

Cheap Tea is Dear Tea

SO declared the mother of a small family not long ago—
—And proved the statement true by simply relating her tea experience.
"I used a 30c. Tea for years," she said. "One day the Grocer asked me to try a 40c. package of Red Rose—he told me it was better Tea. I found it better Tea, and—before I had quite finished the first package I thought it made more Tea. The second pound I used with care—
—And found out that less Tea in the Pot made a richer, finer-flavored Tea, if you know what I mean."

We know exactly what this lady meant—
—40c. Red Rose Tea is a richer, stronger Tea, more delicately flavored.
The 30c. variety makes about 150 cups—
—Whereas the 40c. Red Rose Tea makes about 200 cups.
So—You might as well have better tea for the same cost in the long run.
There are several grades of Red Rose Tea selling at different prices, but the 40c. grade seems to please best. It is not only fine Quality but goes farther.
"Red Rose Tea is Good Tea"
