# THE I. X. L. A SHIPPER

It Sent Twenty Tons of Ore to the to the recent find of nickel or on Wild Northport Smelter.

The Evening Star Has Secured a Low Rate From the Northport Smelter and Will Hereaster Send Its Ore There-Work on tions on the creek. the Path inder.

Northport, and the intention is to keep couraging results, and Dore was included the trial shipments as soon as the result of the trial shipments becomes known. Before the shut down the I. X. L. had produced about 500 tons of ore, which was reduced in the cell of the C. Wild reduced in the mill of the O. K. com-About three months since the Philadelphia company, which now owns the control of An average sample of the ledge was taken, the I. X. L. Mining company, resumed operations on its mine with a good force of men. The direct conducting of at the conducting of at force of men. The direct conducting of at tained.

This find would seem to indicate that H. Charles are the charge of Mr. Roy H. Clarke, who was acting under the directions of M. H. S. Sherrard, the general superintendent of the company. The first work consisted in extending the lower tunnel, which was in a distance of 300 feet. nel, which was in a distance of 300 feet. The operations here were not of a satisfactory nature, and work was stopped. Then it was decided to prospect the surface thoroughly. This was done by tracing the O. K. ledge down the hill in a southeastconsiderable distance. A drift tunnel was run along the ledge for a distance of 100 feet. Work was next resumed on the old tunnel, which was already in for a distance of 100 feet. This was extended about 30 feet in the direction of the ledge, and soon it was found. Here the ledge was from four to five feet in width and very strong. It carried, besides free gold, conwere made and the lead stripped for a on the several dumps. The intention is to keep up the shipments indefinite; should the result of the first one made; this week be satisfactory. The Philadel-

spected the mine and found everything spected the mine and found everything fex, a Reservation property of which he to be in a very satisfactory condition. He to be in a very satisfactory condition at the reservation property of which he thinks a great deal. He will leave to be the reservation property of which he thinks a great deal. He will leave to be the reservation property of which he thinks a great deal. ound the miners had just broken into a larger shoot on the main vein. The main ledge has been drifted on for a distance of 170 feet and the ore body has varied from two and a half to eight feet in width. Now the entire face of the lower drift tunnel is in ore and the ledge lower ms to be very wide. The ore is of a higher grade than any yet met in the drift. Up to last Saturday night 674 tons had been sent to the smelter at Trail, and during the week about 100 tons have been forwarded to that place. This makes a total of 774 tons sent to that smelter in the last two months. A lower rate than that given at Trail has been given

#### Pathfinder Mountain

week will begin the preliminary survey of a spur from a point on Brown's creek. In orth fork of the Kettle river, to Path-finder mountain on the east side of the river. The Pathfinder mine is now on a shipping basis and a number of promising properties in the vicinity are being developed. The lead in the south drift of the Pathfinder is being crosscut at a the Pathfinder is being crosscut at a shipping basis and a number of promising properties in the vicinity are being developed. The lead in the south drift of the Pathfinder is being crosscut at a shipping basis and a number of promising properties in the vicinity are being developed. The lead in the south drift of the Pathfinder is being crosscut at a shipping basis and a number of promising principally in gold. There is a larger vein on the property which has not yet been opened up.

Mr. and Mrs. Cole have just returned and the instructions which he had received the Pathfinder is being crosscut at a shipping some ore to the smelter was a listake, as none had then sent to the effect that the I. X. II. In the statement to the effect that the I. X. II. In the shipping some ore to the smelter was a listake, as none had then sent to the effect that the I. X. II. The crosscut is now seven feet in ore of good shipping grade, and no hanging wall has yet been en-countered. The lead is nearly perpendicular with the ledge disclosed by an open cut which has revealed 12 feet of shipping ore. Recent assays range from \$12 \$22 in gold and copper per ton, the values of both metals being about equal. The main working shaft is down 120 feet and in the crosscut in the 50-foot level there is 12 feet of ore. The Pathfinder has three distinct ledges from 15 to 30 feet wive on the surface, all being within 400 feet of one another. The mine is now in a position to ship 50 tons of ore daily, but this amount will be largely increased as soon as the new compressor is installed. Mr. Rice C. E., will be the engineer in charge

