MINERAL WATERS OINT DU JOUR, PARISH OF LARSOMPTIO

Point Du Jour, Parish of Lassomption.

THESE truly valuable WATERS are distinguished for the singe quantity of Bromine and Indian they contain, and are acknowledged superior to all other Medicinal Waters. They are the most agreeable retreshment of the description that have yet appeared. They can be used cold to the greatest degree in the most oppressive heat of Summer, and that without altering or affecting injuriously the health of the person using them, apon the contrary, hey are found to improve and strengthen. The large number of cures effected by the use of the above Waters, enable us to recommend them to the public as an excellent remedy in a very great number of cases. The names of a few only of the persons of celebrity, who have given their written recommendation of the Waters, are here given. These, however, show the happy results arising from their application:—

BOGLE'S AMOLE,

A COMPOUND FOR BHAVING.

This delighted article is totally different and far superior to anything yet invented for shaving. The base of it is derived from the dande, or "some plant," of California, an article need by the maives of that country for washing; and thus the use of strong Bladi, so butful to the skid, is avoided. Its vegetable and delegated properties have the purest and most stourishing effects on the skin,—it soothes and allays irrustions, and has a fire, there, creamy lather, which does not dry on the face. It is a decided inxury to be shaved with this incomparable sing. It is adopte up in elegibin style, calculated either for the dressing case of the "rough and ready": traveller, or the toilet of the most fastifious cosmolosseur. BOGLE'S AMOLE.
