Goes Like Sixty Sells Like Sixty \$60.00 Sells For Sixty

Gilson Engines are made in all sizes, for all purposes, priced from \$45.00 upwards. They have exclusive patented service features, not found in any other engine—fully described in our catalogue, sent free.

"Goes Like Sixty" Engines are made for, and purchased by men of superior judgment and discrimination. They know that Gilson Engines are greater value because they have service features that cannot be secured elsewhere.

If you need an engine, and do not buy one, you are paying for it anyway. When you get a Gilson Engine, in reality you do not pay for it—it pays for itself.

Do not buy an engine until you have investigated further. Send for catalogue.

Get All Your Potatoes

The Farquhar Elevator Potato Digger does the work of a crew of men. It frees all the potatoes from the soil and puts them on top ready for sacking. If you raise potatoes for profit, it will pay you to send immediately for new illustrated catalogue explaining all about the different Farquhar Diggers.

A. B. FARQUHAR CO., Ltd.
Box 250, York, Pa.

We also manufacture Engines, Saw mills, Threshers, Drills and Cider Presses.

Farquhar Diggers sold by Gilson Manufacturing Co., Guelph, Ont.

Papec "It Throws and Blows"

Save Time, Power and Labor Filling Your Silo

The Papec Pneumatic Ensilage Cutter is the one blower type of cutter that can be successfully operated with as little power as a 4 h. p. gasoline engine. Many owners of Papec Cutters will back us up in this statement. Read Mr. Carter's letter:—

Flinit, Mich., Sept. 12, 1913
Papec Machine Co., Shortsville, N. Y.
Gentlemen—After using a number of different ensilage cutters, I finally purchased a Style "D," 3 knife Papec Ensilage Cutter and will say that it will cut more corn and elevate it higher, with less power, than any cutter I ever saw. I am now filling a No. 20 Imperishable Silo 24 x 52 feet—the largest silo ever sold in Michigan. On account of the experience I have had with other cutters, I wish to say that anyone who contemplates purchasing a silo filler, should by all means buy a Papec.
(Signed) Mortimer Carter, Route 5, Flinit, Mich.

THE PAPEC ENSILAGE CUTTER

is not chain driven but transmits all the power through heavy gears. It is a machine of few parts—nothing to get out of order or cause repair bills. The "Papec" cuts silage fine and uniform and elevates it to the top of the highest silo in a steady full stream. The throwing, blowing, lifting force carries the silage rapidly up into the silo where it is distributed evenly and packs perfectly. This keeps the ensilage sweet and succulent.

Write today for illustrated catalog describing the different sizes of Papec Pneumatic Ensilage Cutters and telling how they save time and labor at silo filling time.

Insure Your Crop Against Rot and Disease

On the left is a healthy ear of wheat full and sound—the kind that makes money for you—on the right is an ear, drawn from a photograph, absolutely eaten up with that fungus spore called "smut"—there is no money in that. Some farmers, through no fault of their own, have had all the profit knocked out of their crops by "smut". Something must be done to stop it because it spreads.

CORVUSINE D. G.

is a preparation used with great success in Europe. It has decided advantages over bluestone and chemicals because it is non-poisonous and will not endanger the germination of the seed. In fact, not only is it protection against disease, grubs and birds, but a great assistance to germination, producing a healthy stand. These are facts, established beyond a doubt by tests throughout all grain growing countries and we have striking letters from practical farmers testifying to the efficiency of this seed dressing.

Corvusine is easy to handle and will not clog the drill. Write us for particulars—don't risk your crop, that's foolish policy.
