

On a Road Like

This nothing will prevent a serious skidding accident but the irresistible grip and unswerving tenacity of

Dreadnaught

TIRE CHAINS

With a set of Dreadnaught Chains on your tires you can travel with perfect safety over almost unbelievably bad roads.

An exclusive feature of these chains is the Long Lever Fastener which makes them easy to attach. Cross chains are case hardened, electric welded and copper plated. The rim chain is rust proof. They are built for hard wear and long, satisfactory service.

Dreadnaught Chains will not injure tires. They are securely, but loosely applied and have play enough to work themselves around the tire, thereby distributing the strain to all points alike.

Stow a set under your cushions for bad road emergencies. Ask your supplyman or write us for price list and descriptive circular.
