DDAK SAFETY A FILM

HUGO'S SHORT MEMORY.

Told Different Versions of a Story on Three Occasions.

The Revue Hebdomadaire publishes an anecdote on Victor Hugo which by many will be considered very characteristic. Right after Napoleon III.'s coup d'état Victor Hugo and Schoelcher, a well known politician of that period, fled together from Paris. A short time afterward, when Hugo met Schoelcher at his table in Brussels, the poet said: "Yes, my dear friend, you can boast of having once scared very much. I had no doubt but that we were done for." Turning to the other guests, he explained:

were on the way to the Northern rallroad depot and were sitting silent and uneasy in the omnibus, our hats drawn deep over our foreheads. Presently a regiment of infantry passed by with flying colors and resounding music. At the sight Schoelcher for got all caution and, leaning out of the window, shouted, 'Down with Caesar!' Instantly I caught hold of him and closed his mouth with my hand. One word more and we should have been done for."

Two years later Schoelcher visited his friend Hugo in Guernsey. At din-ner again the coup d'etat was discuss-ed, and the poet called forth recollections of times past. "Do you still recollect, Schoelcher," he asked, "the day of our flight? We really came off very lucky. But didn't we act like madmen, shouting 'Down with Caesar!' when that regiment was passing by? Of course we were too indignant to be able to keep our temper."

Most important of all is proper attention to the bowels. Avoid constipation, it's the health-killer of today. Harsh, griping medicine is ruinous — beware of it. Best results fo low attuly vegetable remedy, like Dr. Hamilton's Pills of Mandrake and Butternut, which not only relieve costiveness in one night, but cures the cause of the trouble and prevents its return. No distress or Several years lapsed, and again was a guest in Hugo's house. Conversation turned to civic courage and the like. "Well, my dear Schoelcher," Hugo said to his friend, "I must tell you something I have had in my heart for years. In a critical moment of your life you showed a weakness which grieved me deeply. Hamilton's Pills, which are world famous for their mildness and efficiency. Sold everywhere, 25c. per You will recollect that day when we, after the coup d'etat, left Paris and how I, while a regiment of infantry was passing by, at the sight of these killers of our liberty and in a rage, having no command over myself, shouted out, 'Down with Caesar?' I still have you before my eyes trem-bling with fear, catching hold of me by the lapel of my coat and forcing me down on the seat, so concerned you were for your precious life."

POINTED PARAGRAPHS.

When fish bite freely they're little

The impudence of some people is the only great thing about them. To burn a letter may show a lack of

sentiment, but it is in many cases a mark of good judgment. You often hear a mother say to her

child, "How often must I tell you?" How often must you be told? There is one thing you should put off till tomorrow that you might do today,

and that is sitting down and counting up your troubles. Some men not only feel that the world owes them a living, but are sore because there are no collection agen-

cies to collect it for them. If you brag that you are contented people say you might as well be a cow, and if you are discontented people say you have a grouch, and there you are.

Animals at Play. Animals have a keen sense of "making believe," which is the essence of play. A child's first game is bopeepeve. have a jolly tussle they make believe to engage in deadly combat. A striking instance of this occurred to a writer some years back. He gave a dead a kitten. It was the first time she had seen one, and she sniffed at it inquisitively before deciding to toss it about. A pair of slippers lay on the floor. She dropped the mouse into one of them and immediately proceeded to look for it most zealously in the other slipper till I took up the first, which contained her booty. Then she showed that it was no real lack of memory that had sent her on the boot-

The West End.

Why is it that in most of the cities of the world fashion makes its home in the northwestern quarter? Why is it that the "west end" is so often the aristocratic section of the city and "east side" and "south side" so often the residence of the poorer classes? It is a fact, and there is a ruling cause for it. Is it this—that the prevailing winds of the earth are northwesterly They are in general northwesterly, and their tendency is to blow the dust, smoke and odors of a city to its eastopposite quarter the more desirable for residence.

Rough on the Kirk Rats. It was a young Scot's first sermon after he received his license, and unfortunately he became very nervous lost control of his voice and spoke very loudly indeed. Nearly all his friends went to hear him preach, but one who was unable to attend inquired at the first opportunity as to how he got on. "I'll tell ye one thing," was the can-did reply, "it's many a day since the rats in Boulton kirk got such a fright!" -Dundee Advertiser.

Mechanical Difficulty.

