Enormous Navy Expenses. London, Nov. 29. - Lord Charles Beres ford's proposal that within the next four

years England shall expend £18,000,000 upon the navy has been received with friendly criticism by the Liberal press. The almost unanimeus opinion of the country is that the Government must follow a strong naval policy and prepare to cope with the increased naval armsments of France and Russia. This opinion will encourage the Government to activity.

There are reports in Ministerial circles that Earl Speneer, First Lord of the Admirally, is preparing a compreheusive plan similar to the Naval Delense Act of 1884. It is said £1,000,000 will be spenion the defenses of Portland, and that a new mole will be constructed at Gibraltar. If Russia should obtain a naval station in the Levant, England would probably demand from Turkey the use of the Island of Lemnos for the British Mediterranean fleet.

"Labby's" Strong Language. London, Nov. 29.—Upon the close of the debate on the Parish Councils Bill in the Commons yesterday Mr. Buxton announced the receipt by the colonial office of infor-mation from the British South Africa the receipt by the colonial office of information from the British South Africa Chartered Company, which enabled him to give Mr. Henry Labouchere the promised answer to his recent inquiries. The chartered company's dispatch tells of the horrible mutilations practiced by the Matsholes upon the Mashonas. The latter, though noncombatants in the Shangani fight, were nurposely attacked by the Matsheles who killed many women and children recently released from slavery. The Matsheles cut off the breats of many women and hacked and speared the children. Some of the women were terribly wounded and are still in the hospital. The chartered company explicitly denied the assertion that the Mashonas were allowed to kill the Mataheles who were wounded during the fighting. All the latter who were left on the field were conveyed to the British lasgers, and there given the same treatment as was given the wounded of the company's forces.

Mr. Labouchere demanded further information on the subject, but this Mr. Buxton declined to furnish unless Mr. Labouchere would produce evidence supporting the charges he had made.

Addressed by G. C. Gibbons, Q.C., and E. R. Cameron, of London,

Rousing Meetings in the Reform Interest at Lich's Head, Owen Sound, Chatsworth and Other Places.

WATFORD, Nov. 29 .- A large meeting was held here this evening in the interes of the Liberal candidate, Dr. McKinnon of the Liberal candidate, Dr. McKinnon, and although the roads and weather were very unitariorable the Music Hall was filled. Measts, E. R. Cameron and G. C. Gibbons, of London, were present and addressed the meeting. Mr. Cameron dealt largely with the finances of Ontario and showed how much better off the Provinces was financially than the other provinces. Ontario had laws which for justice and simplicity were unequaled by any province or state anywhere, while her school system was the glory of the world; that in the last 21 years they had assisted the municipalities by grants to schools of over \$12,000,000, and an equal amount for the cure of lunatics and infirm, while the railways had been subvidized by over \$5,000,000. Over

lunaties and infirm, while the railways had been subridized by over \$5,000,000. Over \$6,000,000 had been lent to municipalities to help them pay off their indebtedness.

Mr. Gibbons said he was ashamed of the creed cry that had been raised. Both Protestans and Catholic should frown down such devices. What is freedom for Protestant should be freedom for Catholics. He said we did not want to go back to the days of bigotry and prejudice. To make a progressive nation we should live peaceably among ourselves and with other nations. He was proud of Mr. Fraser, of the Public Works Department—a man without a stain on his reputation in the discharge of his duties.

London, Nov. 29.—The appeal of Miss Jennie Mighell from the decision of the lower court, which held that the courts had no jurisdiction over the Sultan of Jahore, was dismissed to-day. Miss Mighell, who is a handsome girl residing in Brighton, met the Sultan some years ago, when he was introduced to her as Albert Baker. Miss Mighell claimed the Sultan promised to marry her. She finally learned of his identity and continued to receive him and corresponded with him on the occasion of the Sultan's last visit to England. Miss Mighell, who believed that she was to return to India with him, made some communication which he refused to acknowledge. Finding that she was ignored she brought suit against the Sultan for breach of promise of marriage, placing her damages at \$50,000. The Sultan pleaded that he was a reigning sovereign, and therefore the English courts had no jurisdiction whatever over him. This contention has now been upheld by the Court of Appeal.
