Plea for Fraternity.

SA Plea for Ohristian Fraterhity, s the title of an article in the Incependent, by the Very Rev. James C. Byrne, President of St. Thomas' College, St. Paul, Minn. This is what Father Byrne writes: Nature and grace demand that Christians of all denominations forsake their prejudices and antipathies and come to-gether in closer bonds of sumpathy and love. Nature speaks to us in the workings of time, which softens the narshest sayings and mitigates the most grievous wrongs. It appeals to us in children, who feel far less the DYSPEPSIA. buterness of their sires; in grand-children, who do not feel it at all. There is, by the way, a certain litera meaning in the divine saying, "Except a man be born anew he cannot see the Kingdom of God." Again, nature appeals to us in the everwidening horizon of our thoughts The more we know of the present future, the less we are concerned with the past and and its wretched legacy

Electric Winnipeg.

A very odd thing, and one that not ger, is the peculiar electrical condi-tion of everything in Winnipeg during the winter. If you reach out to touch an electric bell, before your finger is within three inches of the enunciator there is a flash of lightning that goes up through your arm and will pro-bably make you jump six feet. If you touch any metallic substance there is a flash of lightning; when you get into bed the clothing crackles, and one would think that the landlord had provided you with a b'anket adorned with fireflies. After a while one gets so nervous one is afraid to touch anything. I have stumbled around my room and bruised my shins rather than take chances lighting the gas or turning on the electric current If you reach for the gas jet, "crack' it goes. If you shuffle your feet along the carpet you can light the gas with your finger. It is really one of the most startling phenomena in the whole Northwest. Imagine turning over in one's bed and having the quilts emit sparks, or reaching for a bell and being immediately answered Holy Spirit demands.
