

On a
Road Like

This nothing will prevent a serious skidding accident but the irresistible grip and unswerving tenacity of

Dreadnaught

TIRE CHAINS

With a set of Dreadnaught Chains on your tires you can travel with perfect safety over almost unbelievably bad roads.

An exclusive feature of these chains is the Long Lever Fastener which makes them easy to attach. Cross chains are case hardened, electric welded and copper plated. The rim chain is rust proof. They are built for hard wear and long, satisfactory service.

Dreadnaught Chains will not injure tires. They are securely, but loosely applied and have play enough to work themselves around the tire, thereby distributing the strain to all points alike.

Stow a set under your cushions for bad road emergencies. Ask your supplyman or write us for price list and descriptive circular.

To Provide Protection

for dependents is by no means the only function of a Life Insurance Policy. Some of the other uses to which the Great-West Policies may be put are:

Protection for one's own future.

To compel systematic saving.

Providing a life income for self or dependents.

Protection for business enterprises.

Provision for paying a mortgage.

The Company issues many different plans of Insurance. Premiums are low, and the profits to policyholders remarkably high. Information on request.

Wood Stave Silos Are Best

Wood meets the two chief requirements of a silo perfectly. Wood will keep in the heat of fermentation that is necessary for the ripening of the silage. And wood keeps out the excessive cold, reducing freezing to a minimum. Cement, tile or brick are all porous, consequently heat or cold will pass through quickly and the silage is partly spoiled.

BURLINGTON CABLE BAND SILO

is the product of 18 years' experience in silo-building and practical farming. Over three thousand are in use throughout Canada, and their owners are well satisfied. The seven-strand Cable Band, which hoops this silo, is used exclusively by us. It gives and takes up as the silo expands or contracts when full or empty. It is stronger than iron and insures rigidity of construction. These silos are easily erected, require no special skilled help, and may be put up in 10 to 15 hours. Buy Direct from the Maker. Get our price list. Everything supplied complete, with simple instructions for erection.