## Very High Grade Ore.

Mr. Ed Terzick returned from Norway mountain, where he has been for the past month. He has been working on the Jessie F. fraction, which is owned by himself and Messrs. W. K. Carpenter and F. H. Porkony. A shaft has been sunk to a depth of 21 feet. In the bottom of the shaft there is a six-foot lead of free milling ore. The ore carries considerable free gold. A sample was brought to this city and assayed. It gave very high values, the assay showing that it ran \$864.64 in all values. Of this \$207.84 was in silver and \$659.80 in gold. There are about 50 tons of this high grade ore on the dump. The intention is to sink to a depth of 41 feet and then to drift along the ledge. As soon as this distance has been run the intention is to commence been run the intention is to commence stoping. The ore will be rawhided to the Columbia & Western railway, which is only two and a half miles away. They feel satisfied that they can make big wages getting out the class of ore that they have in this property. They will commence shipping and have the property a dividend payer before the 1st of Jar uary. The is by far the most promisin by far the most promising property on Norway mountain.

News of the Bendigo

Mr. George Madden of the Bendigo Mining company, is in the city. The property of the Bendigo company is located six miles from Marcus. A tunnel has been run in for a distance of 120 feet and The ore goes about \$40 to the ton in gold

An Important Find of That Ore Reporte

A good deal of importance is attached

men is at work. Norway Mountain and Burnt Basin.

Mr. T. H. Rae came in Saturday from found on the Tammany Fraction, on which it is two feet wide, carrying free milling quartz, with some iron. Coming out Mr. Rea met three separate outfits going in to work on Burnt Basin prop erties. He also reports a good deal of acthe trail six working properties on Norway. The new trail, hie says, is in good condition, and renders access to these sections much easier than has been the case in the past.

#### This Is Speedy Work.

An illustration of the rapidity which machinery may be secured in Ross-land, was afforded Thursday, when a complete eight-drill compressor plant, ordered the previous evening, was sent to the C. & W. tunnel at Brooklyn by the local agent of the Jenckes Machine company and the Rand Drill company. The plant will be installed and in operation before the end of the week.

The Ore Showing Is Satisfactory.

Mr. W. H. Adams, manager of the Rambler-Cariboo, is in the city from Kaslo, He reports that the lead on the Rambler-Cariboo has been cut at the 350foot level and that the ore showing quite satisfactory.

Junior Hose Team.

The Rossland junior hose team has been formed with 13 members. The team has been given the pivilege of using a hose cart and hose by the city. The following are the officers of the team: Chief, Bert Lutey; assistant chief, Lewis Lefkoe; secretary-treasurer, Vernon Shilvock.

It is reported that the directors of La Banque du Peuple will shortly be in a position to pay the depositors the 45 per ent of the

The mistake as to the shipme through the fact that the Philadelphia the Burnt Basin over the new government trail, via Norway mountain. He reports good developments in the Basin, over 50 men being at work on various claims. The Jackstraw ledge, he says, has been found on the Tammany Fraction, on which it is two feet wide carrying free. Mining company is operating two prop and it makes no particular difference

which mine it came from.

The Surprise Is Looking Well.

High up on the side of Alpha mountain and adjoining the Alpha mine in the Slocan, is situated the Surprise claim. The big Alpha ledge crosses this property and an ore chute, almost as large as that worked on the Alpha, has been discovered and enough work done to show that this claim is the making of another Silver ton shipper. A tunnet has been driven to the surprise of the second riven to shopper. A tunnet has been driven to the beach, where she was seen sitting for two or three hours, then disapparing and leaving her workbag which was picked up by a boy. It is supposed she walked to the surprise of the s worked on the Aipha, has been discover-ed and enough work done to show that this claim is the making of another Silver-ton shipper. A tunnel has been driven on the Surprise a distance of 110 feet, the vein being followed, and in driving this tunnel over a carload of clean ore has been saved and piled on the dump. has been saved and piled on the dump.
The vein is large, averaging over 20 feet, wide and, as on the Alpha claim, lies, fairly flat, the dip being about 45 degrees. In driving the tunnel for the first 50 feet, a streak of clean ore from one to two feet wide was followed, which gradually worked over to the footwall and went out of the tunnel, which was driven straight, at a distance in of about 50 feet. The last 80 feet of this tunnel is in ledge matter that is full of ore and would give returns if run through a sonsentrator. Lying in this ledge matter are boulders or large chunks of clean ore some of them weighing over 400 pounds and the whole drift is in matter that will pay to work. At the end of this tunnel pay to work. At the end of this tunnel crosccuts have been driven both ways. per ton. The formation is the same as again a cured man, feeling stronger and that in which lie nearly all the big silver lead properties in the Slocan, being a San- Goodeve Bros.

don slate with occasional dykes of quartz-ite and porphyry. The situation of the property is very favorable for economical working, as it can be operated and drain-ed for a great depth by tunnels which can all be driven directly in on the vein. It is distant from Silverton two and one half miles, and connected by a good wagon road with the town.

