### How Many Moves Ahead?

By RUTH CAMERON.

Two friends of mine took up the game of checkers a year or two ago, and have been having a kind of running tournament together ever since. The other day, I asked one of them how the tournament was coming on.

"We've stopped," he said. "He's too far ahead, I'm not in his class now."

"Why do you let him beat you like that?" I asked.

#### Too Much Like Work.

He held out his hands in a movement of helplessness. "Couldn't help it. He plays so many moves ahead; I won't do that. Too much like work—what's the use?"

I don't suppose there is any particular use. Games are a sort of mental gymnastics that do not accomplish anything except to train the muscles of the mind. If you cease enjoying them, it's time to seek some other exercise.

But the philosophy of playing a game so many moves ahead I like.

#### Children Always Play A Move At A Time.

When children first play checkers, they play just one move at a time. By and by, one of them begins to plan a move ahead. At once he starts to win, and keeps on winning until his opponent also learns to play a move ahead.

One move ahead soon becomes two or three, and two or three soon become more.

The real checker players play for the end of the game at the very beginning. Anyone who plays only a few moves ahead is wax in his hands.

"The world stands aside for anyone who knows where he is going," says David Starr Jordan.

"For anyone who plays several moves ahead," is another way of putting that.

#### Playing The Game Of Life Several Moves Ahead.

One man who is going to buy a home studies the growth of the town, forecasts the development of the neighborhood, looks thoroughly into the transportation facilities, and buys a home that grows in value and that fits into his own future.

Another, buys what chances to please him, without studying any of these factors.

One young man permits himself to drift into any business that offers an opening with reasonably good pay. Another studies himself, the field, and tries to find where he will fit best, and have the greatest ultimate opportunity.

Do you play the game of life one move at a time, or as many moves ahead as you can play it wisely?

#### A Paris Chemist Has Discovered How to Grow Hair.

In Paris the ladies have entirely abandoned wearing hats, which is due entirely to this new discovery. It has been proven that Henna leaves contain the ingredients that will positively grow hair. That they contain this long-looked-for article is proven every day.

The French are now placing on the market a preparation containing the extract from Henna leaves, which is having a phenomenal sale.

This preparation is called SALVIA and is being sold with a guarantee to cure dandruff and to grow hair in abundance. Being daintily perfumed, SALVIA makes a most pleasant dressing, and is sold by your druggist. A large, generous bottle can be purchased for 50 cents.

To keep flowers fresh, clip the ends of the stems every day and change the water, adding a little salt.

the business not only of the school-master but of the parent, not only of the official but of the statesman. Every people, it has been said, has the form of Government that it deserves; it is equally true that it has the educational system that it deserves.

#### THE BUSY DAY.

A man comes in where I am tolling, to keep the pot a-boiling. He sees the sign, "Be brief—I'm busy," but he is fatuous and dizzy. Time on his hands is a heavy hanging, and he is fond of vain haranguing. He talks of Europe's battles gory, or tells a long, bewhiskered story, until I take him by the galways and push him down the stairs and hallways. And to the office boy I mutter, "I left that old gun in the gutter. If you would earn your weekly pittance, you'll see he no more has admittance." How welcome is the man who enters our offices or business centres, as though he knew our times' worth money, who has no chestnuts fabled "funny," who springs no wearisome orations about the foreign warring nations! He gets right down to crucial matters, not for a minute yawns or chatters of things which cut no grass or clover, but hastens to get his business over. We all admire this fellow greatly, admire his manner, calm and steady, admire his tact and princely carriage; we'd let him have our aunt in marriage.

### WIFE TOO ILL TO WORK

IN BED MOST OF TIME.

Her Health Restored by Lydia E. Pinkham's Vegetable Compound.

Indianapolis, Indiana.—"My health was so poor and my constitution so run down that I could not work. I was thin, pale and weak, weighed but 100 pounds and was in bed most of the time. I began taking Lydia E. Pinkham's Vegetable Compound and five months later I weighed 133 pounds. I do all the housework and washing for eleven and I can truthfully say Lydia E. Pinkham's Vegetable Compound has been a godsend to me for I would have been in my grave today but for it. I would tell all women suffering as I was to try your valuable remedy."—Mrs. Wm. Gamm, 322 S. Addison Street, Indianapolis, Indiana.

There is hardly a neighborhood in this country, wherein some woman has not found health by using this good old-fashioned root and herb remedy.

If there is anything about which you would like special advice, write to the Lydia E. Pinkham Medicine Co., Lynn, Mass.

MINARD'S LINIMENT CURES DIPHTHERIA.

### Your Boys and Girls.

Most mothers find that it pays to wash the baby's expensive little woolens themselves, instead of letting them go into the regular wash. It takes little strength or time to wash out a tiny shirt after the baby has donned a clean one, and it pays because they do not shrink so much if washed carefully. A baby can do with three shirts if one is washed out each morning.

This allows a clean shirt after the daily bath, one used the day before to be put on at night and one to be washed, with time to dry thoroughly before being put on the next day. With only three shirts the mother can afford to buy a good quality, which pays always in baby things, and as they are inconstant use, there is not much danger of their being outgrown.

We believe MINARD'S LINIMENT is the best:  
Mathias Foley, Oil City, Ont.  
Joseph Snow, Norway, Me.  
Charles Whooton, Mulgrave, N. S.  
Rev. R. O. Armstrong, Mulgrave, N. S.  
Pierre Landers, Sen., Pokemouche, N. B.

### THREE GLOVES IN ONE FOR PROTECTIVE PURPOSES.

A New York public service company is at present considering a new type of protective glove for the use of its employees working on high tension circuits. In reality, the new glove consists of three separate gloves: the first is a cotton glove which fits closely to the hand; the second is a thin rubber glove, which affords the necessary insulation from high tension currents, and the third or outer glove is of horsehide, affording mechanical protection. The three-ply glove is ventilated on the back where protection is not required. Aside from the excellent mechanical and electrical protective features of the glove, it is exceedingly flexible and does not materially hinder the dexterity of the worker.

### Everyday Etiquette.

"A young man who has called on me several times said that he would like me to meet his sister, who is a few years older than myself. Where is this meeting supposed to take place?" asked Bertha.

"You can ask him to bring his sister to call on you at your home," responded her aunt.

#### AT THE CRESCENT.

The Knickerbocker Star features presently Madeline Pardee in "Haunted and Hounded," a wonderful feature in three reels. Augusta Anderson and Charles Perley in "Jealousy's Fools," a gripping western drama by the Vitaphone Company. Rose Metville as "Sis Hopkins" in "The Pickle Fiddler's Finish," a lively Kalem Comedy. Professor McCarthy plays a new programme of music for this big show. The Saturday matinee is big this week, send the children they always enjoy the Crescent's matinees.

For peach stains, wet the stain, spread it with cream of tartar and place in the sun. Then wash as usual.
