVICE. - Arrangements have been entered into with a highly qualified and experienced physician, who may be consulted, FREE, every Saturday morning, from 11 to 1 o'clock. [Also at all other times on moderate terms.]

2. DISTINCT DISPENSING DEPARTMENT. - The formation of a separate department for the preparation of medical prescriptions and recipes, under the personal superintendence of the proprietor, affords a guarantee of greater accuracy and security in this important department than can possibly be attained in those establishments where a department requiring so much care and individual attention is mixed up with the general business, and but too often conducted by persons whose education in chemistry and pharmacy has been of the most imperfect description.

3. PERFECT COMPLETENESS. - In every branch. Too much importance can scarcely be attached to this consideration, in an establishment like the Fergus Dispensary, where many a one has found an abundance of every Drug, Medicine, and Chemical, recognized by the Medical Faculty, no fear need be entertained of the miserably and too often dangerous substitutions, hourly practiced at inferior establishments, where, from the comparatively small number of preparations kept on hand, it is obvious that not one prescription in a dozen can be prepared with perfect accuracy. Fergus Dispensary, Jan., 1862.
