Principal Snelgrove May Succeed Principal Baker

Abram's Support of Mr. Bell Causes Trouble.

The appointment of Mr. Samuel Baker to the city clerkship has occasioned much gossip in municipal circles, and the Conservative Club and the keep within bounds to the extent they mayor and a majority of the aldermen have. are coming in for anything but praise in some quarters. The attitude of Ald. Abram and Garratt in refusing to vote for Mr. Baker until they saw Mr. Bell ad no chance, has also incensed the clique, and their Tory partisans, who do not hesitate to say that Ald. Abram will be thrown off the party ticket at the next municipal election. So far no assertions are being hurled broadcast that the "sticker" will be inserted un-der Ald. Garratt's fifth rib. That the move to bring in an outsider is unpopular in city hall circles is plain everybody, for the staff are not slow that their chances of advancement have been given a setback by Mr. Baker's appointment.

It is expected that the new city clerk will begin his duties within the next two or three days, and in the meantime Mr. Jolly continues to act, having been authorized to do so by the council.

will succeed Mr. Baker as principal of St. George's school. It is well known that several teachers in London are after the position, but one, who should know something about the matter, said oday that Principal Snelgrove, of the King street school, stood the best chance just now of securing the appointment. Mr. Snelgrove at present draws \$700 a year, and according to the rules of the board, if appointed to St. George's, his salary would be increased to \$800 per annum, the maximum for principals of six-roomed election is coming off in January. No-schools, and it would increase to \$1,000 body disputes that the men are well

In St. George's School-Ald. many of the trustees, he declares that no extravagances can be laid to th door of the trustees. During the holi days it was found necessary to install no less than three furnaces in different schools, and as the estimates for 1904 did not make provision for these, and overdraft is an absolute necessity. Further, it is pointed out that the school board last January cut down its esti-

Today Manager Carr, of the London Street Railway, announced to Engineer Graydon that the first of the hose bridges which he promised to purchase had arrived and he suggested that a test be made of it at once. Accordingly Fire Chief Clark was notified and the test was made on Richmond street, in front of the city hall. The bridge worked splendidly, completely protecting the line of hose from the wheels of the car. In each bridge six lengths of hose can be put through. The other bridge, Mr. Carr says, will arrive shortly, and then unless lines of hose are laid across several car Richmond street, or Dundas, where double tracks are in use, both bridges would be necessary to protect even one further up the street, car traffic would attend are: Speculation is now rife as to who be as completely blocked as though there were no hose bridges in the city. Consequently, it may be found expedient for either the company or the eity to purchase at least two more

The off-hand manner in which the increase in the first-year firemen's salaries passed the council last night indicates to the close observer that the wily aldermen have an eye out for votes, and are well aware that another election is coming off in January.
