THE ACUTE PAIN FROM NEURALGIA

Permanently Cured Through the Use of Dr. Williams' Pink Pills.

Neuralgia is not a disease—it is only a symptom, but a very painful one. It is the surest sign that your blood is weak, watery and impure, and that your nerves are literally starving. Bad blood is the one cause—good, rich, red blood the only cure. There you have the real reason why Dr. Williams' Pink Pills cure neuralgia. They are the only medicine that contains in correct proportions the elements needed to make rich, red blood. This new blood reaches the root of the trouble, soothes the jangled nerves, drives away the nagging, stabbing pain and braces up your health in other ways. Among the sufferers from neuralgia, cured by Dr. Williams' Pink Pills, is Mrs. Chas. Brown, Durham, Ont., who says: "For months I suffered intensely from neuralgia. The pain in my head and face at times was so great as to be almost unbearable. I tried two doctors, and many remedies, without finding a cure, as there seemed to be no let-up of the pain. Finally I was advised to try Dr. Williams' Pink Pills, and I began their use. Soon I found the pains becoming less and after taking the pills for some weeks the trouble entirely disappeared and has not since bothered me."

If you are suffering from any blood and nerve trouble begin to cure yourself to-day with Dr. Williams' Pink Pills. You can get these pills from any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from the Dr. Williams' Medicine Co., Brockville, Ont.

The saw mill of the Parkhill Lumber and Manufacturing Company was discovered on fire shortly after five o'clock Saturday morning and burnt to the ground. Fortunately the large piles of lumber escaped or the loss would have been a heavy one. The origin of the fire is a mystery as the fire in the engine was completely out when last seen. This is the second time this mill has burned.

While drilling for water on the premises of the Lambton Packing Company, near Wanstead, workmen struck a good flow of gas. It is likely that the gas will be utilized at the factory and some may be piped for the use of other people. There is every indication that a splendid supply exists.
