Novelties in Jewelry.

From the Jewellers' Weekly. The ruby-cut crest is a desirable substitute for its more costly namesake...

A very flexible bracelet is now made of small, round, button-like links in some ornamental finish, fastened together by pairs of interlocking eyes.

Pearl-centred and stemmed geranium leaves are favorite forms in black onyx earrings. Three such leaves ranged in a row make a pretty lace pin to match.

A very slender elastic wire bracelet now in request has two horseshoes of diamonds and other stones set with beaded edges close together on the overlapping ends.

Rich smelling bottles in enamel work, heavy chasing or plain glass with diamond set top, sometimes costing as much as \$500 or \$600, are among the luxuries which the jewellers now offer.

Fine artistic enameled work is more popular than ever. Large carnations and similar flowers, with the scintillating dewdrop glistening on the leaves, make strikingly brilliant pins on pendants.

In accordance with the growing custom of displaying gems to the best advantage, very fine necklaces, scarcely distinguishable, to which rich pendants are attached, are much in vogue.

A pretty bracelet ornament of recent design consists of two series of graduated balls, one on each side of the wire, forming an oblong oval figure, with a row of diamonds or rubies between.

The prevailing styles in men's vest chains are the two strand, with or without seals in the centre, the fancy French link, and the platinum and gold combination, in the French and also in the usual style.

Now that the Russian table ware is in gold so much prized here, it is not strange to see some of the most beautiful and characteristic patterns of this ware reproduced on link-brooches and other articles of jewelry.

A very elegant lace pin of novel design is a round brooch bearing a large diamond in the centre, having a wreath of diamonds around the circumference, and in the intermediate space delicate open work of black enamel.

Ladies Only. The complexion is only rendered unsightly by Pimples, Liver Spots and Yellowness. These it is well known are caused from an inactive Liver and bad blood.

"What will you take to drink?" asked a waiter of a young lad who for the first time accompanied his father to a public dinner. Uncertain what to say, and feeling sure that he could not be wrong if he followed his father's example, he replied, "I'll take what father takes."

The answer reached the father's ear, and instantly the full responsibility of his position flashed upon him. And the father shuddered as he remembered the history of several young men, once promising as his own bright lad, ruined by drink, started up in a solemn warning before him. Should his hopes be dashed, and that opened faced lad become a burden? But for strong drink they would have been active, earnest, generous men; and if it could work their ruin upon them, was his own son safe?

"My husband was troubled with dyspepsia for more than four years. Two experienced physicians did him no good. We got discouraged, until we read of Burdock Blood Bitters; he took only two bottles and now is as well as ever, and doing heavy work all the time."

Around each bottle of Dr. Chase's Liver Cure is a medical guide and receipt book containing useful information, over 200 recipes, and pronounced by doctors and druggists as worth ten times the cost of the medicine.

Don't allow a cold in the head to slowly and surely run into Catarrh, when you can be cured for 25c. by using Dr. Chase's Catarrh Cure.

A slim young man in the height of fashion was violently sneezing in a street car, when a companion remarked, "Aw, Chawles, deah boy, how d'ye catch that dreadful cold."
