On that night the king could not sleep, and he commanded to bring the book of records of the chronicles; and they were read before the king.

The text, the doctor explained, presents us with a sleepless king who lived 2400 years ago. As king of the Persian empire he slept on a bed of gold resting on a marble pavement, and lived within a gorgeous oriental palace, surrounded by an army of the king could not sleep, and in a restle chronicles—a sort of court diary—be read to him. He finds it written that Mordecai the Jew had told of two of the king's chamberlains who sought to kill King Ahasuerus. On hearing this the king enquired if any reward had been meted out to the faithful servant for his warning, but the answer came that nothing had been done. Haman, the premier of the country, takes a sudden hatred to the Jews who were held as cap-tives, and fearing that they might harm him in position he arranged for a general

him in position he arranged for a general massacre. Mordecai then hears of Haman's intention, and induces his niece (who was a Jewess) to plead with the king for the deliverance of her people. She shrewdly arranges a banquet and invites the king and Haman to attend. At this supper Esther places her petition before the king, and he, wishing an oppertunity to repay Mordecai for his good act, places the army at the service of the Jews and thus saves them from their threatened destruction. (King Ahasuerus lived at the city of Shushan. In 1850 this ancient city was discovered by a party of Englishmen who were settling the boundary between Turkey and Persia.
