HOUSE OF COMMONS, Ottawa, March 15 .- Today in the house, the short day of the week's sittings there being no evening session, passed without developments of great proportion, although Hon. James B. Ten minutes after using Danderine you cannot find a single trace of dandruff or falling hair, and your scalp will not tich, but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp. Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them, helping the hair to grow long, strong and luxuriant. One application of Danderine makes thin, lifeless, colorless hair look youthfully bright, justrous and just twice as abandant.
