WHAT CANADA HAS DONE

By W. R. Givens in the New York Independent and Harper's Weekly

By W. R. Givens in the New York Independent and Harper's Weekly.

Two years ago, on August 4, 1914, when Canada entered the war by the side of Great Britain and her Allies of her own volition—"Daughters in her Mother's house, Mistress in her own"—her public debt stood at \$314,301,625. At the present she is spending on the war alone, on her troops at home and overseas, a total of \$1,000,000 daily; or, in the year, more than her entire national debt of two years ago. And yet, except from a few whippersnappers and professional or political agitators, one hears no complaints or grumblings—no protests at or railings against the expenditures. The rather—and it but emphasizes the fact that the British bullock spirit has found a lodgment in Canada—the people, having given of their best blood and brawn at Ypres, at Festubert, at Langemarck, at Ghinchy at Verdun (for our total in killed, wounded and missing is now 300,000) are practically solidly behind the Government in its forward work and are prepared, as General Grant was in his time to fight the issue out "if it takes all summer."

This, then is an outstanding feature in Canada today after two years of war, that her people and her government alike are more determined than ever to do their bit for the cause of the Empire. They have seen their per capita debt increased to over \$50; they have had additional taxes placed upon them; they have seen one homo after another put in mourning, and the will of the people remains inflexible that Canada and her sons shall stay in the fight to the finish until the war-mad Huns shall be finally and fully overcome, and liberty and light be again assured to the world.

Saves Shortening

One of the first things you notice, after "Beaver" Flour comes to your house, is that you are using less shortening than you used with western spring wheat flours. You also notice that the Pie Crusts, Cookies and Doughnuts are lighter and flakier—that the Bread Rolls and Biscuits have a delicate flavour, a delightful, nutlike, homey flavour that is doubly welcome after the tough, almost tasteless bread you used to make with western spring wheat flours.

BEAVER FLOUR

Milled of Blended Wheat

is really two flours in one, for two kinds of wheat are used in blending. "Beaver" Flour contains the choicest Ontario winter wheat, strengthened with western spring wheat.

This gives you the finest pastry flour that can be milled—with the right strength to make a good size loaf of bread or a big pan of snowy Rolls.

More than that, everything made of "Beaver" Flour has a deliciously appetizing, nutlike flavour that is entirely lacking in the strong, western spring wheat flours.

Try it yourself—see how you save shortening—see how you come to depend on the even strength and quality of this famous flour—see how everything tastes so much better. Your dealer should have "Beaver" Flour—or will get it for you.

increasing by one dollar the cost of living or the necessities of life, these taxes being on note circulation of banks, on gross incomes of trust companies, on checks, on telegraph messages, on sleeping car tickets, on perfumery, on wines, on bills of exchange, on letters (which now require an additional cent stamp) on excess war profits, on business profits beyond seven per cent in the case of companies capitalized at 50,000, and beyond ten per cent in certain other cases, etc. The taxes, in short, as in England have been levied against those best able to bear them, and it is a tribute not alone to the wisdom of Sir Thomas White, the Finance Minister but to the people themselves that they are accepting their added burdens without complaint.

DUKE OF DEVONSHIRE

The Right Honorable the Duke of Devonshire was formally installed as governor-general of Canada in the historic council chamber of the Nova Scotia provincial building, in Halifax, at three o'clock Saturday afternoon, Nov. 11th, in the presence of representatives of the Dominion government, the cabinet, the senate, the navy, the army, the supreme court of Canada, the Lieutenant-Governor of Nova Scotia, the provincial cabinet, the clergy of Nova Scotia and prominent citizens. His Excellency was sworn in by the Hon. Sir Louis Davies, K. C. M. G. The Duke of Devonshire was the third governor-general installed at Halifax, the others being the Marquis of Lorne and Earl Grey. The ship bearing the Duke of Devonshire, the Duchess of Devonshire, their two daughters, Lady Maud Louisa Emma Cavendish and Lady Blanche Katherine Cavendish, arrived in Halifax at noon, Saturday.

Lantic Sugar

makes the best cake because it creams quickly and thoroughly with the butter which is the hardest part of the mixing. Its purity and extra "fine" granulation make it dissolve at once.

FIRE PAUL PROTECTION

Useful articles to have on the farm are buckets of water properly distributed around the barn. Fire buckets, with rounded bottoms, which on account of their shape are inconvenient for general use, can be placed in a round hole cut in a shelf or bench; they should be covered and inspected regularly to assure their being kept full. To prevent freezing two pounds of fused calcium chloride per pail may be used. The buckets should be painted red so that they will be more conspicuous, a constant reminder of the danger of fire.
