

Columbia Wooden Horns

No. 41, Oak, price, \$12.00.
No. 42, Mahogany, price, \$15.00.

Although wood horns have been made and used for a number of years, we have never placed one on sale until recently, because we were unable to find a horn that would meet all our exacting requirements, both as to appearance, acoustic qualities and durable construction. Our horns are made of seasoned three-ply veneer, oak or mahogany, cross-banded and so constructed that they will absolutely not warp or lose their shape. Both the outside and inside layer of veneer are arranged so that the grain runs spirally. There is only one joint on the side, a patented wood rim, which holds the bell in perfect shape. This horn embodies all the good points of other horns, with many improvements. By its use the annoying "dominant note," so evident in some horns, is permanently eliminated. The Columbia Wooden Horn, like all other Columbia Horns used in connection with the aluminum tone arm, screws solidly into the elbow, so that it cannot fall out, and is readily interchangeable, fitting any disc graphophone and any of the tone-arm cylinder graphophones.

Sent on one week's trial. Money refunded if you are not satisfied.

Complete catalogues of Columbia Graphophones and Records (disc or cylinder) sent on request.

Spray with the EMPIRE KING

IT TAKES precedence over any other spraying machine made. It is not enough for a pump to simply squirt water. Our KING is a combination of three machines in one: while it maintains a strong, steady pressure on the nozzles, it also keeps the liquid in the tank thoroughly agitated, and with each stroke of the pump-handle it cleans the suction strainer twice. Brass cylinder, plunger and valves secure greatest strength, long life, and freedom from corrosion. Every consideration urges it as the best pump. We also manufacture the Monarch, Garfield Knapsack, and many other kinds and sizes of sprayers. Write for our excellent book on spraying formulas, etc. Mailed free.
