opened the landtag in person to-day. In his speech he declared the revival of com-merce and the good harvests afforded ground for the hope that the advance of all classes of the people towards increased prosperity would continue. He stated that the disproportion between the requirements

the disproportion between the requirements of the state and the resources still existed owing to the reduction by the reichtsad of most of the government's proposals for the introduction of fresh indirect taxes. The resumption of diplomatic intercourse with the vatican had assisted in atrengthening friendly intercourse between himself and the people. He expressed the hope that the conciliating disposition which the government would not cease to display would favorably influence the development of ecclesiastical affairs in Prussia. Meantime the government should commence to exercise the powers granted it under existing laws. The liberals are dissatisfied with the passages of the speech relating to the finances, and among some conservatives a disagreeable impression was produced by the friendly tone towards the vaticar.

The Promise of May. The Marquis of Queens-berry, who is an avowed fresthinker, rose excitedly and loudly protested against Tennyson's presentation of the principles of freethought as enunciated by one of the characters of the play. At the desire of an official the marquis left the theatre amid much confusion.

DUBLIN, Nov. 14-In the Joyce murder trial to-day three witnesses, who allege they followed the assassins at a distance, gave evidence and identified the prisoners, Counsel elicited in cross-examination that there had been bad feeling between one of the witnesses and Patrick Joyce, now on trial, and also between another witness and the murdered farmer. Malley addressed the court on behalf of the prisoner. He maintained his innocence was shown by an absence of motive for the crime and claimed the evidence against him had been concepted.

LONDON, Nov 14-The debate on the second procedure of the resolution was resumed. Gladstone assented, though with considerable misgiving he said, to the amendment providing that a member may obtain leave to move an adjournment during the pendancy of questions, provided forty members rise and favor such a motion. This is a considerable concession on the part of the government, who originally demanded that a motion for adjournment could not be put unless leave was granted by a majority of the house.

St. THOMAS, Nov. 14-In October, 1876, George Wright, living at Dunwich town-ship, was sentenced to Kingston penitentiary for seven years for shooting his neighbor, James Webster, with intent to kill. Wright owned a farm at the time of his arrest, and after he went to the penitenarrest, and after he went to the pentuantiary it was sold without his consent or knowledge by his counsel, who has since died. When Wright was released last week and repaired to his former home he found it was in possession of another man, and that he had not a cent in the world.

But I was informed by a prominent conservative M.P. to-night that Sir John had a plan to quiet Manitoba and to induce the people of that province to accept the monopoly. Already the Manitoba conservative papers are asking for compensation if the disallowance is to be accepted. Sir John's scheme, said my informant, then is to compensate Manitoba by handing all the dominion lands in that province over to the people of that province, as in Ontario and Quebec, on condition that they do not oppose the syndicate's meanager.
