Township of York.

At the final meeting of the York Township Council yesterday a deputation from Little York presented a petition for exemption from taxes for five years on a grist mill to be erected at a cost of \$1500. The council had no power to grant the request. The Treasurer was instructed to pay the salaries of the Board of Health and the inspectors. A collection was made for Mrs. Carless and Mrs. Nichols, in destitute circumstances, and Deputy Reeve Macdonald was instructed to visit them, Joseph Wilkinson will be sent to the bospital.

A writ was served on the clerk for \$200 damages and \$20 costs by Megers. Fullerton & Co. on behalf of Mr. Beatty, who fell into an alleged unprotected excavation in Poplar Plains-road. This account was sent to the Toronto and Richmond Hill Railway Company.

in North Toronto at the rate of the innum.

The County Treasurer appeared re lands in his hands for sale for arroars of taxes. He had 10 pages of improperly described lots and the treasurer would not be responsible for selling them. It was decided to appoint a committee to wait on the treasurer to-day. One hundred dollars was advanced to the school trustees of section 26. The Bedford Park Company appealed against their assessment; \$175 was deducted in consideration of work done by the company.

The debentures for the Toronto and Richmond Hill Railway will be signed to-day by the reeve and treasurer. A bylaw to disqualify all persons in arrears for taxes from voting in the municipal elections was introduced by Mr. Peterman. After some hot arguments it was passed. book on nursing, a subject that is at present receiving not a little attention. This new work, entitled "Nursing, its Principles and Practice," is by Miss Isabel Adams Hampton, a Canadian lady, who graduated at the Training School for Nurses at Bellevue Hospital, New York, assumed the superintendency of the Illinois Training School at Chicago, and now holds the important position of superintendent of the training school connected with the Johns Hopkins Hospital, Baltimore, Md. Miss Hampton had the honor of presiding at the great World's Congress of nurses at Chicago this summer. Miss Hampton's book is being introduced into the leading hospitals of the United States and Canada. It has been adopted in the Toronto General Hospital and will shortly be introduced into the Silk Children's Hospital, this city. The plain, clear style in which it is written, the practical commonsense directions it contains, as well as its scientific value, make it almost equally useful and necessary in the home as in the hospital. The Canadian publishers sell the work at the American price, \$2 net.

Around the City Hall.

City Solicitor Biggar has given his opinion that the proposed amendment to the snow bylaw, reducing the time for owners of unoccupied property, from 24 hours to 6 hours, to clean off snow is illegal. Commissioner Jones wanted the change made so that his department could do the cleaning within six hours. Mr. Biggar thinks the same bylaw must apply to both occupied and unoccupied land. . ASSESSMENT SYSTEM ...

Home Office, 53 State-street, Boston, Schwartz, Dupee & Co. wired Dixon: Wheat

Schwartz, Dupes & Co. wired "Dixon: Wheat to-day got over 70 cents for a miaute, but there was not the outside buying at 70c that the professionals expected, and after some hesitation the advance was lost. There was a small increase on passage—283,000. Paris cables closed very weak. On the other hand the Northwestern car lots were less than half the same day last year. There was a decrease in the English visible supply of 300,000 bushels. British cables were steady. At times it looked as if the outside trade had considerably increased, and at times it looked as though there had been no increase at all. Exports to-day of wheat and flour made about 300,000 bushels. The scalping and commission trade seems bullish. Exporters and cash people are bearish.

Corn had a little better range to-day, moving up 3%c, but not holding. Buyers of "calls," however, had a chance to get action, the first chance in a week or more. There were only 178 cars received. The estimate for Tuesday was only 340. The trade was unimportant. The local stock, 1,609,000 bushels, showed an increase of 250,000 bushelr. Cables, very strong.

Provisions industriously builed all day by local traders using January lard, of which offerings are small, as a lever. The actual business done was very small, and we see nothing to change our view that the market is a sale on the hard spots. The storm may hold back hogs another day, but our advices say we will have liberal receipts this week. Estimated Cash Surrender Value of Policy Carried to the Life Expectancy of the insured.
