JURY DISAGREED IN LIBEL ACTION

Six Favored Post Publishing Company in Case Tried At Sydney

Sydney, N. S., Oct. 21.—After five hours' deliberation the jury in the libel action brought by Hugh McAdam against The Post Publishing Company reported a disagreement at 6 o'clock last night. The final return showed three jurors favoring the plaintiff's claim and six favoring the defence.

THE CRITIC seemed struck with the picture.

"This snowstorm painting is very fine, indeed," he said to the artist. "It almost makes me cold to look at it."

"Yes, it must be realistic," admitted the other. "A fellow got into my studio one day in my absence, looked at the picture, and unconsciously put my overcoat on before he went out!"

COMPARISONS

Diamonds and charcoal are essentially carbon yet their values and usefulness are as far apart as the poles. So it is with

Scott's Emulsion

Many imagine that all oils are similar, but when the usefulness of cod-liver oil is compared with all other fats, the difference in value is as far apart as common charcoal and diamonds.

Scott's Emulsion is cod-liver oil made pleasantly available to build up those who are rundown or weak.

WEDDINGS

Atto.—Haddow.

TOURISTS PLEASED WITH CONDITIONS

In the Maritimes—R. H. MacKay Tells of Conditions in New England (St. John Globe)

R. H. MacKay, one of the recently appointed Maritime directors of the C. N. R., passed through the city this afternoon homeward bound to New Glasgow, N. S., from Providence, and Rhode Island. He said he found business conditions very good in Boston with the feeling abroad that there was to be renewed activities following the presidential election. Increased prosperity in New England, he felt, would be reflected in the Maritime Provinces.

He was astonished, he said, at the number of people he met who had been to these provinces during the past summer and he heard many expressions of approval concerning the good roads for automobiles, there seeming to be general surprise that the roads were so well adapted to automobile traffic. The good roads down this way were being talked about by motorists, Mr. MacKay said, and this circumstance he believed would result in larger tourist travel by car in the coming years.
