Gossip.

Lakeview Stock Farm, Bronte, Ont., in advising a change of advertisement, wish to state that, owing to the increased demand and many sales made during the past summer and fall, they will not hold their annual sale this winter as usual, but will continue to sell choice stock of either sex, for cash or on terms. Practically the whole foundation of this herd is tuberculin tested, and composed of cows producing from 100 to 110½ lbs. of milk in one day, and from 28 to 28.30 lbs. of butter in seven days. When in need of a good cow, or a herd sire, don't overlook this herd. Correspondence is solicited, and visitors are always welcome. Trains met by appointment.

Some of the young bulls offered for sale from the Ayrshire herd on Lakeside Farm, Phillipsburg, Que., come from bulls of exceptional breeding. Some sires that have been used on this herd in the past are Barcheskie Cheerful Boy, succeeded by Hobland Bonny Boy, which in turn gave place to Morton Mains Planet. The latter bull was a winner at all the leading Canadian shows as a yearling. At present the herd is headed by Auchensrain Sealoom, which was grand champion at Quebec and Sherbrooke exhibitions this year. Among the young bulls for sale are Lakeside Spicely Hero, calved August 27, 1914. This fellow is from Record of Performance stock, and combines the blood of the Barcheskie and Morton Mains herds. Lakeside Bonny Lad is another bull with extensive breeding, and is the get of an exceptionally good heifer, which finished her period with over 10,200 lbs. to her credit in the two-year-old class. Lakeside Secretary, Lakeside Beau Brummel, Lakeside King Albert, and Lakeside Seapoy, are other young males of the herd which combine the blood of some of the best Ayrshire families, and which have for dams females which are good producers. Write for a catalogue describing these young herd-headers.

A BIG SALE OF DAIRY CATTLE.

The dairy cow is still the mainstay of the farmer, and many farmers need more dairy cows of the right kind. They can get them at Scott Bros.' sale, Hyde Park, December 8, and we advise all to look up the advertisement in this issue. The offering comprises 45 head of Holsteins, including heifers and cows which have given from 40 lbs. of milk per day up to 76 lbs. per day. There is one good registered bull in the lot, which includes 21 grade cows, all young, aged from two to seven years. The young stock is particularly promising, including seven yearling heifers bred to a good, registered bull, and eleven calves sired by that grand breeding bull, Homestead King Colantha Abbecker 10467. Anyone desiring young stock should not miss this sale. Two-year-old heifers and cows in milk are all heavy producers, and for the most part the herd has been built up from judicious breeding and selection of heifers produced by good foundation cows. New blood was inserted from the Campbell herd, Komoka. These regular breeders, some fresh, all good producers, should attract buyers. December 8. Trains will be met at Komoka, C. P. R. and G. T. R., day of sale. See the advertisement and write Scott Bros. for further particulars if desired.
