WEDNESDAY, OCTOBER 19, 1910.

—The Committee of Conservation
of the Public Health is doing useful
work in sending out bulletins on
topics related to the preservation of
health. Two bulletins have just come
to our table, one discussing Pure
Water and the Pollution of Water-
ways, the other the Report of the
International Commission on the
Control of Bovine Tuberculosis.While the people of Bridgetown
have every reason to be satisfied as
to the comparative purity of our wa-
ter supply, the mountain streams
feeding our reservoir being as little
contaminated as any water supplied
by nature, the matter is one of serious
import to our farmer readers,
and we would recommend them to
send to the Commission of Conserva-
tion, Ottawa, for a copy of this
bulletin. Also for the other bulletin
just issued on the Control of Bovine
Tuberculosis. This bulletin states:"It is recognized that tuberculosis
is widely prevalent among cattle
and other animals and that the
frequency with which this great
evil occurs is increasing rather than
declining. As tuberculosis is one of
the strictly preventable infections,
there is good ground for the belief
that through the formulation and en-
forcement of proper regulations the
"disease may be eventually entirely
suppressed."

Board of Health Meeting

A special meeting of the Board of
Trade was called on Monday, 10th
inst to deal with the case of George
Munro, a milk dealer of the town,
who had a case of typhoid fever in
his family, his son having come
home from Campbellton III with the
disease. The health officer of the town
Dr. M. E. Armstrong, was summoned
before the Board to inform them
as to the circumstances and to give
his opinion concerning the danger to
the customers of Mr. Munro. Town
Clerk Ruggles read a notice he had
sent to Mr. Munro under the in-
struction of the Board of Health
notifying him to cease to deliver
milk within the town limits, and
calling his attention to the provi-
sions under the Act relating to the
Public Health.Dr. Armstrong was of the opinion
that as the boy had contracted the
disease while absent from home, and
the dairy being carried on away from
the house and as he believed every pre-
caution was taken by the nurse and
other members of the family while
the boy was ill in September there
was no probability of danger of con-
tamination through the milk. The
boy had been home a month and re-
quired very little medical attendance,
his case being a light one.Upon motion it was resolved that
Samuel Pratt and Guy Ruffes be given
permission by the Board to keep
dairies and deliver milk in the town
subject to the revocation by the
Board at any time. It was then
moved by Councillor Craig and se-
conded by Councillor Burns that per-
mission be granted to George Munro
to sell milk in the town. After a
full and free discussion the chair-
man, Mayor Hoyt, called for a
standing vote. Councillor Burns
voted for the motion and Councillors
Craig, Ruffes, Tupper and DeWitt
against, and the motion was lost.Subsequently to the meeting mem-
bers of the Board were convinced
that the precautions taken by Mr.
Munro would secure his customers
from danger of contamination and
the case being a very light one and
the boy convalescing rapidly it was
decided no action in the matter by
the Board was necessary.The customers of Mr. Munro have
expressed themselves as entirely sat-
isfied that no danger existed under
the conditions by which the milk
supply was cared for and he has
continued to deliver milk without in-
terruption. Doubtless the Council at
an early date will accord him the
license already given the other milk
dealers.

DeBlois, pty. at Annapolis.
Geo. M. Lake to Geo. M. Lake &
Co., Ltd. pty. at Bridgetown.

