Consumption Can be Cured. No. 34 CHURCH-ST.,

ONTARIO PULMONARY INSTITUTE. No. 135 Church Street, posite the Metropolitan church). TORONTO.

M. HILTON WILLIAMS, M.D. PROPRIETOR.

All diseases of the respiratory organs treated by Medical Inhalations," combined with proper contutuously remedies.

Permanently established for the cure of all the various diseases of the Head, Throat and Chest, viz: Catarrh, Throat Diseases, Brorchitis, Asthma, Consumption, Catarrhal Ophthalmia (Sore Eyes) and Catharrhal Deafness; also Diseases of the Heart.

Our system of Practice consists in the most improved Medical Inhibitions, combined with proper Constitutional Treatment. Having devoted our time, chergy and skill for the past lifteen years to the treatment of the various diseases of the HEAP, THROAT AND LUNGS, (During which time we have secressfully treated over 20,000 cases) we are enabled to offer the afflicted the most perfect remedies a dappliances or the immediate cure of all those troublesome afflictions.

As we have seen in tracing the relation to Nasal Catarrh and throat dis ases to consumption, there are times, perhaps days, or even whole weeks together, when the affection gives little or no annoy nace, and the patient flatters himself that it has entirely passed away, when a sudden cold or other cause of irritation occurs, and the progress of the disease is materially hastened. At this season of the year, not unfrequently, the disease becomes apparent, and admonishes the patient of the terrible future which must follow if the inflammation is not speedly allayed. Many there are who endeavor to convince themselves that the evil is not of any magnitude, and will soon pass away with the special cause of the irritation; but experience will prove to them the fearful error as it has to thousands who have preceded them to that "bourne from whence no traveller returns."

No one, therefore, who is afflired with masal catarrh or throat affection is safe while it is suffered to exist. Often slight causes give rise to serious complications, for example: The Uvula, or pindulous organ which hangs down from the palatine arch, just over the roots of the tongue is very apt to get inflamed, and its parts becoming relaxed, it stretches out lengthwise, so that its extremities sometimes rest upon the tongue, touching it and causing an urmananageable cough.

The cause was trivial at first, and minh have been quickly removed. How important it is, therefore, that before the patient enters upon any course of medication at careful examination be made by one connectent to deede upon the nature and extent of the disease.

Inhalations are applicable to all diseases of the re-

asc. all alions are applicable to all diseases of the re-ry organs, including catarrh, throat diseases, , bronchitis, consumption; and thousands of an be cured by this mode of treatment when ion free and pric s of the institute withery best of references given from those alhere who desire to consult me in regard to their ess had better call at the office for an examinant, but if impossible to visit the office personally, write for "List of Questions" and circular, the of which will be sent free of charge. Mr. Phipps' articles in The World on Canada's outlook have attracted wide attention. It has been the fashion in newspaper circles to refer to Mr. Phipps' utterances as "vagaries," but the truth is, there are few, if any, of our journalists who are so able, painstaking and effective in dealing with public questions. Phipps may be wrong on some points, but he is at all events, able to give a reason for the faith that is in him—and there are some editors we know of who are not.
