FORGET RETIRES AFTER 12 YEARS

Lieut. Governor Brown Takes Oath as Governor of Province of Saskatchewan

Regina, Oct. 14.—Shortly after 2:30 this afternoon, George W. Brown was sworn in as Lieutenant-Governor of Saskatchewan in succession to ex-Lieutenant-Governor Forget.

The ceremony took place at Government House, the oath being administered by Rutherford Boreman, clerk of the King's Privy Council.

Among those present at the ceremony were Premier Scott and several judges of the supreme court. Following the administering of the oath ex-Lieutenant-Governor Forget addressed a few words of congratulation to his successor.

In the course of his remarks he stated that so far as his term of office was concerned the only act for which as far as he could remember he had been criticised was his choice of a cabinet at the time the new province was constituted.

The new Lieutenant-Governor briefly replied, declaring his intention to uphold the dignity of the high office for which he had been chosen to act, had always in accordance with the constitution's wishes laid down for his guidance, with the good of the people of the province always before him.

An Unpleasant Incident.—A touching and somewhat incident in the swearing in ceremony took place as the new Lieutenant-Governor drove away from Government House to his city when the ex-Lieutenant-Governor himself lowered the flag in front of Government House, thus signifying that though the man who had lived there in the highest official capacity in the province for the past twelve years was still there, the Lieutenant-Governor was not in residence.

Mr. Boreman left tonight for Edmonton where he will administer the oath to Lieutenant-Governor Bulyea upon his reappointment for a second term as Lieutenant-Governor of Alberta.

Archbishop Present.—Archbishop Langevin paid a flying visit to the city today, arriving this morning and leaving tonight for Saskatoon. During the day he visited St. Mary's, where he addressed the children and he also visited the new convent. In the afternoon, before the Government House, being present at the swearing in of the new Lieutenant-Governor.

CHOLERA GERMS IN FISH. Italian Bacteriologist Has a New Discovery.

New York, Oct. 13.—A cable despatch to the Sun from Rome says: Prof. Gozo, the celebrated Italian bacteriologist, is convinced that cholera germs are transmitted by fish.

He has undertaken experiments to ascertain whether the recent cholera outbreak in southern Italy was due to this medium of propagation. Nearly a dozen fish caught near the coast of Bari contained the specific vibriation of Asiatic cholera, and Prof. Gozo's studies are now directed to learn whether such microbes are apt to multiply inside of fishes.

His theory is confirmed it will be necessary to have all fish caught times of epidemic bottled before they are sold, as the mere handling of fish containing cholera microbes would be sufficient to communicate the disease.

DENSE SMOKE ON LAKE. The Fall Is More Menacing to Navigation Than Heavy Fog.

Fort William, Oct. 14.—While it is not thought that heavy fog is endangered, the shores of the western half of Lake Superior are covered with smoke from the forest fires. Late yesterday morning today say that the fall of smoke hanging over the lake is more menacing to shipping than an ordinary fog. It is thought that the north and south shores have steadily soured their warnings for the past twenty-four hours.

Hunter Shot.—Vancouver, B.C., Oct. 14.—Hugh S. Pooley, a printer, was killed yesterday at Spanish river, 40 miles up the coast, by the explosion of a snuff can swinging the butt of the gun on the animal, but the weapon broke and both barrels exploded.

CARUSO DISABLED. Famous Singer Has An Alarming Experience During Performance.

Munich, Oct. 14.—Enrico Caruso's physicians say that the singer must abandon his engagements for some time, as a consequence of last night's accident.

It was the act of Caruso, he attracted much applause, and was bowing his acknowledgements, when his forehead came in contact with an iron rod which was being used in shifting the scenery for the next act.

The singer stepped behind the wings and fell unconscious. He recovered slowly and insisted upon going on for the third act, through which he sang without the audience being aware of the mishap.

THE HURRICANE WILL CLAIM BIG DEATH ROLL

Irish and English Coasts Are Lined With Wreckage—Many Big Vessels Have Either Foundered or Been Dashed Ashore.

London, Oct. 14.—The Irish and English coasts are lined today with wreckage and grave fears are felt that the hurricane which is hourly increasing in violence will claim the largest death toll of recent gales. Already one hundred and fifty persons are reported to have perished.

