Toronto, March 30.-An energetic buying movement characterized the live stock trade at the city yards this morning, and the result was very satisfactory to the sellers in all lines. There was a marked expansion in the marketings of cattle, but 35s: American refined, in pans, steady, 35s 6d. owing to the renewed competition engen-dered by the attendance of a large number of outside buyers, the receipts proved to be considerably under market requirements, and buyers were reluctantly com-pelled to pay higher prices. The feature was a sharp advance in export cattle, one sale off cars being reported at \$5 30, while several other sales were recorded at \$5 25 per cwt. No actual advance in "top" butchers can be quoted, but when the quality of the offerings is considered, an enhancement of 5c to 10c per cwt looks reasonable. Sheep were about 25c per cwt higher, and spring lambs were firmer. Hogs were unchanged. On account of the large space of level lawn needed for the game, it can only find proper development through clubs. In Toronto there are many of these clubs, each with a large membership, sound financially, and productive of championship players. There has not yet been such a club in London, perhaps, partly because this city's tennis players are scattered over such an area, and that a central situation for a club was not for a long time forthcoming. This trouble is now overcome by the extensive and central grounds of the Thistle Club, as was made evident by the large numbers and the complete, or almost so.

Every effort will be made to have the tennis lawns in perfect shape this year. Any defects that were noticeable last year will be corrected. There is every indication, as far as the weather is concerned, that the tennis season will open additional incentive for tennis players joining immediately.

The season will be opened, it was decided, with a big tournament with some outside team. Every member of the club will have an opportunity of getting on the local team, for the latter will be chosen by having the members play off with each other. In club tournaments, liberal handicaps will be given to encourage new players. Grand Rapids, Mich., March 30. Monday, married; Tuesday, quarreled and separated; Wednesday, applied for divorce: Thursday, attempted suicide, and detained at police headquarters. This is the chronology for three days of Emma Miller, a pretty young woman, who says her home is in Cedar Springs. After her attempted suicide ters, she was given her liberty today. The story told by her is a sad and peculiar narrative. She met Alfred Fitch, she says, soon after she came determined to be married. At the office of the county clerk Fitch, according to the records, gave his age as 32 and the girl said she was 21 years of age. According to the girl's story, she and Fitch were married the same day by a minister in aroom in a Canal street block. Their troubles, she exmanner of living, but that being abhorrent to her, they quarreled and separated on Tuesday. Ashamed and repentant of her hasty action, the girl said she went to the office of a prominent law firm on Mon-Fitch. Brooding over her troubles, the

# ARE STONE BLIND WHEN SUN SETS

Tragedy of a Shanty in the Depths of a Forest.

#### FOUR LUMBERMEN STRICKEN

Make Their Way to Hut and There Find Man and Hound Frozen to Death.

Lachine, Que., March 28. - Night blindness is an ailment prevalent among lumbermen who work in shanties remote enough to make vegetables an unusual luxury. In most instances, the persons affected have the normal use of their eyesight from sunrise to sunset, but are stone blind when the

sun is below the horizon. Sometimes the trouble comes of slowly, beginning with a dimness of vision at morning and evening, and increasing until it is impossible for the patient to stir outside except when the sun is high. At other times, and especially in the bright days of March, when the glare of the sun upon the snow is trying to all eyes, night blindness

sets in. There was a curious case of this sudden coming on of the blindness in the in order that the aforesaid medical Ottawa lumber district, near Beaver Lake. Four men had been detailed to mark the logs laid upon the ice, and they had worked three or four days in the glaring light of the March sun reflected from the clear lake surface with no particularly bad results. Two of them were sufferers from night blind ness, and had to be led home at night by their comrades, and as their shanty was four miles away from the lake it was their custom to start back a little before sundown.
