

Fishermen! Here's the Boot for You—"Excel"!

"EXCEL"
Made 'All in One Piece'

"EXCEL"

The Fishermen's Friend

All fishermen know from experience what happens to ordinary boots when used in fishing. You've seen how salt water seems to take the life out of rubber and how the uppers crack and the soles wear through in a surprisingly short time.

The "EXCEL" is a different and better kind of boot. It has been made especially to stand up under the unusually hard use a fisherman's boot gets.

The rubber and fabric in "EXCEL" boots are of the very highest quality. But it is the special method of curing, under tremendous pressure, that makes the "EXCEL" so wear-resisting. The pressure forces the layers of rubber and fabric together so that they are actually "one-piece", without losing the least bit of the

life or resiliency of the rubber. Salt water has practically no effect on "EXCEL" boots. The UPPERS remain pliable and weatherproof, and resist the drying-out action of sun, heat and extreme cold far longer than other boots. Consequently they don't crack anywhere near so quickly. The SOLES are almost wear-proof, because they are made like an Auto Tire, with 8 plies of rubber and fabric welded by tremendous pressure into a "fire-tread" sole that rivals an automobile tire for toughness and durability.

These are exclusive features of "EXCEL" boots. The picture, at the right, of an "EXCEL" boot cut apart, with every detail of construction visible, shows how "EXCEL" boots are reinforced at every point of

strain. There is not a single feature but what has been proved necessary and desirable by tests of severest use. Your own experience will tell you that a boot with these features simply must be a better boot.

Study this picture. Learn these features. Remember them when you compare "EXCEL" boots with ordinary boots. And remember, too, that very important point which the picture cannot show, namely, that "EXCEL" boots are cured under tremendous pressure, which leaves the rubber pliable, weatherproof and wear-resisting. It is only by the use of this tremendous pressure combined with highest quality materials that the best results are obtained.

"EXCEL" Boots are sold by all reliable dealers from Coast to Coast.

Your Attention is Urgently Requested!

Giving Gifts at Christmas commenced nearly 2,000 years ago, and each year at Christmas time the custom is strengthened.

Gifts to be appreciated should have a touch of personality, and what could be more welcome than fine needlework.

Our selection of Stamped Dresses for Children of Poplin, Pique and Fine White Goods range in price from 80c. to \$2.40, and from 6 months to 5 year size.

ALSO

- Nightdresses . . . \$3.00
- Combinations . . . \$3.00
- Pillow Cases . . . \$1.50
- Luncheon Sets . . . \$2.00
- Corset Covers . . . 70c.
- Dressing Sacques . \$2.00
- Pin Cushions . . . 40c.
- Guest Towels, 80c. & 1.00

Centre Pieces—Tan . . . 55c. \$1.00 to \$1.80
Centre Pieces—White . . . \$1.00, \$1.80 to \$6.00
Runner in great variety . . . \$1.25 to \$2.00

All the above are stamped ready for working, and the following is what you will require to work them with: Peri Lusta, 60c. doz.; Artsy Rope Silk, 75c. doz.; Roman Floss, \$1.00 doz.

THE BALSAM.—The following rests at the Balsam—Mr. and Mrs. Ash, Carboner; Mr. S. G. Guy, near; Mrs. Pierce, Bishop's Falls; Mr. A. W. Robinson, Sydney; Mr. A. Blackler, Nipper's Harbor. Eat MRS. STEWART'S Home Made Bread.—ap15.6mo

Side Talks by Ruth Cameron

DO YOU ACT ON YOURS!

Once Upon a Time Screws Had No Points. Many and many an invention is so simple that it seems as if thousands must have thought of it. For instance, the shortest patent in the United States Patent office is for a screw with a point to it. It's inventor made a fortune from it. Surely someone else in those inconceivable days when screws were point-less must have thought a point would be a good thing.

Edward Bok, the well known editor, in his biography expressed his surprise when he found out what a mistake was the common idea that the hill that led to Success was very difficult and that it was overfilled with a jostling, bustling, panting crowd.

