NEW BATHURST RINK COLLAPSED

Weight of Snow and Heavy Wind Cause Heavy Loss.

The new Bathurst skating and hockey rink which was recently constructed at a cost of over \$18,000 collapsed about nine o'clock Saturday morning from the weight of snow on the roof. Fortunately no one was in the rink at the time and the loss is a financial one, and that is deplorable heavy as it is not thought here that any insurance has been taken out to guard against such an eventuality as actually took place.

The big rink was 225 feet long and over 100 ft. wide and was built with a roof of the semi-circular type. Owing to its great size there was a fairly flat surface to it for the snow to lie on and the danger had been made worse by a board covering which ran from the ground to the peak, making two flat sides with the strain coming each side on the arches. These undoubtedly gave inwards somewhat with

182ND BATT. COLORS.

The colors of the 182nd North Shore (New Brunswick) Battalion, which was raised and commanded by Colonel G. W. Mesereau, are temporarily lodged at military headquarters. They were brought over from England on the Scandinavian last week by Captain S. L. Adamson. On the morning of the 132nd into the 13th reserve in England, the colors were deposited, along with those of other Canadian units on Wolf's tomb in Westminster Abbey, where they have since reposed until their return to the native home of the battalion. They will be held at headquarters until arrangements have been made for their permanent placing in some definite place in the area in which the 182nd was raised. Colonel Mesereau, who is at present in Vancouver, will be communicated with at once to ascertain where he wishes the colors to be placed. The colors were presented to the battalion, it is understood, by the Women's Institute of the North Shore.

The snow on them and then the bracing spread out at the foot, with the tremendous weight of snow on them with the result that the building fell as flat as a pancake.

LIFT OFF CORNS!

Apply few drops then lift sore, touchy corns off with fingers

Don't have a bit? Drop a little Figs. on the corn, instantly that corn steps back, then you lift it right out. No pain!

A tiny bottle of Figs. to carry, but a few cents at any drug store, but is sufficient to remove every hard corn, callus, or corn between the toes, and the calluses, without surgery or irritation. Figs. is the essential discovery of a Canadian genius. It is wonderful.

Montreal

ASTOR HOUSE
Erected in Montreal in 1758, and later occupied by John Jacob Astor, one of the pioneers in the raw fur business in Canada.

Head Office and Chief Warehouse:
Canadian Fur Auction Sales Company Limited

With Champlain came the first fur traders on this continent. Away back in 1608 when sent out from France by the great Company of Merchants they established the first fur trading posts in Canada.

In 1628 the historical Company of One Hundred Associates received a charter from the French Government to operate as fur traders, and they laid the real foundation of the immense fur business of the New World. In the years that followed the world-famous Hudson's Bay Company, truly the embodiment of the British spirit of adventure and enterprise still further organized and developed the growing business.
