

You Can Own a SHARPLES Tubular Cream Separator For Less Than Any Other

What is the real cost of owning a separator? It depends on the kind. Sharples Tubulars last a lifetime. Need not replace them. Guaranteed forever by oldest separator concern on this continent. Absolute protection forever against all possible defects. Dairy Tubulars contain no disks or contraptions—no needless parts to clean or wear. Use same oil over and over. Produce twice the skimming force, skim faster and twice as clean as others.

You can own a Tubular as long as you live for practically nothing except the purchase price.

But how about "peddler's" or other (so called) cheap machines that last on the average one year, cost on the average ten dollars a year for repairs, lose cream every day that Tubulars would save? The cost of owning a cheap or complicated separator is five to ten times the cost of owning a Tubular. Our local representative will show you the Tubular—The World's Best. Ask us his name.

The McCormick Reel is the Strongest and Most Efficient Ever Placed on a Binder

THE McCormick reel offers a wide range of adjustment which successfully meets the conditions encountered in any field, whether the grain is tall or short—standing, down, or tangled. Grain that is filled with green undergrowth is forced upon the platform with ease. The guards are placed so that the machine can be tilted to cut close to the ground without pushing trash and stones ahead of the knife. The McCormick knoter is a revelation of simplicity in construction, accuracy in tying, and ease of adjustment. Only two moving parts constitute the working mechanism. There is no straining or pulling on the twine, and perfect knotting is assured. The McCormick floating elevator handles grain of any length or weight without clogging. The McCormick line of haying machines and tools is as efficient as the binder.

The McCormick dealer will tell you all about these advantages and many others. Why not see him today? If you prefer, write to the nearest branch house for catalogue and any special information you desire.

EASTERN CANADIAN BRANCH HOUSES:—International Harvester Company of America, at Hamilton, Ont.; London, Ont.; Montreal, Que.; Ottawa, Ont.; St. John, N. B. INTERNATIONAL HARVESTER COMPANY OF AMERICA (Incorporated) Chicago USA

IHC Service Bureau

You Can Afford the Very Best BT Equipment

BECAUSE:

The special features on it (to be had from no other manufacturer) cut square in two the cost of caring for the cattle in the barn; often times prevent big knees and abortion; save feed; save expense in other ways; and in addition the comfort afforded the cows and the cleanliness made possible, increases the yield and improves the quality of the milk. By accomplishing these things, the special features on BT Equipment save money and make money sufficient to pay for the entire cost of the equipment in a very short time. The matter of Stable Equipment is worthy of your most careful consideration.

Now is the time for you to decide and have your barn right inside. For the sake of appearances and for the good of the barn it is important to have it nicely painted on the outside. But for the sake of profits and the health of the cows, it is far more important that your barn be EQUIPPED RIGHT INSIDE. Our new catalogue on Sanitary Barn Equipment tells how cement floors should be laid for stables, the proper measurement and shape for the cattle-stand, the manger, the gutter, etc. It also tells about the five exclusive features on BT Stalls. If you are building or remodeling your stable, fill out this coupon, and we will send you free our booklet on stable construction. We also build Hay Carriers and Litter Carriers.

It is a pleasure to work in a stable like this. When you read our booklet you will see how this equipment lessens abortion and does away with the principal causes of big knees, ruined udders, and many other injuries which cows are liable to. You will see how the individual mangers prevent over-feeding and under-feeding. You will also learn how the exclusive features on BT Stalls mean dollars and cents to you by giving greater comfort and protection to your cows.
