Skirmish

Between Rundle's Men and Some Entrenched Boers.

The Canadians Capture a Couple of Twelve-Pounders and Win Praise From Lord Roberts.

London, Tuesday, June 28-4:20 a.m. -Gen. Sir Leslie Rundle had a sharp artillery and rifle skirmish near Senekal Friday, with a large force of entrenched Boers. He declined to attack them. This is the only fresh fighting reported.

The Boer outposts northwest of Pretoria are busy. The telegraph wires between Standerton and Newcastle were cut Sunday, and Sir Redvers Buller had to resort to heliograph.

Gen. Dewet is being hard pressed. It seems Dewet has succeeded in transferring most of his prisoners beyoud Standerton, to route for Middle-

CANADIANS WON PRAISE FROM LORD ROBERTS.

Pretoria, June 27.-The first battallon of the Canadian Mounted Rifles has come in for high praise from Commander-in-Chief Lord Roberts, for the gallant manner in which they captured two of the Boers' 12-pounder guns at Rustfontein between Pretoria and Rustenburg. The guns were defended stiffly by the enemy, and when defeat stared the Boers in the face they hid the guns in a native kraal prior to their departure during the night. There the guns were found by the Canadians and brought to campan exploit which Lord Roberts recog-nizes by a special mention in general

orders today.

While at Rustfontein the Mounted Rifles joined hands, much to their delight, with C Battery, which was present at the relief of Mafeking, and has since marched across country under Major Col. Baden-Powell, Major-General Ian Hamilton's column reached Heidelberg without a fight, and were levally welcomed by the inhabitants, but the general was himself injured by a fall from his horse.

EFFECTIVE RUSE. London, June 27 .- Mr. Winston Churchill, in a dispatch from Pretoria, dated June 19, describes an interview with Gen. Baden-Powell, in which the hero of Mafeking says, among other things, that the Boers could certain-ly have stormed Mafeking early in the slege. Little flags dotting the outskirts and numerous warnings to the townspeople not to let their cattle sown with proved an effective ruse, and saved the garrison the trouble of laying mines.

AT ST. HELENA.

Jamestown, St. Helena, dispatch, date June 27, says: Sarel Eloff, President Kruger's grandson, who captured by the British at Mafeking, landed here today with eleven officers and 98 troopers, mostly foreigners. The prisoners, who were clean and of respectable appearance, were immediately sent on to Deadwood, the prison Most of the Boers at Deadwood are in good health, and thus far there has been but one death from enteric fever.

DEWET'S MOVEMENTS.

Commandant Dewet, with 3,000 men and three guns, is moving northwest in the Orange River Colony. It is understood that he and Commandant-Gen. Botha entered into a compact that neither would surrender so long as the other was in the field.

A Pretoria dispatch says: A few of Commandant-Gen. Botha's men have returned, and are among the kopjes along the Poenaar River, and indulge in occasional sniping at our camps at night. Remounts are being issued to the cavalry and mounted infantry. The burghers continue to surrender.

The Lorenzo Marquez correspondent of the London Times says: According to Transvaal advices the Boers are en-trenching in considerable force in the that it is of inferior quality. A large quantity of stolen gold is waiting to be smuggled out of the Transvaal.

A dispatch from Maseru says: The Boers attacked a body of Basuto laborers, killing 20 and capturing 200. natives believe the Boers are gaining in their war with the British, and are

London, June 28 .- The exposures regarding the hospitals in South Africa has made a great sensation in England. They began with three columns of restrained language in the Times yesterday from Mr. W. A. Burdett-Coutts, Conservative member of parlament for Westminster. His disclosures have been widely reproduced, and are supplemented this morning with denunciatory telegrams from survivors and army medical men.

The Khedive In London-Opening of an Underground Electric Railway by the Prince of Wales.

HIS CLAIM DISMISSED. London, June 28 .- Sir Robert Peel is not to have any share in the proceeds of the sale of the Peel heirlooms, which created so much interest recently. He tried to get some of the money, when

an application in his behalf was made in the court of appeals. The heirlooms were expected to bring £30,000, and actually realized £78,000. As about £1,000 a year was left after paying incomes to Lady Peel and other charges on the estate, application was made that Sir Robert should have this, but the court refused to alter the or-

iginal arrangement. Lord Justice Romer said he thought Sir Robert, before receiving any of the money from the trustees, should recoup them for the unauthorized sale of some of the pictures he had formerly made. Mr. Lincoln Reed asked the court not to deal too harshly with Sir Robert on account of his youthful indiscretions, and begged the court to allow him so much out of the estate as to enable him to maintain the position of a gentleman, but Lord Justice Smith said that if he had thought Sir Robert would ever get sixpence of money he would never have made the original order.

THREE WARS AT ONCE.

London, June 28.—Sir Michael Hicks-Beach, chancellor of the exchequer, speaking of the difficulties facing a chancellor who had three wars — in South Africa, China and Ashanti—on his hands at the same time, said: "It is difficult to know what are the scope and nature of work before us in China. We cannot yet tell what were the precise immediate reasons for this furious outbreak. We do not know how far it extende, or will extend, nor can we tell what are the relations of the Chinese Government with those who, at any rate in the first instance, appeared to be rebels against the authorities. easy to see, however, that the first duty before the powers, among whom I am glad to recognize the United States and Japan, is to rescue and defend their legations and subjects, and to exact reparation for injury to life and property as well as to see that such things do not occur again. Since the war between China and Japan began, it has been fashionable to regard China as a plum cake, to be divided among the powers, provided the powers do not quarrel among themselves. I doubt whether anyone among us would advance that view; and it has never been the view of her majesty's present government, which has always desired that there should be stable government in China. At the present time I believe this view to be held by all the powers."
