GERMANS IN U.S. ARE SUMMONED TO CONVENTION

Will Meet at Detroit on July 3 to Protest Against Shipments.

[Special to The Advertiser.] DETROIT, June 21.—An invitation has been sent to all German-American societies of the United States to send delegates to a convention, to be held in this city July 3, to protest against the shipment of munitions of war to any of the belligerent countries.

The invitations are signed by the Detroit Deutscher Bund and the Toledo Historical Society. Prof. Emil Albrecht, president of the Deutscher Bund, sent delegates from all German-American and Austro-Hungarian-American social, political and religious organizations will attend the meeting.

The aim of the delegates will be to impress on the Government the views of the German-American people on the shipment of munitions of war ought to be stopped.

ROUMANIA NEARLY READY TO ASSIST With Bulgaria Will Likely Join Allies in the Great War. NEGOTIATIONS NEAR END Only Plans of Servia Now Stand in the Way.

PARIS, June 21.—5:30 p.m.—The negotiations between Rumania and the Allies looking toward Rumania's entrance upon the war appear to be near a conclusion. Russia's opposition to Rumania's possession of Cernovitz, capital of Bukovina, in case of the success of the triple entente allies according to the news reaching Paris, virtually has been abandoned and but one difficulty remains. That is Servia's desire to possess the narrow triangle in Hungary, opposite Belgrade, including Pancsova, as a protection for the Servian capital.

On the other hand, Rumania is said to claim that with Semlin in Servian hands, as has been proposed, Belgrade needs no artificial ultra-Danubian bulwark and insists on the Danube, Theiss, Maros and Pruth Rivers as her new frontiers in the existing Austro-Hungarian territory. Realizing the present difficulties of Russia and the value of immediate assistance by Rumania, it is said that Rumania is satisfied to await the result of the pressure of the Allies on Servia before she makes a move.

Rumania's situation is considered here as particularly strong in view of the admitted arrangements with Bulgaria, under which Bulgaria would be bound to enter the war with Rumania, and operate against Constantinople.

VOICE OF THE PEOPLE Examination Tests. Monday will see many, many children sitting down to grapple with the entrance examination. Some are writing for the first time on the second, and many more for the third time.

The question is often asked: Why the trembling hand and pale, nervous faces of those who are writing the third time and the careless, spirited appearance of many of the first timers? The explanation is that many failures cause nervous children.

Is it not possible that examiners are too rigid and make no allowances for these cases? Many a child's course in life is entirely deflected by three marks of a failure. There are many cases where third and even fourth attempts have resulted (I firmly believe through nervousness) in failures of the few marks.

I have seen young girls almost baffled by their own minds disgraced for life because of such failures.

Why not give them a chance? I realize as an educationist that there must be a standard, but there is no reasonable law that will not admit of a little leniency especially for our girls. Many good students I know are in the outer straits of their nervousness, and instead of passing on for further education, stop right where that entrance examination shuts them out. In it fair case five or even ten marks should shut out outside of so many useful positions, of which there is so much need at this present time, that the loss of a few marks, but with nervous life, passes on in triumph? THE GIRLS' FRIEND.

From a Private's Wife. To the Editor of The Advertiser: I saw in tonight's issue that complaining are being received regarding the cutting of allowances to wives of soldiers. Now, I am not complaining, but I certainly think that the wives and little ones of those already gone should be thought of before those of regiments not yet recruited. My husband recently left here, leaving me and three children, aged 11, 5, and 6 months, and I find \$49 does not go far, with house rent, light and fuel, and all other necessities. I said, I also saw that the patriotic fund in good shape, yet last April, when I asked them to grant my passage home, on account of ill health, they could only advance one month's allowance. I think that after giving our dearest to fight, the Government could give us what we were with our own people, if we wish to, I am without a single friend in the whole of Canada. Yours truly, "A PRIVATE'S WIFE."

MEMORIAL TO PTE. POWELL. CAMLAC, June 21. Mr. Croucher conducted a memorial service on Sunday afternoon at the White Church, in memory of the late Pte. Thomas E. Await the Fall of Lemberg in Spirit of Calm

Russians Show No Excitement Over Inevitable Loss.

LONDON, June 22.—3:30 a.m.—The Petrograd correspondent of the Times says: "The fall of Lemberg is awaited here with calm resolve. Lemberg has been used by the Russians as a base for supplies and has not been placed in a posture for defence from the west."

"The Russian retirement from the Lemberg region will necessitate some readjustment of the Dnieper front in favor of a less vulnerable line. In view of the strength of the Russian positions on the Taney front, no immediate development of the Austro-German offensive is anticipated in that quarter."

"The Russian sentimentality considerations involved in the abandonment of the Galician capital, there are legitimate grounds for congratulations on the preservation of the Russian armies intact, with undiminished capacity to resume the initiative when the psychological moment arrives."
