And Get By-law In Shape to Banish Smoke Nuisance.

Would Put Some Firms Out of Business In Present Shape.

rew of Sand-sucker Released Again—City Hall News.

Chairman Sweeney intends seeing that at the next meeting of the Board of Works the smoke nuisance by-law is taken up in earnest.

Assessment Commissioner Macleod has written City Clerk Kent stating that with Assessor Robinson he went to the corner of Herkimer and Hess streets, and stood several minutes watching the cars pass the Brantford & Hamilton Railway's diamond.

The insurance company has been so slow adjusting the loss on the celebrated sunducker that City Engineer Barrow says it has been found necessary to lay the captain in arrears of temporarily.

John G. Gauld, solicitor for the Brantford & Hamilton Railway, has written City Engineer Barrow saying that his time has been so taken up at the assizes he has not been able to take the suggestions of the city regarding improvements to the line in the city, but will do so this week.

City Engineer Barrow has instructed Engineer Heddie and Foreman Towers, who have been inspecting the street cars and roadbed to see what the company has done to make their reports at once.

Gangs are still employed at road work on Herkimer street and Wellington street from Simcoe to Pictou. The only other road work to be done this year is the paving of Main from James to Hughson street at the company's expense, and James street, between the rails, from Main to King street, as ordered by the Railway Board.

There is not enough business on the City Council's order sheet to-night to occupy the aldermen's time more than fifteen minutes. It is probable there will be some discussion over the Finance Committee's recommendation against publishing the assessment rolls.

The sewers department has already engaged a large number of workmen and this week will double the gang on the east end annex sewer so as to rush it to such a stage of completion as to handle the surface water from the Berlin Machine works.

The city will be through with the work on the mountain drain shortly. It will take two or three days to complete the cement work at the head of James street.

Through a letter from Mayor Moss becoming mislaid the conference asked for by Dundas on the question of Hamilton supplying the town with water has been delayed. Mayor Stewart announced to-day that the matter would be dealt with at once. He thinks Hamilton can supply the water when the new pumps are installed, but Dundas would probably have to use a small pump.

Mayor Stewart conferred with Hon. J. M. Gibson and General Manager Hawkins on Saturday about the width of the devil strip on James street, between King and Main streets. While he received no definite answer, he feels sure the company will undertake to pay for the work and material for the extra foot. He expects to get the matter settled this afternoon.

BISHOP F LONDON.

Preaches Before Big Crowd at New Haven, Conn.

New Haven, Conn., Oct. 14.—Many hundreds of people were turned away from Woolsey Hall, Yale University, yesterday, at the college service, usually held in that chapel, when the Rev. Arthur F. Winnington Ingram, Lord Bishop of London, preached. The auditorium was filled to its capacity, and the faculty and undergraduate body had taken their seats. The bishop preached earnestly from James i. 17. In opening he said he brought a greeting to Yale from the older Universities of Oxford and Cambridge. The text he divided into three parts, faith, conscience, morals, and personal cleanliness and stewardship. He urged the college men to go into college settlement work, and praised the various religious bodies which aim at bringing together young men.

The kind of chickens to be kept upon a farm depends almost as much upon the kind of man who manages them as upon any other condition.

THE JAP QUESTION.

Canadian Club Debate at Conservatory This Evening.

To-night's open meeting of the Canadian Club in the Conservatory of Music promises to be very interesting. The topic, "To What Extent Shall the Asiatic Be Admitted to Canada?" will likely provoke a keen debate among those present.

The Trades and Labor Council is sending two or three representatives to take part in the discussion, and other debating and literary societies will have their best men present.

Canada's engagements with this question, and the local club does well to begin its year's work with the ventilation of the subject that deeply concerns the future of this country.

JAP INVASION.

Count Okuma Says Talk is Caused by Politics.

Tokio, Oct. 14.—Count Okuma, who in the first stages of the immigration troubles in America, strongly disapproved of the government's Pacific attitude, now practically admits that the radical utterances of both sides was largely prompted by politics.

In an interview yesterday, Count Okuma said that Americans misunderstood the Japanese, who are astounded at the utterances of American newspapers. Reports of the possibility of war, he said, have always emanated from the United States, and very naturally are copied by the newspapers of Japan.

While he believes that the Americans are over-sensitive on the subject of Japanese immigration, he holds the opinion that the whole discussion is largely due to the fact that the United States are to have a Presidential election next year.

It is not likely that the immigration question will be seriously discussed or even become an issue at the coming session of the Diet. The Japanese Government believes that the entire question will be solved by the present discouragement of emigration and the strict observance of the laws.

LATE SPORTING NEWS

The St. Andrew's College Rugby team, on Saturday, defeated the Highfield team at the Cricket Grounds by a score of 11 to 1. The St. Andrew's team was: Monroe, Parsons, Wright, Harcourt, Davidson, Silver, Davidson, Bowman, Wright, Wood, Burke, Johnson, Rentliff and Abbey.

In the soccer games in the Spectator Cup series on Saturday the Westinghouse team defeated the Y. M. C. A., 4 to 2 and the Lancashires won from Dundas by a score of 1 to 0.

ANOTHER WESTERN MIRACLE.

A Desert Turned Into a Garden by Water From Underground.

Two years ago a great, dry and barren plain, larger than the whole State of Massachusetts, lay between the Rio Grande and the Nueces River. It had 4,000 white inhabitants, mostly cattle raisers, and its pasturage was so scant that it required ten acres to raise one steer.

They bored for water and they found it—in gushers that poured out a thousand gallons a minute and made lakes among the cacti and the mesquite. Within one year 8,000 of the men they call the makers of the southwest, had shot 180 miles of railroad from his Frisco system across the erstwhile desert, a score of towns had come into existence and the region had become the winter vegetable garden of the country.

It is this fact that is attracting the farmers of Iowa, Nebraska and the middle West and inaugurating a migratory movement that has caused a cry of alarm to be raised from the States that are being depopulated in the sense that their immigration is checked. Millions of acres in this arid belt remain untouched and are still producing nothing but unburned cactus and mesquite.

To them the steamship companies, the railroads and the immigration bureaus have turned their attention. New lines of transportation are being established direct from European to Gulf ports, thus already relieving somewhat and promising greater relief in the future to the congestion of our principal Atlantic ports of entry. The German population in Texas is already great, though now the immigrant seeks the new country overland, whereas in the near future the immigrant entries at New York may be expected to be reduced and those of Galveston and New Orleans increased even more greatly than of late.—From the National Magazine.

1907 A RED LETTER YEAR.

Right to Vote Won by Women in Four Countries of Europe.

Women all over the world are beginning to look upon 1907 as a red letter year for their sex. Their first notable step ahead this year was the granting of Parliamentary suffrage to the women of Norway. Then Swedish women were made eligible for municipal offices; next came the granting to the women of Denmark of the right to vote for and serve as members of boards of public charities, and now the British Parliament has just passed the bill making women eligible as town and county councillors and aldermen.

In 1888 when the county councils were instituted in England it was thought that women were eligible, and three—Lady Margaret Sandhurst, Miss Jane Cobden and Miss Constance—were elected by the voters of London. Beresford Hope, who had been defeated by Lady Sandhurst, contested the election on the ground that women were not eligible. The litigation was prolonged and meanwhile the women were allowed to serve. One of the duties assigned to Lady Sandhurst was the supervision of twenty-three infant asylums. When Mr. Hope finally succeeded in ousting her one of the leading London dailies sarcastically remarked:

"It is to be hoped that the gentleman will find himself equal to mothering all those babies."
