LONDON.

At the cheese board on Saturday 20 factories offered 3,479 boxes, 1,070 of which were white. The cable quota-tion for both was 39s 6d. These cable quotations do not, however, seem to have much effect upon the price of cheese in this country, and whether it be high or low there is little fluctua-tion on the London board. The bidding ras brisk, and ranged from 8 3-160 o 8½c. There was a feeling of uncerty on the part of some sellers ther to sell or hold for an advance but the majority sold. The total sales aggregated 2,415 boxes, leaving 1,064

Administrator to Be Appointed by the Dominion Government.

Maxim Guns Sent to the Gold Fields.

Size of Claims Reduced - Postal Arrangements-The World's Output of Gold.

Ottawa, Aug. 9. - The government have reached several important decisions in regard to the Yukon country, and the working of the gold fields there. They are determined to leave nothing undone that is possible to do in order to maintain law and order and enforce the regulations.

It has been decided to appoint an administrator for the district, who will have entire charge of all the officials there and be the chief executive officer of the government. This will be a very important appointment, and there are not a great many men who can fill the

THE MAN. There is one man, however, fitted especially by training and experience, whose name has been suggested. This is Major Walsh, of Brockville, who recently declined the appointment of deputy warden of the Kingston penitentiary, offered to him by Sir Oliver Mowat. Prior to 1883 Major Walsh commanded the frontier divi-sion of the Northwest Mounted Police, which had practically all the active work there was to do, and made such a reputation that when the rebellion broke out in 1885 the federal govern-ment sent for Major Walsh, but it was too late, and he would not go up. Combining courage with rare good judgment and discretion, Major Walsh is the very man needed in the Yukon country at the present time, because he has a large experience of the rough frontier life of the west, and is accusomed at the head of a few men-to face large bodies of hostiles and quell disturbances. If the government decides to offer the position to Major Walsh, it is to be hoped that in the interests of all concerned he will accept, because his appointment would Ogdensburg, N. TWO MAXIM GUNS. The party of mounted police to leave next Saturday, the 14th, has been increased from 20 to 35, and two Maxim guns are now on their way to the coast and will be taken into the in-terior at once. One of them will be in charge of the police post at Tagish, just over the summit, and the other in charge of the detachment at Fort Cudahy. If a body of miners congregate to resist the law or any of the regulations they would think twice before proceeding in that direction if they knew that Major Walsh, at the head of 100 picked men, backed up by He to 8c for native steers; no change two Maxim guns, stood in their path.

The Experience of a Trio of Children From Woodstock.

> Came to London and Forgot Their Uncle's Name-Returned to Their Parents.

Mr. Sullivan, of 14 Bay street, Wood-

stock, who removed to this city from

Woodstock on Saturday, had an un-

welcome experience on arriving here. It seems that Mr. Sullivan, who carries on a blacksmith business in Wood-stock, had sent word to his brotherin-law, Mr. Henry Curtis, who lives a little east of this city, that he would drive to London with his wife and baby, and would send his three children on the train. He asked his brother-in-law to meet them. Grace, aged 10, Hazel, 7, with little Russell, aged three years, came in accordance with arrangement, by G. T. R., to East London station. If their uncle was not there, they were told to go to Mr. Anderson's grocery store on the corner of Hamilton road and Rectory street, and inquire for Henry Curtis. The children did this, but in going down got the name Curtis mix-ed up with Henry Hicks. Rev. Mr. Hough, who happened to be there, saw the children's predicament, and went to every Henry Hicks in the town. The last one was 853 William street Mrs. Hicks took the lonely-looking children in and dined them, while her husband set off on a detective mission. He made inquiry at the East London station concerning a man who came there looking for three children. The description secured, the man was traced as far as the Hamilton road He found that a man answering the description given was named Curtis, and that he was greatly exercised over the loss of the children, whom he had missed at the station. Mr. Hicks went to Mr. Curtis' house, where the father thanked him profusely, and drove to his place immediately, where the children were comfortably awaiting them. Mr. Curtis' home was one of great rejoicing afterwards.