Almost every boy has built dozens of dams in various ways, constructing them across the bed of the channel, wide or narrow, to be dammed. But did any boy ever think of building a dam on end and then tipping it over? An inventive American engineer, Isham Randolph, who became famous by his work on the Chicago drainage canal, has tried this idea on the Niagara river 200 yards above the Horseshoe fall and made a remarkable success of it, Of course an ordinary dam could not

easily be built in the fiercely racing currents of Niagara hurrying to plunge over the fall. So Mr. Randolph decided Car Runs Into House.

Fergus, March 5.—While a train of empty flat cars was backing down the G.T.R. spur which runs through the middle of the town yesterday one of the cars left the rails on account of the ice, and ran into a stone house alongside the track, knocking in the wall. The brakeman jumped, thus saving themselves, but one of the women inmates of the house, a Mrs. Fischer, was not so fortunate. She was sitting in the room when the crash came, and was caught by the debris and her dress bound between the car and the wall. She fortunately escaped with a broken ankle. The car was thrown directly across the track, and required the Palmerston auxiliary to get it in position and repair the car breakage.

to build his dam on end on the very edge of the river. It was not meant to do more than raise the water level a few inches, so as to prevent water level a few in to build his dam on end on the very edge of the river. It was not meant to

pounds. The whole column weighed some 200 tons. At intervals eight feet apart all the way up it along the land-ward face wooden wedges were inserted, so that in breaking it would follow these lines and break into regular blocks, held together by the chain. The plan was audacious, but entirely practical-a true "Yankee notion." On Nov. 9. 1905, the finished dam was sent fly ing over by three hydraulic jacks. Amid the breathless interest of a large crowd of spectators the concrete colsplash and spray subsided there it stretched, broken at the destined points, tilted a trifle irregularly in the middle, where the river bed was higher, but quite effectual. The depth of water increased ten inches at once "obelisk dam" was a success.-William Rittenhouse in Forward.

WEDDING SUPERSTITIONS.

A bride who finds a spider on her wedding dress may consider herself

The bride who dreams of fairies the night before her marriage will be thrice blessed.

Jumps to Death.

Chester, Pa., March 5.—In an effort to escape being burned to death, John Conly, a comedian of the Vandy Pair Co., was instantly killed yesterday by jumping from a window of the Arcade Hotel, where the company was stooning. If the bridegroom carries a miniature horseshoe in his pocket he will always have good luck.

No bride or bridegroom should be given a telegram on the way to church. It is positively a sign of evil. If the wedding ring is dropped dur-

ing the ceremony the bride may as well wish herself unborn, for she will always have ill luck. Kiss a bride right after the ceremony and before the newly made husband

has a chance to do so, and you will have excellent luck throughout the Should a bride perchance see a coffin while being driven to the railway sta-tion prior to departure upon her wed ding tour she should order the driver to turn back and start over again, or

else she will surely meet with bad luck. New York's First State Prison. The first state prison in New York state was built at the foot of West Tenth street, in New York city, in 1797. Within seven years there were three mutinies of prisoners, in which keepers were killed and the prison set on fire. Nevertheless the institution seems to have been considered an attraction, as appears from the following advertisement of the Greenwich hotel, printed in the Columbian of

Sept. 18, 1811: A few gentlemen may be accommodated with board and lodging at this pleasant, and healthy situation, a few doors from the state prison. The Greenwich stage passes from this to the federal hall and returns five times a day.

The prisoners were transferred to Sing Sing in 1828, and the property was sold the next year.

The Law's Delays. A lawyer on being asked why his profession is always in court asking for delays and adjournments responded: "I have observed in my long years of experience that when a lawyer has a very good case he is anxious to try it. If he has a poor one the longer he can delay it the better it suits him. There is no telling what the accidents and incidents of time may supply in his favor. Another reason perhaps," the lawyer continued, "is the fact that a lawyer never feels like prying himself entirely away from a case until he has to. I concede that this is one of the mysteries of the legal mind."

A Judge of Eggs. Judge Addison, a well known jurist of London, was in the habit of indulg-ing in the oddest observations while trying cases. On one occasion oppos-ing lawyers were wrangling over the question, "When does an egg become stale?" The judge, who had vivid recollections of a close election contest in which he figured, declared that the real test of an egg's staleness was the moment it became fit for use at a con-

27 Mailed Free, Boston all Skin Humors

In the Bathroom The one thing to be avoided is a clut-ter of small things—too many bottles and boxes on the shelves and tables, a number of rumpled towels and, above all, a rack of clothes hung up to dry. The nickel plate should be kept shining with constant polishing and the white porcelain, tiles and enamel immaculate. The nickel quickly collects the green exide, and the white enamel takes on a peculiar yellow stain if neglected. Any one who has attempted to correct the results of this neglect in either case has found her task a difficult one and if the neglect has continued too long almost an impossible one. With daily care, soap and water, combined with vigorous scrubbing and rubbing, are quite sufficient. A gritty

It never gets damp or lumpy. Each crystal dry, full of salt-life. That's why particular people use WINDSOR SALT.

soap should not be used on either the

nickel or the enamel.—Harper's Bazar.

