OLYMPIC'S STERNPOST CRACKED.
LONDON, July 26.
The sailing of the Olympic on August 2 is cancelled in consequence of the discovery on Monday of a crack in the sternpost. The passengers have been transferred to the Homer. It is reported the injury is one of long standing.

MUTINY REPORTED AMONG IRREGULARS.
DUBLIN, July 26.
Irregulars continue to fall back before the advance of the Nationalist Army, according to Free State reports, but are making stubborn resistance at some points along the front. Reports say mutiny is rife among the irregulars, and it is rumored one Republican leader has been executed.

AVERTED FOR A TIME.
SYDNEY, July 25.
The threatened general walk out of the coal miners of Nova Scotia was averted to-night, at least until August 15, when the shippers of the International Pier, Sydney, accepted the offer of the Dominion Coal Co. to increase their possible weekly wage from approximately \$21.00 to \$21.60, the date on which executive officers of the district have declared a Nova Scotia coal mine strike will be called if 1921 wages are not restored. The shippers' proposition to the Co. called for a flat weekly wage of \$26.40 or for \$4.04 per hundred tons handled. The company offered \$3.10 per hundred tons, which would allow the men to earn \$31.00 per week, working full time. District 26, head office at Glace Bay is declared to-day to be preparing for the suggested walkout on August 15. District General elections also fall on that date.

THE DOPE SCOURGE.
MONTREAL, July 26.
The Montreal Star in a two column front page article this afternoon says the worst narcotic drug scourge in its history is sweeping Montreal, if the alarmingly heavy number of serious cases of this kind which come into the city hospitals every day is to be taken as a criterion. It adds that the hospitals are treating more urgent dope cases in less than a month than they were in the whole year two years ago.

VODKA AUTHORIZED.
MOSCOW, July 26.
A decree authorizing the sale of vodka, which has been prohibited since 1914, is expected to be issued on August 1. Pre-war strength of vodka was forty-eight per cent alcohol. Under the new decree it will be thirty-eight per cent. Manufacture will be undertaken as a state monopoly.

RAILWAY STRIKE.
MONTREAL, July 26.
Although Union officials of Number 4 Division Railway Shopmen of Canada are not disposed to give out any figures regarding the strike ballots, now being counted, and which are arriving in Montreal from all over Canada, an official statement issued here says that the strike had been authorized and will be declared "should the railways carry out the threat to reduce wages."

THE CATTLE EMBARGO.
LONDON, July 26.
The Canadian Press learned to-night from an authoritative source that a Bill will be introduced by the Government in the autumn session giving effect to the wishes expressed last night by Commons for lifting the embargo on store cattle, as against Canada.

GAVAN DUFFY RESIGNS.
DUBLIN, July 26.
Gavan Duffy has resigned as Foreign Minister in the Provisional Government. He announces that while he agrees with the Government's military power, he opposes its policy on certain other grave and urgent issues so strongly that he cannot longer honorably remain with the administration.

U.S. BANKER LOST WITH ALL HANDS.
BOSTON, July 26.
Captain John Powers, of Rockport, and the crew of five men of the Malice Enos have been given up as lost, the Interstate Fish Corporation, owners of the vessel, announced to-night. Nothing has been heard from her since she left for George's Banks on July 2nd. She carried supplies for a week's fishing.

A BOOM TO BRITISH SHIPS.
LONDON, July 26.
British coal exporters are scarcely able to conceal their satisfaction at the situation created by the miners' strike in the United States. One of the north country coal owners refers to the time when American exporters poured coal into foreign ports during the British stoppage of coal exports. The suggestion has been made that the British miners who last week passed a resolution of sympathy with the American miners, might attempt to restrict exportation. Such, however, is deemed improbable, especially as no practical support was given

HIGH CHAIR DAYS.

High chair days are the best of all. Or so they seem to me. Days when tumbler and platter fall. And the King smiles merrily. When the regal arms and the regal feet. A constant patter of music beat. And the grown-ups bow in a gracious way. To the high-chair monarch who rules the day.

High-chair days, and the throne not dressed. In golden or purple hues. But an old style thing, let it be confessed. His grandmother used to use; Its legs are scarred and a trifle bowed. But the king who sits on the chair is proud. And he throws his rattle and silver cup. For the joy of making us pick them up.

The old high chair in the dining room. Is a handsomer thing by far. Than the costly chairs in the lonely gloom. Of the childless mansions are. For the sweetest laughter the world has known. Comes day by day from that humble throne. And the happiest tables, morn and night. Have a high chair placed at the mother's right.

The old high chair is a joy sublime. Yet it brings us its hours of pain. For we've put it away from time to time. Perhaps never to need it again. Yet God was good, and the angels tapped. And again was the old high chair unwrapped. And proud was I when I heard the call. To bring it back to the dining hall.

There are griefs to meet and cares to face. Through the years that lie ahead. The proudest monarch must lose his place. And lie with the splendid dead; I know there are blows I shall have to meet. I must pay with the bitter for all life's sweet. But I live in dread of that coming day. When forever the high chair goes away.

**What Do You Think of a Fluid**

That will draw roaches and ants out of every hole, crack, or crevice before killing them and not poison food?

That will kill bugs instantly and not leave an unpleasant odor?

That will knock flies off the wall and not harm paint or paper?

That will keep the bedroom, kitchen, or verandah clear of flies, mosquitoes, etc., for several hours after a few sprays?

That will take fleas off a dog and not harm the dog?

That will destroy chicken lice without any injury to your stock?

That applied in small quantities to the exposed parts of the body will insure you from Mosquito bites?

That as a general disinfectant is stronger than the ordinary carbolic solution.

THAT FLUID IS

SAN-O-SPRAY.

No insect can live where San-O-Spray is used. Yet San-O-Spray is non-poisonous to human beings and can be used with perfect safety in pantry, kitchen, dining room, and cellars, more-over San-O-Spray has an agreeable and delightful odor, removing all fetid or unpleasant odors.