He says he found the avenue to Success wide open and certainly not overpopulated, and that sheer merit was the only factor that counted, and the habit of doing all one could do and a little more than one could do and an expected do.

He Did a Thing as Soon as he Thought of it. This analysis of his reasons for his own Success are interesting but I think he overlooked one other explanation, and that was his own habit of putting ideas into execution as

soon as he thought of them. He wanted to find out how some of the big men of his day had succeeded without education; he went down to the library and read their biographies. He questioned the accuracy of the biography he was reading. It occurred to him to write to the subject of it, General Garfield, and find out. And at once he did it. He received an interesting letter in reply which his father said was valuable. It occurred to him that similar letters would be valuable, and he immediately wrote to some more famous men.

If he had just thought that these would be good things to do and stopped there, he would never have gotten the start that his subsequently famous autograph collection gave him.

Of course all our ideas do not pan out pure gold but if we work all we have we are sure to find gold somewhere.

Fishermen and Campers, Quick Relief.
PUT A BOTTLE IN YOUR OUTFIT.

Do you ever wish the world were better? Let me tell you what to do; Set a watch upon your actions, Keep them always straight and true; Bid your mind of selfish motives. Let your thoughts be clean and high, You can make a little Eden Of the sphere you occupy.

Do you wish the world were wiser? Well, suppose you make a start By accumulating wisdom. In the scrapbook of your heart, Do not waste one page on folly; Live to learn, and learn to live. If you want to give men knowledge, You must get it, are you give.

Do you wish the world were happy? Just to scatter seeds of kindness. As you pass along the way, For the pleasures of the many, May be oftimes traced to one. As the hand that plants an acorn, Shelters armies from the sun. Eliza Wheeler Wilcox.

Birth of a Star. The vast black mass, 20,000,000 times larger than the sun, demonstrated to exist in the heavens by the Dutch scientist, Dr. Pannekoek, seems to upset all earlier astronomical calculations.

It is, comparatively speaking, so near us that Dr. Pannekoek suggests that the sun itself must move round it once in 2,000,000 years—drawing the earth with it.

"We believe that the black body must consist of dust, and that this is the first stage in the birth of a star," said an expert. "As it condenses it gets hotter until it becomes luminous and visible. Sudden 'flares' or 'new stars' have been seen in our lifetime, but the black cloud of dust appears to be the real beginning."

"The amazing feature is the nearness of the body. It is relatively as close to the earth as a foot-rule would appear to be if only two feet away from your eyes. It is quite possible that even vaster bodies of this kind exist." The nearness is relative. The body is 280,000,000,000 miles away.

Dutch Fleet Defeated by British.

On Wednesday, October 11, 1797, during the reign of George the Third, a splendid victory was won by the British fleet against the Dutch one, off the east coast of Great Britain, in the North Sea, the battle being named from Camperdown, which is near Dundee, on that coast of Scotland. The Dutch seemed to be threatening to invade this country, and the British fleet were commanded by Admiral Adam Duncan, who for this complete success was created a viscount, with a pension of £8,000 a year for himself and the two next heirs of this peerage. But that is now their second title, for in 1821 they received a higher one, that of an earl, so that the present successor, Adam Phillips Haldane Dundas-Haldane, is third Earl of Camperdown. In former times the Dutch were great navigators, before the British became such, and this earl had for two years the tedious duty of watching the movements of their squadron. But he manifested most undaunted determination, notwithstanding a mutiny of his men, and at Camperdown he totally defeated the Dutch, capturing eight of their ships.

Dyed Her Stockings and Skirt to Match

Every "Diamond Dyes" package tells how to dye or tint any worn, faded garment or drapery a new rich color that will not streak, spot, fade or run. Perfect home dyeing is guaranteed with Diamond Dyes even if you have never dyed before. Just tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton, or mixed goods. For fifty-one years millions of women have been using "Diamond Dyes" to add years of wear to their old, shabby waists, skirts, dresses, coats, sweaters, stockings, draperies, hangings, everything!