Spots on Tablecloths. The best way to remove any sort of spot from a tablecloth is to place a under the spot and draw cloth over it so there is a little dip in the center. Then pour boiling hot water over it, and it will be found when the snot is dry that the stain has enirely disappeared. This is an excellent way to remove a spot after the table is all set, for by pushing a plate underneath the stain can be removed without difficulty with the boiling waafterward with a dry napkin there will be no trace of it by the time the luncheon or dinner is ready.

The News-No Pure Drug Cough Cure Laws would be needed, if all Cough Cures were like Dr. Shoop's Cough Cures is—and has been for 20 years. The National Law now re-quires that if any poisons enter into

quires that if any poisons enter into a cough mixture, it must be printed on the label or package.

For this reason mothers and others, should insist on having Dr. Shoop's Cough Cure. No poisonmarks on Dr. Shoop's labels — and none in the medicine, else it must by law be on the label. And it's not only safe, but it is said to be by those that know it best, a truly remarkable cough remedy. Take no chance, particularly with your children. Insist on having Dr. Shoop's Cough Cure. Compare carefully the Dr. Shoop package with others and see. No poison marks there! You can always be on the safe side by demanding Dr. Shoop's Cough Cure. Simply refuse to accept any other.

SNAPSHOTS OF LA MODE.

An Economical Evening Frock-Some Good Millinery Hints.

Pompadour silk is one of the most fashionable fabrics for dinner dresses, and young women especially choose it, for it trims itself. With the exception of a wide plastron and a shoulder surplice of Venetian lace, a charming pink silk of this material has no other trimming. The gown is made on the princess lines with a short train. The sleeves are of the heavy Venetian, and the plastron on the front of the corsage where it is held by a soft knot of the lace, which hangs in long ends on the with a soft cloth.

BROWN SUIT-5554, 5512. fashion to follow, for there are certain colors in gowns which if worn with a black hat lose their individuality and smartness right away. Take, for instance, the red costume or any striking shade in the dark colors.

It is necessary with the hats of the moment that the hair should be becomingly arranged about the face. Then if there is no boa worn the collar must be extremely high, for there are very few women who can wear a low collar and a hat with success.

Brown for street wear is a favorite color. Here is an example that shows the color in cheviot with collar cuffs of velvet. This style of suit is well adapted to all round use. The box coat is loose and fitted by means of shoulder and underarm seams. The seven gored skirt is laid in two bex plaits at the front, back and sides JUDIC CHOLLET.

Hiding the Radiator. An unsightly steam radiator has been thoroughly eliminated and disguised by putting an ordinary shelf on iron braces about a foot above it and hanging a curtain in front. The top of the shelf is covered with denim or burlap, and curtains are tacked at each end that hang straight to the floor. The curtain across the front is hung from slender brass rod and may be bulled to one side when more heat is needed The shelf extends some distance be yond the ends of the heater and is used

for books and pretty bits of china.

An excellent mending cement for mackintoshes is made by dissolving some shreds of pure india rubber in benzine, which will form a stiff paste. Spread the injured part of the mack intosh one something flat, apply a little of the paste to the part to be mended and leave until the cement is harden ed. This may also be very satisfactorily employed in mending rubber gloves.

ENGLISH SPAVIN LINIMENT retiest when cut in a triple sort of collar which comes down low on the bodice in front, each piece edged with tiny knife plaitings projecting from the one above it.

The picture shows a pretty bright plaid wool trimmed with collar and bands of fancy silk edged with white cloth. The skirt is kilt plaited and at the collar and the collar in the skirt is kilt plaited and at the collar in the collar and the collar in the

Oiling Floors.

When oiling floors, use a woolen cloth rather than a brush. If the oil is thoroughly rubbed in with the cloth, the result will be much more satisfactory than when put on with a brush. The same is true in staining floors, and in this case the stain should be rubbed into the wood with one cloth and then rubbed off with another.

Rusty Old Oak. Old oak that has been neglected should be washed in warm beer; then, when dry, wash it again all over with a soft brush with the following mixture: One quart of beer, in which has the plastron on the front of the corsage is brought down to the walst line, of a walnut, and a tablespoonful of sugar. Leave this to dry, then polish
