

### Modern Roofing for Modern Homes

Brantford Asphalt Shingles are a twentieth-century product—the ultimate in house-roofing material. They are uniform in thickness—can be laid quicker and cheaper than any other shingle made. Use them wherever wood, slate or tile shingles can be used. Brantford Asphalt Shingles are pliable—they can be laid to better advantage than any other, and will fit any corner, curve or angle. Made in three absolutely fadeless colors: green, red and black.

## Brantford Asphalt Shingles

Improve the appearance of any house. Tasteful effects can be secured without extra expense by combining two or more colors. They never become weatherbeaten or unsightly. They are fire-resisting, unwarpable, and attractive. They need no painting, make a warmer house, reduce insurance charges, are next to indestructible, and the cost is little more than that of wood shingles. With Brantford Asphalt Shingles there is no splitting, no curling, no decay, no variation in quality, no need for replacement every few years. Once laid, roofing cares are ended.
