

THE SCARE AT CALGARY.

REPORT ALARMS THAT THE INDIANS ARE COMING.

Reported Encounter Between Major Steele and the Red Men—General Hasting's Out of the Line of Communication.

WINNIPEG, Man., May 21.—A despatch from Calgary reports that the police under Major Steele in advance of Gen. Strange's column, en route to Fort Pitt from Edmonton, had an encounter with Indians, losing several men. This news is brought by freighters and lacks confirmation.

Gen. Strange intends effecting a junction with the Battalions troops and thus prevent Big Bear and Poundmaker joining forces.

Calgary seems to be the scene of considerable unnecessary excitement. Imaginary surprises are created and telegrams follow each in quick succession for more troops. The latest rumor is to get the greatest artillery army from Winnipeg, where they are detained for absolutely necessary garrison duty.

A despatch from Moose Jaw announces the arrival of General Laurie who is arranging a change of base of supplies from Swift Current to Moose Jaw on account of the dangers incident to travel by the Swift Current rail.

The bodies of Corp. Cole and Privates Hardisty, Fraser, Watson and Lieut. Fitch are being embalmed preparatory to starting for Winnipeg, where they will arrive to-morrow night. The city council have decided to give the Winnipeggers a public funeral.

Dr. Lynch has received a telegram from Dr. Douglas at Clark's Crossing asking that the body of Private Moor, Royal Grenadiers, en route to Moose Jaw be embalmed and forwarded to Toronto along with that of Lieut. Fitch.

The companies of the Halifax battalion are encamped upon high ground overlooking Medicine Hat, and are vigilant on account of rumors of the close proximity of Indians to the north. Capt. Stewart's rangers are also still in that vicinity and scout the country for miles around.

It is believed Gen. Middleton will not wait there, but will push on to the Battleford. Everything is quiet at the latter place awaiting his arrival.

Indiana Was a Conference. CLARKE'S CROSSING, N.W.T., May 21.—A band of Indians who were on the way from Battleford destined to join Kiel, are encamped about 30 miles northwest of here. They have sent a messenger to Gen. Middleton requesting a conference and it is believed have learned of Kiel's defeat at Batchoe. Settlers on the west side of the river with the exception of the staff at the telegraph office fled on receipt of the news of the disaster.

The body of Private Moore, the Grenadier killed at Batchoe, has been exhumed and passed here on a route to Toronto. At several points a thunder storm has prevailed since Tuesday evening. The wires have been in trouble east of Humboldt.

The balance of the 7th Fusiliers with two companies of the Middleland battalion arrived here yesterday and are encamped on the east side of the river. Four hundred officers and men are here.

Belief for Volunteers' Families. The ladies' volunteer supply committee yesterday discussed what action should be taken in regard to the families of volunteers at the front, who are in need of assistance.

Toronto, May 21, DEAR SIR.—We notice that the Toronto Standard has published an account reflecting on the city council for the mode in which the relief fund for the volunteers at the front was administered.

For reasons best known to itself the council has been endeavoring to create the impression that families of volunteers at the front were being negligently treated by the city council, and that many of them were actually in poverty and distress.

The remains of Lieut. Fitch will probably arrive here Monday evening. The body of Pte. Moor will not arrive until the middle of next week.

Mrs. Edward Blake, treasurer, acknowledges the following subscriptions to the relief fund: Through Mrs. H. C. Symon, treasurer, volunteer supply fund, Niagara Falls, \$121, G. O. 825, Mrs. Blight, 81, Palace street, 38 cents, total \$121.85.

The new historic name of Batchoe is derived from a settler of the name of Francis Xavier Batchoe, who is the principal citizen of the town and living there. The name is common among French-Canadian, especially in the country parts, as an abbreviation or corruption of the word "Baptiste."

A despatch to one of the reliable sources in London on the 20th inst. reports that an attack upon the city of Winnipeg was made by a force of 2000 men, but was repulsed by the city militia and the volunteers.

In a despatch from Montreal to the New York Times it is now said that the relief fund was being administered in a most efficient manner by the city council and in company with Col. Oulmet and Major Hadden of the 6th, when news was received that the relief fund was being administered in a most efficient manner by the city council and in company with Col. Oulmet and Major Hadden of the 6th.

Another correspondent: No doubt, however, the newspapers will tell you all about it, and tell you a great deal more than any of the participants in the affair, for the reporters were all in a quiet, cool and secluded spot and had time to properly observe the various incidents of the affair. It is a pity that the newspapers did not have a more complete account of the affair.

