Why do people use the word "head" in giving the number of cattle spoken of—as, for example, "two head of cattle?" Would it not be just as convenient to say two tail of cattle, or four ear of cattle, or eight foot of cattle. And wouldn't it be a little more convenient to say, simply, two cattle.—[Hamilton Spectator.

not object to polled cattle being reckoned by the head.

THE Brockville Recorder puts the case nicely in the following brief para-

"Mr. Cameron, M.P., having exposed the vile practices of so many of the Tory M.P.'s in grabbing timber limits, coal lands, etc., as the price of their subserviency to the government, the whole brood is in full pursuir, calling him ill names and throwing mud at him. Why don't they disprove his charges? It would be more effective than calling names."

THE Hamilton Times gives the following sly drive at the Oxford professor :-"Goldwin Smith has gone on the stump against granting Home Rule to Ireland. He will speak in several English cities. Mr. Smith believes in a democratic form of government for every other civilized country but Ireland."

Goderich, June 29, 1886. To the Rev. T. M. Campbell. DEAR PASTOR,-According to the sage of our church, the time has now ome when, at the end of a three years' term, you are called to leave this charge for a new field of labor. It is with feelings of deep regret that we, the young people of the congregation are forced on this occasion to bid you and your family a formal farewell. During the years you have been our pastor your devotion to the Master's cause, your earnest and disthe haster's cause, your carnest and dis-interested labors, your Christian life and irreproachable integrity, your broth-erly kindnoss and sympathetic nature, but most of all your warm zeal for the conversion of souls, have endeared you to us, and we shall ever remember you as one who came among as to do us good Many here present have been brought from Darkness into Light, through God's blessing or your efforts; while many others have been strengthened and built more earnestly to do the will of Hun done willingly and with pleasure. My mother's power of faith and her prayers were the instruments in God's hands of shaping my life and character. I feel sure she is cognizant of what is being done here tonight. Her kindness of heart, her goodness, her weetness are wors than a mere memsweetness, are more than a mere mem-ory to me. I have loved this place more than any other place I have yet called my home. My youngest child was born here; my sister was married out of the parsonage; and from this parsonage also my mother's spirit took its flight to the better world. These incidents have the better world. These incidents have been marked spots, milestones as it were, along the pilgrim way. These matters have tended to bind us nearer to Goderich as a family.