No Idle Mines in the Boundary.

W. A. Scott, staff correspondent of th Francisco, has this to say of the Boundary country: dary district, a district, around Phoenix and Green wood are developed to a surprising ex-tent, and none of them seem to lack money for development and equipment. KIDNEYS "Doctor Reeves' treatment helped me from the first. My sense of taste and smell has returned. I have no headache, and my kidney trouble is cured." LIVER

"I had liver trouble. Every two weeks I would have a spell of vomiting that would confine me to my bed for three or four days at a time. I was nervous, easily discouraged, gloomy and nritable. I went to Doctor Reeves August 15th last have not had a sick headsche or a vomiting spell since that time." ASTHMA

"Dr. Reeves' treatment was a revela-tion to me. Each inhalation of the life-giving medicine brought comfort and case. Now I am able to sleep in bed like is Christian, a sweet, refreshing sleep, like, that of an infant. I work all day in the mill and experience no discomfort. With mill and experience no discomfort. With the exception of a slight sough, I AM A. CURED MAN. My trouble was asthma."

# "He Cured Me of Deafness

"My deafness came on about six years ago with bad ringing noises in the head, which troubled me greatly in conversation. I had to ask people to raise taeir voices when speaking to me, and around the table I could only hear the sound of voices, but could not catch a word. My hearing rapidly improved under Dr. Reeves treatment. I now hear well, and the ringing noises have entirely stopped."

"My eyes were so bad I had to stop reading entirely. The dizziness, the blurring and pain around the eyes made me fear total blindess. Dr. Reeves' mastery over diseases of the eyes is certainly wonderful. I can now see well, and best of all, can read with comfort. I was cured in a short time, while other doctors tampered with my eyes for the past six years."

"He Saved My Eyes"

'He Cured My Stomach"

Before I consulted Doctor Reeves my stomach was very bad. The severe pains, belching, bloating and sour risings was awful. I lost 40 pounds in less than a year. I thank God it was my fortune to go to this great doctor, who cured me"

Out-of-Town People People afflicted with any disease what-oever should write to Doctor Reeves.

"He Cured My Consumption'

"Doctor Reeves cured me of consump-ion after two doctors had given me up to ARE YOU Troubled with a bad live cure for consumption if taken in time. If you have consumption go to Dr. Reeves for he is the only doctor I have ever heard of that could really cure consumption."

He Cured My

Heart Disease "I had heart trouble for 16 years, and would often drop senseless on the streets and for two years was so bad I could not be left home alone. And would faint as often as two or three times a day. My circulation was poor and sluggish and I had palpitation of the heart. After taking Doctor Reeves' treatment for one month I had but one spell. And now I heartily indorse his Wonderful New System of treatment."

He Cured Me of Catarrh

"I had catarrh for a long time. It at-ected my head and throat and there were fected my head and throat and there were growths in my nose. Doctor Reeves New Treatment is just splendid. I never tried anything that did me so much good. I am recommending it to all my friends.

The Character of Dr. Reeves'

practice, the range of cursa he has performed in the various diseases of the HEAD, THROAT, EARS, THE LIVER, THE NERVES, THE KIDNEYS, THE EYES, THE LUNGS, THE STOMACH, have more than words can tell proved that he possesses the quality of medical learning that is essential to diagnose and properly treat all those diseases which attack the human frame.

Nor is it wonderful that Doctor Reever possesses these qualities when his educa-tion and medical learning are taken into consideration. A graduate of the best medical college. Has had 20 years prac-tice on the coast. His cures are many and wonderful.

eniember, Dr. Powell Reeves is the oldest specialist on this coast, and has housands of testimonials showing his success in Spokane. Ask your banker, ask the express company, ask your neighbor. Everybody knows Dr. Powell Reeves, he old RELIABLE doctor. You can depend on him when all others fail.
