PLEASE MENTION FARMER'S ADVOCATE.

**GOSSIP.**

Mr. W. W. Hubbard, editor of the *Co-operative Farmer*, of New Brunswick, retires from that position on August 1st, and will be succeeded by Mr. M. H. Parlee, the well-known breeder of Ayrshire cattle and other pure-bred stock.

Mr. Henry Arkell, Arkell, recently shipped a carload of registered Oxford Down yearlings to McCaig, Mooren and Carroll, of Walsh, Assiniboia. He also sent out a show lot to A. Wood, Souris, Manitoba.

The fine herd of Berkshires kept at the Agricultural College farm, Cirencester, England, by Mr. Russell Swanwick, was dispersed by auction last month. Some good prices were realized, 24 boars making an average of \$37.50, and 36 sows an average of over \$50 each, the sow, Sallie 966th, selling for \$189. Another sow, with a litter of four pigs, brought \$136.50. These highest prices were paid by Mr. E. J. Morant, Boldre, Lymington, Hampshire, who was the largest purchaser at the sale.

**R. J. HINE'S OXFORDS AND SHORTHORNS.**

On Linden Stock Farm, owned by Mr. R. J. Hine, near Dutton, Ont., on the Michigan Central Railroad, is maintained as choice a flock of Oxford Down sheep as can be found in this country. Mr. Hine has been importing this favorite breed of sheep for a number of years, and on every occasion has bought nothing but top-notchers that were winners at the Royal and other leading shows in England, and as a result the present flock on his farm is as good as the best. This flock has carried off first prizes and sweepstakes at the leading Canadian shows for the last ten years, showing the winners in ram and ewe lambs at the Royal Show, England, for the last four years. Most of the breeding ewes are Royal winners, imported, there being at present on the farm no less than three pens of first-prize winners at the Royal. This year's crop of lambs are from the imported Royal winner, Addesbury Warrior, a Stillgoe-bred ram of most beautiful conformation and quality. The lambs are all that could be desired, showing a covering that will put the majority of Shropshires to shame. All the winners of the flock are in fine condition. The winners of last year are looking superb, and will be on deck again this fall. In the flock are representatives of such noted English flocks as those of Stillgoe, Reading, Hobbs, and Brasse. The yearling rams offered for sale could scarcely be duplicated on the continent.

On this farm can also be seen a few very choice Shorthorns of the noted Linden Blossom family. The cow, Linden Blossom 32373, is an animal hard to beat. She is of the present up-to-date kind, deep, lengthy, short-legged, with a broad back and well-sprung ribs. The present stock bull, Lord Roberts, by that noted sire, Scotland Yet, is a bull of beautiful symmetry, a large, heavy, meaty fellow. His calves are of the right kind, being uncommonly lengthy and well-proportioned. Among them is a roan bull calf, 7 months old, that is Shorthorn perfection itself, and if present indications count for anything, will certainly make a prizewinner.

**E. D. GEORGE'S HOGS AND HOLSTEINS.**

Merton Lodge Stock Farm, the home of Mr. E. D. George, near Putnam, Ont., on the C. P. R., enjoys a continental fame for breeding high-class hogs of the three bacon breeds, Tamworths, Yorkshires, and Chester Whites. The Messrs. George have been engaged in the breeding of pure-bred hogs for a large number of years. Their sales now cover the Dominion of Canada from the Atlantic to the Pacific, and a large part of the United States. Their records as prizewinners at all the leading Canadian shows are almost an unbroken series of successes, easily accounted for by their thorough understanding of the qualities necessary to success in conformation and breeding of the different varieties handled, and the use of sires and dams of nothing but typical animals, bred on the most approved lines. The chief stock boar at present in use in the Chester White herd is the 800-pound boar, Chester Monarch 1371, bred by N. C. Alexander, Delaware, Ill., U. S. He is sired by Banker 7193, dam Lady Fenn 3rd 8160. The dams of this breed, numbering some 20 odd, are a very large, lengthy lot. Prominent among them is the 700-lb. sow, Alma 868, imported, sired by Coco 2223, dam Junta 5722, by Johnny Dimple. Lady Clare, another dam, was the sweepstakes at the Provincial Winter Show at Guelph. She is sired by Crown King, dam Swiftlake. Last fall's winnings by this breed were, all told, 32 firsts, 28 seconds, and 6 thirds. At present on the farm there are only some 25 head of Tamworths, the sales in this breed having been exceedingly heavy. The stock boar, Redfellow 2nd 1412, was sired by Redfellow 879, dam Beschene Lass 811, by Rodman 166. He is a massive animal, turning the scales at 900 lbs. Possibly the heaviest dam of this breed on the farm is Belle of Dingman 557, sired by Longfellow 494, dam Maud 236, by Buffalo Bill. This great sow weighs 700 pounds, and at the same time is a very smooth, nicely-formed animal. In Yorkshires, the stock is low, the demand being so much greater than the supply that nothing but the dams and stock boar are to be seen.

The Messrs. George are also somewhat extensively engaged in the breeding of pure-bred Holstein-Friesian cattle, and are showing some very nice representatives of that popular dairy breed. The herd was founded some few years ago from purchases made from the herd of S. C. Smoke, of Toronto. The cow, Corelia Ykema 4527, sired by Ykema 322, dam Aultje Santema 948, is an excellent cow of heavy-milking conformation. Another nice one is the cow, Sadie A 1273, sired by Count Mink Mercedes 221, dam Bixx Funny 2nd 104. The richly-bred Dekol cow, Princess Bonnie 2535, is sired by the bull, Homestead Albino 2538, dam Geraldine 1935. This cow shows all the peculiar characteristics of an extra heavy milker, and if given a chance should be a record-breaker. The stock bull in use is Pet's Paul 1382, sired by Sir Paul's De Kol Clothilde 904, dam Mercena's Pet Jewel. He is a very smooth, evenly-built bull, that, from his rich breeding and fine conformation, should make his mark as a sire. The youngsters on the farm are a very even lot, and should the present form continue, they will without doubt be heard from both in the show-ring and in milk and butter tests.

**IT PAYS TO ADVERTISE IN** **THE FARMER'S ADVOCATE.**

## A Good Complexion

Depends on Good Digestion.

This is almost an axiom, although usually we are apt to think that cosmetics, face powders, lotions, fancy soaps, etc., are the secrets for securing a clear complexion. But all these are simply superficial assistants.

It is impossible to have a good complexion unless the digestive organs perform their work properly. Unless the stomach, by properly digesting the food taken into it, furnishes an abundance of pure blood, a good complexion is impossible.

This is the reason so many ladies are using Stuart's Dyspepsia Tablets, because they promptly cure any stomach trouble, and they have found out that perfect digestion means a perfect complexion and one that does not require cosmetics and powders to enhance its beauty.

Many ladies diet themselves or deny themselves many articles of food solely in order to keep their complexion clear. When Stuart's Dyspepsia Tablets are used, no such dieting is necessary. Take these tablets and eat all the good wholesome food you want, and you need have no fear of indigestion, nor the sallow, dull complexion which nine women out of ten have, solely because they are suffering from some form of indigestion.

Bear in mind that beauty proceeds from good health, good health results from perfect digestion, and we have advanced the best argument to induce every man and woman to give this splendid remedy a trial.

Stuart's Dyspepsia Tablets can be found in drug stores, and cost but 50 cents per package.

If there is any derangement of the stomach or bowels, they will remove it, and the resultant effects are good digestion, good health, and a clear, bright complexion.—Advt.

**To Rid STOCK of Flies, Lice,**

AND ALL SKIN DISEASES, USE