What They Think of the Centennial. Editor World: It is generally thought in rural districts in Ontario that if Kiel is not defeated before the end of the month, that there will be a rebellion in Ontario. It is a pity that the newspapers did not have a more complete account of the affair.

How Fie, Lloyd was Wounded. Private Edward Acheson in a letter to one of his friends gives the following account of how Private Lloyd was wounded. "At one stage of the fight," he says, "I was left alone covering six Indians, who were ready to fire the moment I looked away. Just as some of my comrades reached the top of the hill where I stood an Indian arose and I fired, and he fell back. An old Battleford man who was along shortly second to get his breath, at that moment a shot came, and he fell. Firing place where the ball came I retreated to Lloyd, who was some distance back, and handed him my rifle and asked him to cover me while I got the old man. He said, 'All right, old boy, I will wait for you,' and going down on one knee he fired his rifle straight on the edge of the ravine, and I knew that it was possible to get an attack of to-day, and that this method was another specimen of Indian war tactics—shoot an Indian in the back, and then fire on the man in the Northwest at present. He (Sir John) was not, however, taken by the Indians, but was getting on his feet and had heard this morning that there were preparations completed with the opposition party. As I had prepared for a terrible day, as to the papers already called for, but not brought down, he explained that the Indians had been in the neighborhood, and that he would lay before the house all the information in possession of the government in regard to the matter now out there. A portion of the information would be laid before the house at a very early date, but not all, as there was a great deal of information which he thought it would be highly improper to make public just now, when quite possibly the information would be given to the public. This, he contended, was the course followed by him in the case of the late rebellion, and would be no exception in this case.

Journalists in Battle. Editor World: I notice in a letter from the scene of the troubles some severe criticisms on the newspaper men for not fighting. I think it only shows that they did their duty. Their business was writing, not fighting, and neither of them had a right to leave his post. It is a pity that the newspapers did not have a more complete account of the affair.

Color-Sergeant Cooper's condition is reported to be serious. He was wounded in the groin. The remains of Lieut. Fitch will probably arrive here Monday evening. The body of Pte. Moor will not arrive until the middle of next week.

MR. BLAKE AFTER NEWS.

HE THINKS SIR JOHN SHOULD BE MORE COMMUNICATIVE.

A Debate Regarding the Secretary Information Furnished—Bogus Signatures to Petitions Against the Franchise.

OTTAWA, May 21.—The consideration of the bill in amendment of the Statute in the senate was postponed until Tuesday, as the bill might be re-printed. A bill for the employment of prisoners outside of jail premises was read a second and third time and passed. Other bills were advanced a stage and the hard-worked old judges adjourned, terminating a sitting of less than an hour.

In the house of commons forty-one petitions against the passing of the franchise act were presented.

Mr. Woodworth pointed out that a very large proportion of the signatures to all the anti-franchise petitions were in the same handwriting. A discussion followed on the subject of bogus signatures to petitions. Mr. Shakespeare gave it as his opinion that hereafter the signatures to all petitions should be verified by the signers.

The routine work of the day being completed, Mr. Blake moved for an adjournment of the house in order to take the opportunity of discussing the affairs of the Northwest. He pointed out that the government should bring down all correspondence between the government and the Northwest. He explained that papers asked for some time ago had not been brought down. He thought it imperative that the house should be fully informed of all that was going on and that had transpired. He quoted an old Battleford man who was along shortly second to get his breath, at that moment a shot came, and he fell. Firing place where the ball came I retreated to Lloyd, who was some distance back, and handed him my rifle and asked him to cover me while I got the old man.

SEVENTEEN LIVES LOST.

TERRIBLY FATAL FIRE AT CINCINNATI.

The Elevator and the Telegraph and Telephone Wires Largely Responsible for the Extent of the Calamity.

CINCINNATI, May 21.—The fire at 19 Sixth street this afternoon caused the death of seventeen persons. It was a fire that ran up the side of the building, and was extinguished by the fire department. The fire was caused by a gas stove on the second floor. The flames entered the elevator chute, which is next to the stairsway, and all chance of escape was cut off. The mass of employees of the dye works which occupied a portion of the building. The list now obtainable is as follows: Mary Lawry, aged 17, of Covington, killed; John Sullivan, killed; Emma Finckh, badly injured; Jessie Hawks, severely injured; William Bishop, of Covington, badly injured; Annie Sheppard, fatally injured; Margaret Meyer, fatally injured; Frank Blank, aged 22, jumped from the top of the building; two other girls were dashed to pieces; two sisters of Mary Beaman, both killed; the names of the other victims are being ascertained.
