The Rev. D. S. Yates will preach
next Sabbath in the Presbyterian
Church, Sackville, at 8 p. m.

THE CONCERT given on Thursday
evening last by Miss Pickard's
female class was a highly successful
affair.

THE CHANGE of Time Table on I.
C. R., was announced to take place
last Monday, and did not. A note
from the Superintendent says that
the date will be fixed after the Grand
Trunk changes.

One of the piers on the new Mem-
mambrook bridge has settled on one
side. The foundation is not consid-
ered good and the Commissioner of
Public Works has decided to place a
new pier beside it.

ALBERT BRICK LIME and CEMENT
Co.—The following are the officers:
A. E. Killam, President; George
Colquhoun, Secretary; James Tupper,
Treasurer; M. H. Palmer, Esq.,
Directors; T. McHenry, Manager.

THE MONKTON POLICE COURT does
a lively business with drunks, dead
drunks, disorderly and assaults. A
lad named George Taylor pounded
some days ago by Gilbert Berry is
not expected to recover. The latter
is under arrest.

TAILORING.—Mr. J. F. Allison has
completed his arrangements for
Custom Tailoring. He has on hand
a well selected stock of cloths. Mr.
Gannett, who has charge, is an ex-
perienced and successful cutter, and
no doubt will furnish fashionable suit-
ings such as will afford every satis-
faction to his customers.

THE N. Y. World is the most
brilliantly edited paper in America.
The peculiar humor and literary
excellence of its articles remind one
strongly of the Spectator. It issues
a cheap dollar weekly edition.

ACCIDENTS.—A young man named
Henry Amos had his hand badly
lacerated while working a horse
power sawing machine at Mr. W.
W. Fawcett's last week.—S. S.
Sharpe, Esq., Westmorland, cut the
joint of his thumb two weeks ago,
which resulted in a very serious case
of inflammation of the hand and
arm. He is now slightly improved.

SHIPMENT OF CATTLE TO ENGLAND.
—Mr. McDonald purchased last
week from Mr. Wood 21 head of
cattle; 13 of them averaged 1,850
lbs., and 8, 1,750 lbs. The former
were shipped to Quebec on Friday for
shipment to England. The price was
\$4 1/2 cts. Mr. Wood sold \$1,700
worth of cattle during the winter.
He will turn 30 head into pasture
for June and July markets.

A GREAT ADVANCE in the price
of Cotton Goods has taken place in the
markets of the world, and in spite of
this and the extra duty of one cent
per yard, C. A. Bowser continues
to sell plain cottons at the extra-
ordinary low prices of the last month.
No one who has not examined his
stock has any idea how much can
be purchased for one dollar.—11

OF EITHER QUALITY.
At greatly reduced prices. He has
a large stock of TABLE and first
quality FREESTONE at extremely low
prices. Also Italian Marble Table and
Counter Tops.
Persons are cautioned against buying
Southern Falls American Marble for the
Italian, as on account of their resemblance,
it is frequently sold for the latter.
Persons wishing to purchase will find it
decidedly to their advantage to call and
examine for themselves before buying
elsewhere.

All orders promptly attended to, and
finished in a workmanlike manner. De-
signs sent free when required.
S. B. ANDRES.
Amherst, N. S., Dec. 12, 1876.

THE SUBSCRIBER having a large amount
of superior ITALIAN and AMERI-
CAN MARBLE on hand, is prepared to sell

FROM BAY VETER.—Mr. Geo. B.
Willett, who carried on a large gen-
eral business at the Albert Mines for
six or seven years and was with
Messrs. J. & C. Harris, of Moncton,
has had a good experience in the trade
and is likely to give satisfaction to
the people here. The host of personal
friends he made both at the
Mines and at Moncton, will wish him
every success in his new enterprise.

C. A. ANDERSON, DENTIST, will be
absent from Sackville until further
notice. Due notice of his return
will be given. Parties requiring
dental work are requested to await
his return. His work has been
very much improved, and with
very few exceptions has given the
highest satisfaction; and during that
time he has had to do over again
a large part of the work of every
dentist who has ever practised in
Sackville.—11

THE BRIDGE over Boundary Creek was
burned down on Saturday afternoon.
The fire caught from the woods.
This was a fine bridge and cost
\$2,800.

IT IS PROPOSED to amalgamate the
Grand Trunk and Great Western, to
stop competition and low rates for
freight. The Grand Trunk
paid only one per cent. in preferen-
tial stock last year.

THINGS ARE BRISK at Eatonville,
Cumberland County. Messrs D. R. &
C. F. Eaton have over 90 men
employed. They have two ves-
sels on the stocks. One of them is
a fine barge, will be launched this
month, and will load with lumber for
the West Indies.

PERSONALS.—A. Ogden, Esq., M. P.,
was in Sackville on Saturday on
his return from Ottawa. Mr. Ogden
has made a very good record. His
speech on the Lobster question was
most effective and resulted in the
Government passing an order-in-
Council extending the close season.
Geo. W. Burbridge, Esq., Deputy
Minister of Justice was in town on
Saturday.

IMPROVEMENTS AT PARROBRO.
—Scows have arrived, the dredge is
expected to dredge out the river.
This will make navigation here easy.

wide and 150 ft. out at Weststone
Creek below the bridge. This enter-
prising firm purposes to extend it
another 150 ft. next year.

FROM ANDERSON.—Messrs. M.
Finney and N. H. Hines were re-
turned from a hunting excursion at
Lowther's Lake. They have, as the
result of three days' work, fifteen
muskrat skins. They tell us that they
caught one hundred and fifty muskrats
at Point de Bute, last week, and
that they sold the first 25 for 25c
per skin. The barrel factory of Mr.
D. Grant has been doing a good
work.—The driving of logs on Copp's
mill stream has commenced.

POWDERMEN.—John, son of the
late Donald Nicholson, returned
from California about two weeks ago
(where he had been for eleven years)
and instituted a search for his father
last week but without success on the
part of the explorers; however, a
very short time after his return he
was shot by a bullet which entered
his chest and he died on Monday.
The cause of the tragedy was as fol-
lows: The powdermen were engaged
in the work of loading powder into
barrels, and the powder was very
dry, and the men were not taking
proper precautions. The powder
exploded, and the men were killed.