Crop Report

Ottawa, October 11. The Census
Office publishes today a Bulletin of
the condition of crops in Canada at
the end of September. The reports
show lower averages of condition for
the whole of Canada than those of a
year ago, but the reduction applies
chiefly to the Northwest provinces.
In the eastern provinces a high per-
cent is maintained for nearly all the
crops, and quantity and quality are
nearly as good as a year ago and
better than two years ago. In Man-
itoba, Saskatchewan and Alberta
there is a drop of about twenty per-
cent in the quality of grain and
roots, but the thrashing indicates
that the yield will be larger for
wheat, oats and barley than was
promised at the end of August. For
the whole of Canada the condition
of rye at the end of September was
82.5, which is ten per cent better
than two years ago and 2.39 better
than last year. Peas and beans are
nearly eight per cent lower in condi-
tion than a year ago, but nearly
ten per cent higher than in 1908.
Ruckwheat is about the same as last
year, and twelve per cent better
than in 1908, whilst mixed grains
are better by five per cent than last
year and by 19.47 per cent better
than two years ago. Corn for husk-
ing compared for the three years
1910, 1909 and 1908 shows percentages
of 85.12, 86.77 and 82, and corn for
fodder of 89.82, 87.18 and 92, for the
respective years. The condition of
potatoes is 76.98 at the end of Sep-
tember compared with 90.37 last year
of turnips 82.09 to 83.34 and
of sugar beets 18.13 to 71.02,
whilst in 1908 their condition ranged
from sixty-eight to seventy-four. Al-
lata has a condition of 83.30 for the
end of September, and it ex-
ceeds ninety in the Maritime Provin-
ces and Ontario. In Quebec and the
Northwest provinces it is not more
than seventy per cent, and in Brit-
ish Columbia it is 82.32. All feed
grains in the province last named
exceed eighty-two per cent in quality.
The estimated yield of rye this
year for Canada is 1,634,000 bushels,
of peas 6,444,500 bushels, of beans
1,889,600 bushels, of buckwheat 7-
302,000 bushels, of mixed grains 29-
103,000 bushels, of flax 4,314,000
bushels and of corn for husking 17-
682,000 bushels. The average bushels
per acre of these crops is 19.43 for
rye, 15.69 for peas, 20.84 for beans
26.98 for buckwheat, 34.91 for mixed
grains, 9.04 for flax and 53.83 for
corn. Better averages for wheat,
oats and barley are assured when
the final returns are made in Decem-
ber than the reports for the end of
August gave.

ARCHIBALD BLUE

Obituary.

WILLIAM H. BENT.

On Monday afternoon of last week
the earth closed over all that was
mortal of our oldest and one of our
most respected residents, Mr. Wil-
liam H. Bent, whose death took place
at the residence of his daughter, Mrs.
John K. Healey, of Karadale. He
was a son of the late John Bent,
was born at Belleisle in the year
1819, being in his 91st year at the
time of his death. He married early
in life, Miss Elizabeth C. Genser and
lived on part of the homestead farm
all the years of his life. His wife
predeceased him two years ago,
since that time he has lived with his
daughter. He was one of the old and
fast-fading landmarks of bygone
years. He was conspicuous for his
kind and open-hearted hospitality to
friend or stranger, who came within
his gates, and no more will the
welcome and familiar presence of
"Uncle Willie" as he was fondly
called by all the younger people of
the locality be seen among us. He
was a man of most remarkable vital-
ity, which he retained up to a short
time previous to his demise. He was
laid to rest beside his wife and mem-
bers of his family, who had prede-
ceased him, in "God's beautiful
acre," the Genser cemetery. The Rev.
W. T. Suckling officiated. Three
daughters survive him, Mrs. John K.
Healey, of Karadale, Mrs. Percy E.
Genser, of Bridgetown, and Mrs.
Charles Todd, of Lynn, Mass.LATE GOVERNOR FRASER LEFT
\$92,000 ESTATE.Willed Everything to His Widow to
Do as She Pleases With ItHalifax, Oct. 10.—The value of the
estate of the late Lieut.-Governor
Fraser is \$92,000. The will was filed to-
day. It reads as follows:
"I, John Fraser, do hereby give to my
wife, D. de Fraser, all my real and
personal property of every kind and
wherever situated. She may use and ex-
pend the rents, profits and interest ac-
cruing thereon, and the whole or any
part of the principal during her lifetime;
give to any or all my children who may
survive me, and if anything remains at
her death, I give the same to my
children in such manner as she shall con-
sider best for them and in such proportions.
I appoint my said wife sole executrix of
this my last will and testament."CANADA THE PARADISE
OF WORKINGMEN.Judge Grantham Takes Home to
England Message to WorkersA London dispatch of recent date
says:—Judge Grantham, speaking at
Lewes yesterday, said that Canada was
the workingman's paradise, with no
illness, no unemployment, and
no work with high wages for all.
Mr. Grantham said Canadian railway-
men and miners had sent a message to
him to fellow workers in Britain, "Give
up your false pride in strength and
numbers. You are fighting for shadows
and losing the substance. You are kill-
ing the bird that lays the golden egg.
The capitalist is your greatest friend.
He is the only man who can create
work. Without work you cannot live.
Help him, do not thwart him at every
turn."It is in time of sudden mishap or
accident that Chamberlain's Liniment
can be relied upon to take the
place of the family doctor, who can-
not always be found at the moment.
Then it is that Chamberlain's Liniment
is never far from wanting, in cases
of sprains, cuts, wounds and bruises.
Chamberlain's Liniment takes out
the soreness and drives away the
pain. Sold by all dealers.

