Port Daniel Centre

Weather still continues extremely cold and backward for the season. Seeding is going on, but more as a measure to get seedling past than for the growth, as weather and soil are so cold that not much vegetation is going on.

The W. F. of his place held a Bachelorette and dance on Empire Day. Proceeds were \$20.00 net, to be added to the building fund of the community hall, which will be built in the near future. Owing to other entertainments on the same night, the attendance was not as large as might have been, but to all appearances those who were there enjoyed themselves very much.

The salmon nets are all out and a small catch has already been taken. Lobster catches are not up to the average this year so far. Codfish have also been taken in small quantities.

A visit from the "Forestry Car" to Port Daniel with its usual show of different things was very much enjoyed by those who attended, notwithstanding a down pour of rain a great many people were there.

"As Good as Gold"

Millions made to meet Maritime conditions, are the best roofing shingles you can secure. Insurance against weather: wind cannot get under them, water cannot work through them, frost is hard on't split or warp them. Insurance against fire: burning brands cannot burn more than five can work along an ordinary roof.

to 15% fire insurance premiums. Insurance against rotting: made of the finest pine stock, saturated with highest grade natural asphaltum (the paving material—permanently) and then deeply surfaced with slate. They're shingles and more; and last far longer.

POWER
ECONOMICAL—FLEXIBLE—DEPENDABLE
The Studebaker Light-Six

You'll find in the Studebaker Light-Six, an abundance of power—smooth-flowing, responsive, and economical.

From a slow walking gait, it will accelerate to a racing speed in the space of a few seconds. And always with velvet-like smoothness, for the Light-Six is practically free from vibration.

Exceptional economy is an appealing feature of the Light-Six. Through 27 world-wide tests, it set an average of 26.9 miles to the gallon of gasoline!

Maintenance cost is also low—conclusively proved by Studebaker's limited volume of repair parts sales, which in 1922, averaged only \$13 per car for all Studebaker automobiles in operation.

The Studebaker Light-Six is not an experiment. In the hands of thousands of owners it has proved its remarkable power and complete dependability. It will pay you to see the Light-Six before you buy your next car. It is a product that well upholds Studebaker's 71-year-old reputation for quality and value.
