### **SCORES THE SURVEYORS**

Should Use More Care in Surveys

Avoided Says the Gold Commissioner.

Yesterday afternoon the gold comvertisements had also almost been finished it, was found that the survey longing to two other claims then sub Mossman bench and were prior local volunteered their services and fur sisting. By using more care and be tions. The interim injunction in this hished several of the numbers on the ing more cautious as to the ground case is hereby made perpetual, and program, the first being an overture surveyed, says the gold commissioner the plaintiff is entitled to his costs Following came a song by Mr. Wn a great deal of unnecessary litigation as against the defendants with the Sheridan; for several years choir mass would be avoided. The decision in exception of the defendant Carrie ter at St. Mary's church, J. T. Timfull is as follows

"The plantiff is the owner of claim known as the Mossman bench adjoining creek claim No. 2, Ellorado creek gendarmes had to be called out to opposite the upper half, left limit. in August, 1901, and said survey was result two rioters and two gendarblished for twelve successive issues in the official gazette, commencing on on both sides. One hundred September 14th, 1901. Before the thirty arrests were made. last advertisement was published, one Howe, the owner of an one hundred foot bench claim known as the Tong bench, brought a protest against said survey on the ground that it interfered with his said claim. The protest was settled by Mr. Phiscator having his survey amended so as not to include any portion of the Tong bench. The amended survey was made by Mr. Green, and said survey, no including any ground outside of what was included in the original survey made by Mri Rinfret, was approved of by the director of surveys and ac cepted by the gold comm without further advertisement

"The defendant, Doheny, staked by three hundred feet-on the upper June 4th, 1902; said claim being further described as the McRae slaim been received from the company ask- not the case, and it was further and vacant ground two hundred, feet back of same, that is, vacant within boundaries and connected. The McRae bench was staked August 7th, 1897 and in the application it is describedas one hundred feet square com mencing at a point fifty feet down The McRae bench ran out in Sentemstream, down hill post at a point opposite the up stream line of creek 2, but, in face of Mr. Mc- stating th the description of the claim isfactorily but in the draft plan of the claim, pany w on the side of the application Fawcett, the then gold comoner that the up stream end of the claim was about fifty feet below and upper line of creek claim No. 2 only conclusion I can come to is. that the McRae post must have been his, however, is not material to the case. The Rinfret survey having been pproved by the commissioner, and dvert sed for the twelfth time on l lovember 30th 1901 without any protest being brought with the exception of the Howe protest, that only affected the survey in so far as it which followed Mr. Vincent's repor interfered with the Tong bench, said at the meeting this morning, it was protest being settled by the parties) asked if the harbor commissioners said survey as amended by Mr. Green would expect remuneration. It was been show that the absence of reguand approved of as required by sub-pointed out such bodies invariably lar books of accounts was not for section 8 of section 48 of the placer received large remuneration, and the purpose of defrauding creditors