NO MORE PRIZE FIGHTS.

Los Angeles, Cal. Oct. 12.—The
City Council passed its anti-prize
fight ordinance yesterday in amend-
ed form. Ten round amateur bouts
with seven ounce gloves are permit-
ted, but professional fighting is har-
bored by the provision that no admis-
sion shall be charged and that the
prizes be limited to trophies costing
not more than \$25.

Springfield.

Mr. F. O. Grimm made a business
trip to Bridgetown recently.
The Mission Band had a concert in
the Baptist church on Sunday even-
ing, which proved a success.
Miss Flora Grimm is visiting
friends in Worcester, Mass.Our moose hunters are not having
very good luck. We hear of them
having a "call" occasionally.J. M. Patterson is having a piece
built on his store, which will be a
great improvement.
Mr. W. C. Grimm is building a
new house near the depot.The ladies of the Union church
held a social in Bent's Hall on
the 17th inst.

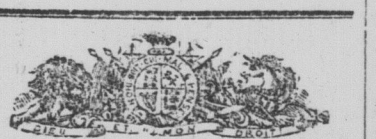

SPRINGHILL MINER SHOT WHILE HUNTING.

Marcell Moret May Die as Result of
Accident While Out Hunting
With Companion.Amherst, October 16.—A sad shoot-
ing accident occurred at Joggins
Mines on Saturday morning, which
will probably result in the death of
Marcell Moret, a Belgian miner in
the employ of the Maritime Coal
and Railway company. Moret and a
fellow Belgian named John Baptiste
Demire were out shooting rabbits
and partridges about three miles
from the town. They were separated
by some distance, and Moret's com-
panion fired at a rabbit which came
in line with Moret, who received the
whole volume of shot in his body.
One penetrated through his right eye,
another through the lower extremity
of his throat, while about a dozen
of the shot found a landing place
in his throat. Demire was terrified,
and did what he could for his unfor-
tunate companion, and then started
for help. The wounded man, after
some delay, was carried out of the
woods. He is still living, but his
recovery is doubtful.Electric Beans Are a Natural
Remedy for Nerve, Stomach
and Liver Disorders.Once upon a time disease was
thought to be due to direct influ-
ence of evil spirit and magic was in-
voked to cast it out.Science has taught us wisdom.
The evil spirits still exist, we call
them "Disease Germs," and they
must also be cast out. Ones lodged
in the stomach or intestines hin-
der with its aches and pains, or in
the liver, affect the human race, is the
result.Electric Beans are the approved
remedy for driving out disease germs.
Their action is quick and thorough,
they clear the intestine, rouse the
torpid liver to new life, stimulate
muscular members to healthy action,
and cleanse all invigorate the
whole digestive tract. Be prepared
for emergencies by always keeping a
box in the home.See our booklet of remarkable
cures, testing is recommended
at our risk, if it is not satisfactory
we will cheerfully refund the money
paid for it.Electric Beans have had only
one agent, Mr. Frank H.
Dodge, of Bridgetown, N. S., or di-
rect from us, 50c. a box.