Many big vessels have either foundered or been dashed ashore, while numerous fishing smacks are missing and are believed to have sunk. Corpses are being washed ashore at numerous places. Sixteen passengers and sailors are known to have perished in the foundering of the steamer Heathfield, which went down in the North Sea, while twenty are believed to have died on the steamer Cranford, missing from Harlepool and thought to have sunk.

Many small groups of fishing boats are reported missing from ports along the coast, and it is almost certain they have perished for even large steamers had great difficulty in remaining afloat in the high seas that are running.

PRIVATE LETTER FINDS ITS WAY INTO PRINT

Written by Hon. W. J. Hanna to Dr. Fyfe, Minister of Education—Saves Thousands of Dollars of Expense, With Bishop Fallon.

Toronto, Oct. 14.—There has been a deal of mystery about the parliament buildings in Queen's Park for some days over the confidential letter which escaped from the office of one of the ministers and found its way into print, through Henri Bourassa's paper, and one or two other French Canadian papers.

It was a letter written by Hon. W. J. Hanna to Dr. Fyfe, minister of education of Ontario, and giving a synopsis of the conversation which Hanna had had with Bishop Fallon of London. The topic was bilingual teaching in the schools of Essex county. The letter seemed to indicate that the bishop was strongly opposed to the teaching of the French language where it prevented children of French parents from acquiring an adequate knowledge of English.

It has formed into flame a great controversy on this question which had died down somewhat. Today Sir James Whitney, who has all along refused to comment on the incident, handed out the following statement: "I believe Hon. Mr. Hanna was invited to dine with the minister to meet Bishop Fallon and thought it well to send an account of the interview to the Minister of Education. Afterward, Oct. 14, he sent a copy of the letter to Hon. Mr. Rheaume, minister of public works. The latter passed the letter on to Mr. Fyfe, who has since sent it to the Minister of Education."

ONE CENT POSTAGE FOR UNITED STATES

Postmaster-General Hitchcock Is Convinced That Such Is Now in Sight as a Practical Business Proposition, as Department Is Self-Sustaining.

Washington, Oct. 14.—Before the close of another fiscal year the federal postal establishment will be self-sustaining. This will be accomplished by the introduction of a one-cent postage stamp, which is being prepared by Postmaster-General Hitchcock. Heretofore Mr. Hitchcock has been unable to obtain a one-cent postage stamp which he had worked out to place the postal department on a self-sustaining basis.

By an effective organization of the postal department including the introduction of labor-saving devices, it has been possible to reduce the number of employees and at the same time obtain increased efficiency in the handling of the larger volume of business. Similar methods of reorganization are being applied to the entire postal service. With the postal service able to pay its own way, Mr. Hitchcock is convinced that "penny postage" will be a practical business proposition. Indeed, he is almost prepared to say that one cent is not sufficient in sight as a practical business proposition.

COMMISSION IN TORONTO. Heard Complaint of Empire Railway Co. That Pere Marquette Railway Is Not Supplying It an Adequate Number of Tank Cars.

Toronto, Oct. 14.—The Railway Commission which met here today took up the complaint of the Empire Railway Company of Berlin that the Pere Marquette railway was not supplying it an adequate number of tank cars. The matter resolved itself into a question as to who should pay \$1,500 on twelve cars now owned by the Pere Marquette railway but which were being used by the Empire railway. A traffic arrangement was reached between the two parties by which the railway was to lease twelve cars owned by the oil company, and to take over the lease of twelve other cars. But the cars owned by the oil company had always been used in international traffic and never paid duty.

London, Oct. 13.—Miss Marie Corelli, the novelist, who has just issued a story entitled "The Devil's Motor," has succeeded into it all the essence of the venom with which she treats her pet aversion. The story of her hatred and her motive give the work a right repellent power. She lashes automobiles and the devil. With the exception of a western road, where the tie-up was still in force today, the traffic conditions were greatly improved. The government's fears that rioting would follow a meeting of the strikers tonight led to the placing of 10,000 troops in the narrow streets adjoining the hall where it was held. There were no disturbances other than a few harmless pistol shots and jeers. After the meeting 6,000 strikers emerged from the hall singing revolutionary airs and shouting "Long live the Commune."
